

Curious Stone Formed

by Discharge of Lava

Reports from Armenia tell of the discovery of a strange stone which, it is said, can be melted like a piece of board, saved with an ordinary saw and painted any color. This curious stone, which it is hoped will insure the economic independence of Armenia, has been found in great quantities in the vicinity of the little town of Artig and has in consequence come to be called in Armenia artig dufa.

The dufa is a light building material, but it is reported to be tough and able to withstand great strains. Heat and sound penetrate it very little, and the material is being made to serve equally well as the walls of a building or as the furniture inside it.

Discharges of lava from Mount Ararat originated the deposits of dufa, which are estimated to amount to some 60,000,000 cubic metres. The discovery has aroused great interest in European scientific circles. The Armenian government, as a member of the Soviet union, has sought the opinion of Moscow mineralogists as to the uses of the dufa.

According to plans announced, the Soviet governments will erect buildings constructed of dufa in many of the principal cities of the union to advertise the stone.

New York Church Goes

Far Back Into History

The Collegiate church of New York began its meetings in the Colony in New Amsterdam in 1623, the congregation gathering in the loft over the horse mill on the site of the present No. 20 South William street, formerly Mill street. Its succession of ministers has been unbroken since 1623. This first church edifice, erected in 1633, stood on the site of the present Nos. 37 and 39 Pearl. The second, built in 1642, was the "Church in the Fort," which stood within the stockade of Fort Amsterdam at the Battery and was known as the Church of St. Nicholas. After the passing of the colony from the flag of Holland to that of Great Britain, a charter was granted the church in 1666, during the reign of William and Mary, under the seal of the province of New York and over the signature of Governor Fletcher. When purchased, the present site of the Marble church was on the outskirts of the city. The building, constructed of Hastings marble, was first called the Fifth Avenue church or the Twenty-ninth Street church. In 1906 the consistory officially designated it as the Marble Collegiate church.

FAMILY DOCTOR
LEARNED THIS ABOUT
CONSTIPATION

Dr. Caldwell loved people. His years of practice convinced him many were ruining their health by careless selection of laxatives. He determined to write a harmless prescription which would get at the cause of constipation, and correct it.

Today, the prescription he wrote in 1885 is the world's most popular laxative! He prescribed a mixture of herbs and other pure ingredients now known as Dr. Caldwell's Syrup Pepsin, in thousands of cases where bad breath, coated tongue, gas, headaches, biliousness and lack of appetite or energy showed the bowels of men, women and children were sluggish. It proved successful in even the most obstinate cases; old folks liked it for it never gripped; children liked its pleasant taste. All druggists today have Dr. Caldwell's Syrup Pepsin in bottles.

Ancient Baby Carriage
Augusta, Maine, claims one of the most interesting baby carriages in the state. It is sixty-five years old and only recently was removed from attic treasures. The wooden-ribbed wheels are large, and the seat will accommodate a seven-year-old child. The top, which tilts, has fringed edges.

Every day you surrender your rights several times rather than make a row.

When
Babies
FRET

There are times when a baby is too fretful or feverish to be sung to sleep. There are some pains a mother cannot put away. But there's no time when any baby can't have the quick comfort of Castoria! A few drops, and your little one is soon at ease—back to sleep almost before you can slip away.

Remember this harmless, pure vegetable preparation when children are ailing. Don't stop its use when Baby has been brought safely through the age of colic,

Nervous, Weak, Lost Weight

Tacoma, Wash.—"I had an operation and could not regain my health or get strong afterwards. I was nervous and weak, only weighed eighty-five pounds. I was nothing but skin and bones. I was so weak that I would have to hold to something when I tried to walk. I went on this way for about three years during which time I took one medicine after another without getting help. Then I started using Dr. Pierce's Favorite Prescription and after taking six bottles I was well and strong."—Mrs. Pauline Thaut, 1914 So. Cushman St. (All dealers.)

Kitten Made Trouble

A hungry kitten caused a turnout of a detail of Philadelphia police when Charles Rosenblum was alarmed by mysterious sounds in his butter and egg store after closing time. With drawn pistols the detachment of police searched the store and found the only intruder a strange cat out for a meal. The police withdrew while the store owner provided his uninvited guest with a saucer of cream.

Needless Pain!

Nowadays, people take Bayer Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Bayer Aspirin tablets are utterly harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but

you can always turn to Bayer Aspirin for relief.

Bayer Aspirin is always available, and it always helps. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

Home Has More Danger Than Savages of Brazil

JOHN J. WHITEHEAD, explorer and lecturer, has just returned from eight months in the jungles of South America, where he was searching for traces of the lost Colonel Fawcett and his son.

Dangerous as he found the jungle, he encountered a worse danger at home. But let him tell it.

"One of the great problems of a trip of this kind is keeping in healthy condition. When we started, some of the members of the party had laxatives with them, but made wise by experience I carried Nujol. All too quickly my stock ran out. Soon I was in bad shape—what with a diet of rice and beans, lacking vitamins and green vegetables.

"When we finally got back to civilization, entertained first in Brazil and later in the United States, I became positively ill. Severe stomach pains and poor elimination made me realize that Nujol would again prove the reliable, trustworthy keeper of health. Sure enough, with the first bottle the trouble disappeared.

Don't think Nujol is a medicine. It is as tasteless and colorless as clear water. It brings you, however, what your body needs like any other machine—lubrication. Just as a good bath washes our bodies clean, Nujol

John J. Whitehead, explorer and lecturer, with a Jungle Warrior

sweeps away, easily and normally, those internal bodily poisons (we all have them) that make us feel dull and headachy and sick. Nujol cannot hurt even a little baby; it forms no habit; it contains not one single drug. Doctors and nurses use it themselves and tell you to use it, if you want to be well.

Take Nujol every night for two weeks and prove to yourself how happy and bright and full of pep you can be, if your body is internally clean. Get a bottle today at any drug store. It costs but a few cents, and makes you feel like a million dollars. Start traveling the health-road to success and happiness—this very day!

Listen to Your Own Voice

Making a permanent record of one's voice through the medium of a slot machine may soon be possible and the inventor has great hopes that his device will fill a popular demand. Slot machines will be placed on the streets of London at an early date and if they prove popular and profitable they will be sent to other cities. The record is made upon a thin disk of metal alloy of secret composition and when it has been thus impressed the record may be taken from the machine and immediately placed on a phonograph.
