Drink Water to Help Wash Out Kidney Poison

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless, salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Children Cry for it

Children hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and harmless as the recipe reads. (The wrapper tells you just what Castoria contains.)

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in infantile ailments. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, use it to keep the system from clogging. Your doctor will tell you Castoria

deserves a place in the family medicine cabinet until your child is grown. He knows it is safe for the tiniest baby; effective for a boy in his teens. With this special children's remedy handy, you need never risk giving a boy or girl medicine meant for grown-ups. Castoria is sold in every drug store; the genuine always bears Chas. H. Fletcher's signature.

Fliers Say Courage Varies with the Way they Feel

AEROPLANE pilots tell us that their courage, their whole attitude toward flying, varies from day to day, with the way they feel. If they feel full of pep, healthy, they can try anything—nothing frightens them. Their nerve is unshakable; their skill keen; their flying is machine-like in its perfection.

It is an entirely different story, however, if they wake up in the morning feeling sick, down in the mouth. Then flying becomes a real danger.

What is the matter with these brave people when they are not up to par? The natural poisons in their bodies have not been swept away. They are allowing their brains to be clouded and dulled by poisons which should not be permitted to remain in the body.

This is the lesson we can learn from fliers. It is the lesson that points to Nujol—the simple, natural, normal way—without the use of drugs or medicines to keep the body internally clean of the poisons that slow it up. Nujol is pure, tasteless, colorless as clear water. It forms no habit; it cannot hurt even a baby.

See how the sunshine floods into your life when you are really well. Get a bottle of Nujol in its sealed package at any drug store. It costs only a few cents and it makes you feel like a million dollars. Find out for yourself what Nujol will do for you this very night. You can be at top-notch efficiency and happy all the time.
