Move to Wipe Out "Athlete's Foot" Menace in Cities of United States

ENOUGH tiny parasites to infect every person in the United States with athlete's foot are lurking on the glass plate shown above. They are being examined by a New York bacteriologist. The plate contains billions of Tinea Trichophyton, which cause the foot malady, a form of ringworm, and these parasites were cultivated from a single specimen overnight.

Widespread evidence of this disease, which has caused some schools to close and has indicated that an outbreak of it might come to any village or city of the United States, has caused medical men in all parts of the country to study means by which it may be eradicated. Constant use of antiseptic is being urged as a means to aid the fight against this age-old malady which has recently taken a more serious appearance in this country. The photograph was taken in the Pease Laboratories in New York where scientists are constantly studying the disease in an effort to control it.

JEANETTE LOFF AND ROD LA ROCQUE IN "LOVE OVER NIGHT"

Coming to the Beaver Theater Sunday, Monday, Tues.

SIDE LIGHTS

The Broadway wisecrack, "Don't step on it; it might be Lon Chaney" could be paraphrased by two burglars of Malone, N. Y. While robbing a store, one of them stepped on the proprietor who was sleeping on the

floor. His cries brought police who captured the careless intruders. When Louis Golding of Brooklyn sought to have his name changed to Golding, the judge of the court to which he applied refused his petition and hawled him out besides. The judge's name happened to be

Louis Goldstein.

President College riders went out on a jaunt to see the Wall House horse race for cash. The riders were recently baked when asked to count the wooden horse "Hans" lying to the Los Angeles Breakfast Club, which all guests are supposed to ride.

OHIO CLOVER SEED IS ALL DISTRIBUTED

More than a carload of Ohio hardy red clover seed, brought into the state and distributed by the Oregon Extension service at the request of growers and dealers, is in the hands of farmers in some 15 counties of the state. Inspection of fields has also been made and it is believed a successful beginning has been made in re-establishing Oregon as a leading clover seed producing state.

PLAY TO BE GIVEN BY B.H.S. STUDENT BODY

A treat is in store for all who attend the play given by the student body of the high school this evening (Friday) in the auditorium.

"Seven Keys to Success" is the title of this melodramatic farce. The scene is laid in the office of the Baldpate Inn where a young writer comes to have the necessary seclusion to write. He has no time to finish his writing, for one person after another enters the office with personal news, although the writer has the "only key in existence."

There are a large number of talented students featured in the play who are all capable, and you will never regret having seen this play, which is under the direction of Miss Geraldine Sanford.

There will be music between the acts.

Why does the omelet-recipe say SERVE AT ONCE ?

THE minute an omelet is hot from the pan, it is puffed up, tender... at its best... And the minute vegetables are fresh from the garden, all their flavor, all their juice are at their high point.

The way to have white wax beans while they are tender; and carrots when so crisp they cook creamy before they are creamed... the way to have all vegetables at their climactic time of freshness, is to pick them from a garden of your own. And the way to grow vegetables approaching perfection is to plant Ferry's purebred Seeds.

These seeds are perfected the way breeders perfect cattle. A Ferry-bred tomato is no more like an ordinary tomato than Ferry's sweet corn is like horse corn. Find Ferry's purebred Seeds at the "store around the corner." And write for Ferry's Seed Annual. This gives 73 years' experience in gardens—news of mulch paper—and even of better ways to cook vegetables. D. M. Ferry & Co., 500 Paul Ave., San Francisco, California. P. S.—THE GARDENER HAS NO SECOND CHANCE. PLANT THE BEST.
