"Electrocuted" Leakage of electric currents from high-power transmission lines often causes serious injury to trees, according to tree specialists in the United States Department of Agriculture. Another common type of injury to trees and shrubs is scorching and burning as a result of the plants being located where white-washed or light-colored walls reflect the heat of the sun. Other types of injury to trees are caused by dense shade or too intense sunlight.

Paper Making in Japan
Japan is rapidly taking its place among the paper-making nations, particularly in the news print field. With her huge forests and almost unlimited water-power supply, she is producing a paper independent of any foreign source of raw material. Only the United States, Great Britain, Germany and Canada exceed Japan in output.
The industry has rapidly forged to the front in the progressive and modern activities of the empire, and bids fair to be even more productive in the future.

TOOK IT TO BUILD HER UP

Strengthened by Lydia E. Pinkham's Vegetable Compound

La Junta, Colo.—"After my little daughter was born, one of my neighbors persuaded me to try Lydia E. Pinkham's Vegetable Compound to build me up. The first bottle made quite a change in me. I got an appetite and can sleep much better. I am not so nervous as I was. I have 6 children and do all my own work. I can do so much more now than I could when I began taking the Vegetable Compound and I shall certainly recommend your medicine whenever I have an opportunity."—Mrs. Jones Demons, R. 2, Box 216, La Junta, Colorado.

"For purposes of publicity I have it distinctly announced that I revert to the tallow dip. A statesman just now can't afford to be regarded as under the slightest obligation to either oil or electricity."—Washington Star.

Restless Children

Children will fret, often for no apparent reason. But there's always one sure way to comfort a restless, fretful child. Castoria! Harmless as the recipe on the wrapper; mild and bland as its tastes. But its gentle action soothes a youngster more surely than some powerful medicine that is meant for the stronger systems of adults.
That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is any need. In cases of colic, diarrhea, or similar disturbance, it is invaluable. But it has everyday uses all mothers should

understand. A coated tongue calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed to set everything to rights. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. Doctors prescribe it.

Odd Electrical Discharge
St. Elmo's fire is the glow accompanying the brushlike discharges of atmospheric electricity which usually appear as a tip of light on the extremities of pointed objects, such as a church tower or the masts of ships, during stormy weather. It is commonly accompanied by a crackling or hissing noise. The name St. Elmo is an Italian corruption through Sant' Ermo of St. Erasmus, the patron saint of Mediterranean sailors, who regard St. Elmo's fire as the visible sign of his guardianship.

Says Men Want Pals, Not Patients!

SHE was engaged! She was the happiest girl in the world. A round of teas and parties, a whirl of pleasure, and she began to wonder what was the matter. Too tired to go out—and he—was he becoming tired of her?
It was at this point that Miss Margaret Belden of Los Angeles woke up to the fact that something had to be done about it. "Men want pals, not patients," she writes. "I went right to my doctor. Do you know what he said? Rest—and Nujol!"
"With a prayer in my heart and Nujol in my medicine cabinet I began to fight back to being the healthy, robust, happy girl I had been before. Two months passed. No more tears—no more worrying, no more bad dreams. Today I beat him on the tennis court, and although he can out-swim me, I make him work doing it. It's good to be happy. It's good to be free, physically, and be able to share, any time, in sports or dancing or anything else with the one you love!"
Here's another one who has learned that the simplest and surest way to be well and full of good spirits is to clear the bodily poisons out of your system regularly. Not with powerful

ful drugs, but normally, naturally, easily. Doctors and nurses recommend such a natural treatment as Nujol, because this crystal-clear liquid isn't a medicine at all! It contains absolutely no drugs. It is simply internal lubrication that your body needs like any other machine. Good looks and good spirits—do they spell popularity? You know they do! Get a bottle of Nujol tonight in any drug store. Sold in sealed packages only—trade-marked "Nujol." Insist on Nujol by name. It costs but a few cents—and it will make you feel like a million dollars.
