

Beaverton Review

Issued Every Friday at Beaverton, Oregon.
THE REVIEW PUBLISHING CO.

FRIDAY, JUNE 27, 1936.

Entered as second class matter December 9, 1922, at the postoffice at Beaverton, Oregon, under the Act of March 3, 1879.

J. H. Hulet, Business Manager

A small cork neatly fitted into the spout of the teakettle or coffee-pot will hasten the boiling.

It is noticeable that the jaw bone of an ass is just as dangerous now as it was in Samson's time.

The long skirt is like prohibition—the joints are still there but they are harder to find.

Mr. and Mrs. N. W. Gorham of Portland called on Beaverton friends Sunday.

Mr. and Mrs. D. Campbell of Beaverton spent the week end at Gearhart.

Floyd Teft moved his family to Timber on Wednesday where they will spend the summer.

Mrs. R. C. Bralen and children Robert and Jean, visited in Portland with relatives over the weekend.

Mrs. M. C. McKercher was operated on the first of the week for a mastoid. She is getting along nicely.

Mrs. E. W. Woodruff and her mother, Mrs. Leta of Seattle, visited with friends in Beaverton Monday evening.

Mrs. Doy Gray entertained the Tuesday Bridge club last Thursday at her home. Mrs. Schoene won the high honors.

Mr. and Mrs. Leland Shaw spent the week end at the home of Mr. and Mrs. Geo. Thynge. Mr. Shaw had just returned from California bringing his aunt, Mrs. Clark with him.

HOME POINTERS

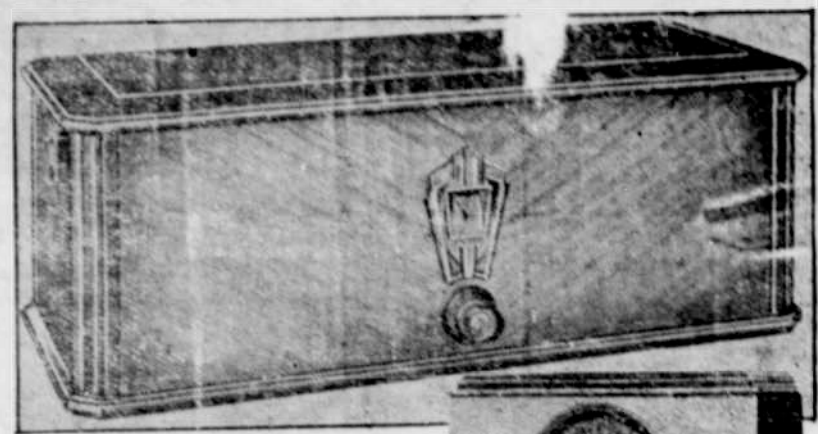

Pecan Waffles

3 teaspoons baking powder
1/2 teaspoon salt
1 tablespoon sugar
2 1/2 cups special cake flour, sifted
1 1/2 cups milk
2 egg yolks, well beaten
2 tablespoons melted butter
2 egg whites, stiffly beaten
1/2 cup pecan meats chopped

Sift flour once, measure, add baking powder, salt and sugar, and sift together twice. Combine milk, egg yolks and butter; add to flour. Fold in egg whites. Just before bak-

king, add pecans. Bake on hot greased waffle iron. Serve hot with butter and syrup. Makes six 4-section waffles.

New Sets Use Screen Grid Tubes

Two new Radiolas employing the new AC screen grid tubes and a new power amplifier in a specially designed circuit to bring out their full capabilities, have been announced by E. A. Nicholas, vice president of the Radio-Victor Corporation of America.

One of these sets, Radiola 44, is a table model, and the other, Radiola 45, is a console with a built-in electrodynamic loudspeaker. Both receivers are encased in cabinets of two-toned walnut veneer.

"Radiola 44," the announcer said, Mr. Nicholas explains, "utilizes three UY-224 screen grid tubes, two of which serve as radio frequency amplifiers, and the third as a power detector. The new UX-245 power amplifier tube is used in the single stage of audio amplification. The receiver has three tuned radio frequency circuits, but because of the characteristics of the screen grid tubes, has as much selectivity as a set having four tuned circuits and using the standard three-element tubes. The two UY-224 tubes which are used as radio frequency amplifiers give as much amplification as four of the ordinary three-element tubes.

"The screen-grid power detector tube gives such a strong signal that it makes possible the elimination of one stage of audio frequency amplification, reducing to a minimum the possibility of distortion, sometimes present where successive stages of audio amplification are used. The output energy from the plate of this power detector tube is transferred by a choke and filter system to the UX-245 power amplifier tube instead of through a transformer. This results in an exceedingly high quality of musical reproduction and brings out particularly well the full tones of the bass register. As an additional precaution to insure undistorted reproduction, the UY-224 power detector tube has a radio frequency filter which prevents any radio frequency disturbance from being carried over into the audio amplifier.

"The UX-245 power Radiotron used as an audio amplifier is capable of delivering a power output equal to that of the UX-210 Radiotron, but operates with a lower plate impedance which results in a greatly im-

proved quality of tone reproduction. As used in Radiola 44, the UX-245 Radiotron will give undistorted volume in excess of the requirements of the average home."

An unusual type of selector dial is employed in Radiola 44. In addition to the usual scale markings of zero to one hundred, the selector dial has approximate kilocycle markings to facilitate tuning. When the set is in operation, the scale markings and numbers, greatly magnified, are projected upon a small translucent, composition screen in the center of the escutcheon plate. Another unusual feature is a two-in-one tuning and volume control, arranged concentrically so that they appear to be one control, adding materially to the external appearance and enabling the user to operate both controls simultaneously with one hand. A local distance switch maintains the quality of reproduction for both strong local and weak distance stations.

The same radio circuit and Radiotrons as used in Radiola 44 are incorporated in Radiola 45, together with a built-in electro dynamic loudspeaker of the Model 106 type.

CHURCH ANNOUNCEMENTS

St. Cecilia Church

Sunday Masses — 7:40 a.m. and 10 a.m.
Weekday Mass 8:30 a.m.
Rev. J. M. O'Neill

M. E. Church

Sunday School, 10 a.m.
Praying Services, 11 a.m., 8 p.m.
Epworth League, 7:15 p.m.
Everyone cordially invited to the Church with the friendly welcome.

Bethel Church

9:45 a.m. The Church School R. C. Doty, Superintendent.
11:00 a.m. Morning Worship. Sermon: "The Possibilities of the Future."
Vocal Solo by Miss Ida Miller.
—T. Arthur Dungan, Minister

Church of Christ

The Bible School Council met last Tuesday night with practically every teacher in attendance. Many new plans for the good of the Bible School were discussed and the New Adult Young People's Class formally organized the age limit for membership being set at twenty years, with Mrs. Springer as temporary teacher.

We are very glad to have Miss Arnett in charge of our choir and want to urge a good attendance at choir practice. We are confident that our music will be greatly improved under her leadership. The morning worship is at 11 o'clock and the sermon topic is "Christian Growth and Fortitude." Christian Endeavor is at 7 o'clock and the evening service at 8 o'clock. The evening sermon topic will be "To Whom Shall We Go?"

BANKERS STUDY CHAIN BANKING

The Economic Policy Commission of the American Bankers Association has been specifically instructed by the general convention of the association to study and report on chain and group banking developments, and also on the proposal of the Comptroller of the Currency for an extension of branch banking in the national banking system, to permit those banks to conduct branches in the trade areas surrounding their locations.

R. S. Hecht, President of the National Bank and Trust Company, New Orleans, Louisiana, is chairman of the commission. The members are: George E. Roberts, Vice President National City Bank, New York, N. Y., vice chairman; Nathan Adams, President American Exchange National Bank, Dallas, Texas; Leonard P. Ayres, Vice President Cleveland Trust Co., Cleveland, Ohio; Frank W. Blair, Chairman of Board Union Trust Company, Detroit, Michigan; Walter W. Head, President Foreman-State National Bank, Chicago; W. D. Longyear, Vice President Security-First National Bank, Los Angeles, California; Walter S. McLucas, Chairman of Board Commerce Trust Company, Kansas City, Missouri; Max B. Naim, Vice President Citizens National Bank, Bowling Green, Kentucky; Melvin A. Traylor, President First National Bank, Chicago; Paul M. Warburg, Chairman of Board International Acceptance Bank, New York, N. Y.; O. Howard Wolfe, Esq., Philadelphia National Bank, Philadelphia, Pennsylvania; Gordon Edwards, American Bankers Association, New York City, secretary.

A survey showing the extent to which chain and group banking has been made and issued in booklet form by the American Bankers Association of New York City.

Experienced girl wants position doing general housework and caring for children. Phone 8418. p-30

You and your friends are cordially invited to attend a card party given by the Auxiliary at the Huber Hall Saturday, June 27, at 8 p.m. Lunch and prizes. Admission 25c. d-30

For Rent—Excellent pasture, 70 acres, monthly or by the season; abundance of city water. Usual prices. See Mr. Saxton, 1 1/2 miles west of Beaverton on Lang Ave. near Farmington road. p-28-30

Jones Family Migrates Annually

R. E. Jones moves his family, including cat, dog and rabbits, from Klamath Falls, Oregon, to Portland each year. He travels with his family and most of their personal belongings, in this 1927 Chevrolet, which he has driven over 39,000 miles. Skookum, the cat, in Mrs. Jones' arms in the front window; Buck, the dog, is looking out the rear window, and Jones is alongside.

"Double-Powered" runner competes with "Double-Powered" Gas . . . just before Steve Anderson, "Double-Powered" runner of the University of Washington, left for Chicago, where he equaled the world's record in the 120-yard high hurdles, he competed in getaway, as a training stunt, with a car fueled with "Double-Powered" General Ethyl. F. Y. Campbell, district manager in Seattle for the General Petroleum Corporation, acted as starter.
