## Freshman News

The Freshman class is still keeping up its good spirit even though they were beaten in several basketball games. The Freshmen lost the game with the Juniors by a score of 10 to 0. They lost to the Sophomores with a score of 10 to 2. The Seniors had to forfeit their game with the Fresh because they were not ready to play at the allotted time. The class doesn't feel so bad about the results because the other teams have had much more experience than they have had.

The girls of the Freshman class also had an interclass game with the Sophomores and lost with a score of 28 to 4. They had very little chance because of lack of experience.

## Sophomore News

Blanche Haines, the only girl letterman in the Sophomore class, defended her class in the game with the Freshmen.

Donald Perkins, who takes the part of Muriel in the Student Body Play, "When Smith Stepped Out," is the only member of this class in the play.

## Girl Reserve Notes

The Girl Reserves in a recent meeting elected the following for its officers: President, Eleanor Zurcher; Vice President, Irene Fugie; Secretary, Florence Selander; Treasurer, Polly Chin; Reporter, Mary Snyder. The Girl Reserves are sending one delegate to Astoria to attend a meeting of the different members of the Girl Reserve organization. Our delegate is Eleanor Zurcher.

## Torch Honor Society

At a recent meeting the Torch Honor society elected their officers for this semester. They are: President, Elizabeth Huff; Vice President, Winifred Thoms; Secretary, Emma Findley; Treasurer, Blanche Haines; Reporter, Noma Browne.

Sam Landcaster, engineer of Columbia River Highway, entertained the student body, Wednesday, January 14, with many interesting accounts of his life. Mr. Landcaster had infantile paralysis for many years, and he is interested in helping any person who has the same affliction that he had.

Because the room was too light for moving pictures, Mr. Landcaster was unable to show us the many beautiful scenes that he has taken during his work as an engineer. He promised to come again and is going to charge a small admission to see these scenes in order to help the people in the south who are having such a hard time right now.

## NEIGHBORS HELP MR. ANTROBUS CELEBRATE

Mr. and Mrs. Antrobus and family were delightfully surprised Monday evening when neighbors dropped in to celebrate Mr. Antrobus' birthday. "Five hundred" was played with Mrs. Hadley receiving high score, and Mr. Whitley low score. Guests were: Mr. and Mrs. J. Tatlock, and sons Jack, Jim, and Rex; Mr. and Mrs. Hadley and daughter Mary; Mr. and Mrs. Rosine; Mr. and Mrs. Wickstrand; Mr. and Mrs. J. O. Larson; Mr. and Mrs. Lewis; Earl, Jean, and Mr. and Mrs. H. Whitley.

## A. C. TUTTLES HAVE BIRTHDAY DINNER

Portland friends and relatives of A. C. Tuttle journeyed to his home on Sunday evening to help celebrate his birthday and that of his daughter, Maryalys. A delicious dinner was served the guests, and the evening was spent in social conversation.

Those present were: H. O. Schaefer, Sr.; Mr. and Mrs. C. O. Washburn; Mr. and Mrs. H. O. Schaefer, Jr.; J. M. Schaefer; Mrs. Flora H. Schaefer; Mr. and Mrs. A. C. Tuttle, and daughters, Dolores and Maryalys Tuttle.

## ALDRICH ATTRACTS LARGE CROWDS

Large crowds are filling the Methodist church every night to hear the "Marathon" preacher, Rev. A. Lee Aldrich. Last Sunday the all-day services were held in the Congregational church, Wednesday morning Mr. Aldrich spoke in the assembly room of the Beaverton high school to the entire high school body on the "Purpose of Education."

It has been many a day since anything like such crowds of people of all ages assembled night after night giving strict attention to every sentence uttered by a speaker in Beaverton. Some are asking the question: "Is it the personality of the speaker, or is one of Aldrich's first utterances in Beaverton true? Namely, that 'The old Gospel is ever interesting when presented in its true Bible setting.'"

Meetings will continue every evening this week and on Sunday February 2nd, Mr. Aldrich will speak at 11:00 a.m., 2:30 p.m., and 7:30 p.m. Many are saying each address is, if possible, more interesting and fascinating than the one preceding it.

## Grade School Items

(Continued from Front Page)  
Engelke and James Earl Miller tied for third place with 154; sixth grade, Russell Hulett 182, Phyllis Wildman 178, Miriam Doty 178, Florence Vasileff 176.

## Junior News

Although the Senior girls defeated the Junior girls with a score of 17 to 15 in a recent interclass basketball game, the Juniors played a wonderful game, and it was nip and tuck up to the very end when the Seniors were declared the victor.

The Juniors are well represented in the student body play. Lebert Wilson is the handsome hero. The absent-minded bachelor is capably played by Maurice Manning. Hortense Cleland as the designing old maid is laugh provoking. The placid, flat-footed, Swedish maid from Minnesota is characterized by Noma Browne.

## Senior News

At the last senior meeting much was done pertaining to the annual and graduation. It was voted that the class would not use caps and gowns for the graduation exercise.

The orders for announcements and cards were finished.

The class president, Walter Stickney, appointed Alma Sullivan, Elizabeth Huff, and Matt Snyder to aid Mrs. Robertson in selecting a Senior Class play.

The Seniors are well represented in the Student Body play, "When Smith Stepped Out," with Ronald Webb as George Smith, Kathryn Beach as his wife Nellie, and Bruno Leskela, the detective.

## BOXING CHAMPIONSHIPS TO BE HELD

When the gong sounds in the 1931 Pacific Coast amateur boxing championships starting the first bout of the two-night tournament, Friday and Saturday, February 13 and 14, in the Municipal Auditorium, it will mark the entry of more unattached boxers in a coast wide feud than ever before in the history of these championships.

Unattached boxers are those milt welders who do not represent any athletic club, college, university or high school. The large number of unattached boxers this year is due to their anxiety to gain experience for the Olympic Games world title bouts to be held in Los Angeles in 1932. The Pacific Coast championships will afford this class of boxer a chance to gain the necessary experience required. Entries close February 6.

## DR. D. O. WEBSTER ADDRESSES KIWANIS

Kiwanis met again at the Broadway Cafe for their noon luncheon this week. The principal speaker was Dr. D. O. Webster of the Peninsula Kiwanis Club, Lieut. Governor for this district, or is it division?

The attendance was much above normal, almost a hundred percent. If we could count the visitors as of our members there were more than a hundred per cent attendance. After the luncheon the board of trustees held a meeting to receive some instructions which the Lieutenant-Governor wished to impart to the officers.

Among those who have not been able to attend regularly, we note the presence of L. R. Dean, W. L. Cady, Lee Richey, and a few who have perhaps slipped from our mind for the moment.

## FORD SMOOTHNESS

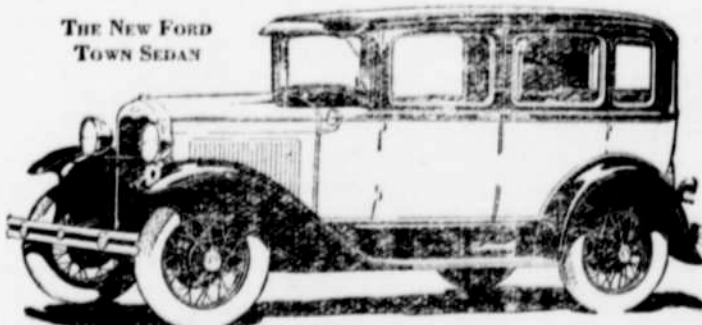

The new Ford has more than twenty ball and roller bearings

EVIDENCE of the high quality built into the new Ford is the extensive use of ball and roller bearings. There are more than twenty in all—an unusually large number. Each bearing is adequate in size and carefully selected for the work it has to do.

At some points in the Ford chassis you will find ball bearings. At others, roller bearings are used regardless of their higher cost. The deciding factor is the performance of the car.

The extensive use of ball and roller bearings in the new Ford insures smoother operation, saves gasoline, increases speed and power, gives quicker pick-up, decreases noise, and gives greater reliability and longer life to vital moving parts.

Other outstanding features that make the new Ford a value far above the price are the Triplex shutter-proof glass windshield, silent, fully enclosed four-wheel brakes, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, three-quarter floating rear axle, Rustless Steel, the extensive use of fine steel forgings, and unusual accuracy in manufacturing.
