

When It's Six Below—Above

LOCAL HAPPENINGS

Mrs. Earl Hall is reported to be very seriously ill at her home on the Canyon road.

Ruth and Mabel Wilson spent last week at the home of Rev. and Mrs. L. C. Poor in Westmoreland.

P. M. Madden reports having rented the M. Delliello home just west of town to L. Erickson.

Mrs. Ida Paril and two children of San Francisco are visiting at the home of her brother, J. Orselli.

Mrs. J. T. Davis from Tillamook is visiting at the home of Mr. and Mrs. G. P. Forney. Mrs. Davis is Mrs. Fordney's sister.

Dr. T. G. Hetu was confined to his home the early part of the week but is able to come to his office and attend to his practice now.

A surprise party was given at the home of Mr. and Mrs. H. J. Wright on Lake road last Saturday evening in honor of Mr. Wright's birthday.

Warren Jones, who is recuperating from an operation in the Good Samaritan hospital, is expected to be able to return home next week.

Mr. and Mrs. D. Drorbaugh spent the week-end with Dewey's parents at Woods, Ore., where his father is taking treatments at the Kiwanis Sanatorium.

Mrs. Thomas Corkery of Spokane was a dinner guest at the Lee Richey home Tuesday evening. She was on her way home from a visit in California.

Gene Brown spent the week-end at the Klinge home at Gaston. Saturday evening Maxine Klinge entertained several friends with a birthday party.

The Beaverton Realty Co. has rented the Mainland Garage opposite the MacMarr Store to S. Hawes for an auto paint shop. Mr. Hawes is living on Watson St.

Lucille Brown spent the week-end at her home here. She had as her guest Miss Olive Jones of Bremerton, Wash. Both girls are juniors at the Willamette University.

Miss Anna Young, who is in nurse's training at the Good Samaritan hospital will be graduated next week. She will be employed at the hospital after her graduation.

Oenomah Masonic lodge entertained members of Beaverton lodge Tuesday evening. The Grand Worshipful Master of Oregon surprised the lodges by dropping in on them unannounced.

T. J. Allen, who has been seriously ill for the past few weeks is able to be up and about, but his wife, who succumbed soon after he died to the flu, is not yet able to leave her bed.

SILENTLY PASSING

Louis Root, 63, who operated the Root auto park at Tigard for the past six years, died Saturday at his home in Tigard. Mr. Root was born in London, having come to the United States forty years ago. He was a tailor by trade, having followed that line of work for twenty years before settling in Tigard.

He is survived by his widow; a daughter, Miss Helen, of Tigard; and a son, Harry, of Leavenworth, Wash.

The funeral was held from Pegg's Chapel Tuesday afternoon under the auspices of the Sherwood Masonic lodge. There was a good representation present from the Beaverton lodge. Interment was at Crescent Grove cemetery.

ODDFELLOWS ATTEND PORTLAND MEETING

Last Friday evening a number of Oddfellows from Tigard and Beaverton lodges attended Hassalo lodge in Portland. Monteruma lodge of Hillsboro and Hassalo were contestants in putting on the first degree. The team of Hassalo lodge was the winner.

LOCAL C. OF C. HAS REGULAR MEETING

The Beaverton Chamber of Commerce held their regular meeting at the Chamber of Commerce room Wednesday evening. They decided to issue a pamphlet about Beaverton and vicinity, and Secretary L. W. Short, Mayor A. E. Wilson and David Phelps of the grade school faculty were appointed on the committee to draft the copy and present it to the board of directors of the chamber for their approval.

The matter of having a definite program for the Chamber was discussed and several proposals made, but none were definitely adopted.

The different projects will be presented to the board for their approval before being taken up officially by the Chamber.

L. W. Short, chairman of the committee to draft the copy for the pamphlet wishes to request that anyone having industries, projects or other enterprises which should be mentioned in the pamphlet to send in any suggestions they may have. These suggestions will be gratefully received and any which meets the approval of the board of directors will be used in this publication.

PRODUCTION OF FLAX SEED MAY INCREASE

More than 100% increase in flax seed production has taken place in Oregon in one year, and there is every indication that additional acreage will be planted this coming season, judging from inquiries being received about the crop at Oregon State college. In 1930 there were 21,113 bushels raised for seed in one state, and this had jumped last year to 46,767.

One reason for the popularity of flax seed production is that there is a ready market for every bushel grown in Oregon, as the Portland oil mills have to import large quantities each year. More than 280,000 bushels were used in Portland last year, most of which came from Argentina and from other states in this country.

Flax seed has never been recommended as a "get-rich-quick" crop by the college, but with the present low price of other small grain and availability of advance contracts for flax seed, the present would appear to be a favorable time to add it to present farm enterprise in some instances.

SCHOOL BOARD HAS BUS DISCUSSION

At the regular meeting of the school district board held at the high school Tuesday evening, Essex Marsh presented the matter of having the work on the school buses done and tires, batteries, etc., purchased in all the garages in town instead of having a large proportion done in one garage, as has been the custom in the past.

Mr. Marsh brought out that parties operating as many buses or cars as are operated by the school district are entitled to what is known as "fleet prices." These prices are lower than those allowed to the individual and are in the nature of wholesale costs.

The board seemed willing to have the work distributed generally between the several garages but did not seem familiar with the varying schedule of prices.

BOY SCOUT NEWS

There were 12 Scouts present at the January 29th meeting. There were several boxing matches. A new patrol was formed, but leaders and name were not chosen.

Leonard Wright passed the signaling test. The 12th Scout Law was discussed. Lisle Walker taking part and the Scouts answering the questions.

Due to the cold weather there has been no work done on the cabin.

—Scribe, Robert Engelke.

OREGON DAIRYMEN HAVE CONVENTIONS

Members of Oregon's dairy industry from producers to manufacturers will meet in two annual conventions early in February, at which the present "state of the nation" as far as dairying is concerned, will be thoroughly considered.

The first meeting will be for the producers, who will gather at Clatskanie February 9 and 10 for the 39th annual meeting of the Oregon Dairymen's association.

Soon after the close of this meeting the annual combined convention and short course of the Oregon Dairymen and Ice Cream Makers' association will be held at Oregon State college February 15 to 18, at which time the men who are responsible for getting much of the dairy products to the consumers in attractive form will spend four days in intensive study of how to better this service to the benefit of all.

The Dairymen's association program is built around three main themes, announces P. M. Brandt, secretary of the group and head of dairy husbandry at the state college. The first day will be devoted to a discussion of "Increasing Consumption of Dairy Products." Subjects under this head will include plans of the Dairy Protective association, advertising, the Dairy council program, and creating accredited areas.

"Reducing Production Costs" is the theme of the forenoon session on the second day. Subjects will deal with cost of milk production, breeding up yield per cow, and better pastures and forage.

Following this, the afternoon will be devoted to "Co-operative Marketing," when speakers will present such phases as the Dairy Co-operative association; the Interstate Associated Creameries; and development among other co-operatives.

POTATO TREATMENT IS MUCH SIMPLIFIED

Protection of Oregon's potato crop against scab and rhizoctonia will be easier and cheaper this season as the result of successful tests of a simplified method of seed treatment made by the Oregon Experiment station and just described in a new circular of information.

Heretofore the standard method of seed treatment has been either soaking for two hours in a corrosive sublimate solution or treating with hot formaldehyde solution. The former was slow and tedious and the latter was difficult to regulate.

The new method, originated first at the Minnesota experiment station, uses the corrosive sublimate (mercuric chloride) solution, but with the addition of a small amount of hydrochloric acid, which speeds up the action so much that only five minutes soaking is required rather than two hours.

To treat the potatoes a solution is made of 4 ounces of mercuric chloride, one quart of commercial hydrochloric acid and 25 gallons of water. This is enough to treat 40 or 50 bushels before strengthening is required, after which as many more may be treated before discarding the solution.

Either a wooden barrel, a tub or concrete tank is used as metal is attacked by the solution. A wooden crate, or a wire basket coated with asphaltum paint, is used for dipping. Five minutes soaking is enough for clean, smooth tubers, though scurfy potatoes require a little longer. Soaking for as much as 40 minutes will not hurt them, though it is not necessary.

The directions for treating caution the grower against storing the potatoes after treating, saying that damage will result unless they are either planted at once or spread out to dry.

Free copies of the circular describing the method in detail may be had from any county agent or direct from the college.

The new Venetian Theatre at Albany held a grand opening recently.

LOCAL SAGES DISCUSS WATER PAYMENT

(Continued from Front Page)

family, and that to cut off your water supply'll just about kill every last one of them. Then just offer to work a little for the town and credit it on the water bill an' mebbe he'll let you work out your bill."

B. Tonian, always wanting to help, seemed really distressed that anyone should be in circumstances that require drastic measures to get desired results, said, "Now, I hadn't thought o' that," and Gossup started in again, just as cheerful as ever. His little lecture delivered so recently had entirely slipped his mind. "Say, I do know on some folks that have a water bill. They don't live here in town but they got a place here. An' they got a big bill, and they get talked about something awful. But they just stick around and they get in once in awhile and I heard tell that some one on the Council wanted them to do some work for the city. This fellow, the one who was favoring them said that they ought to get a lot of the city work. They owed the city and I want no use to get some one else to do the work they could do if they owed the city cause then the city could take the money to pay what was owed them out of the pay for the work."

O.S.C. GETS MONEY FOR RESEARCH WORK

Recognition of research carried on by the veterinary medicine department at Oregon State college has come in the form of a grant of \$900 by the National Research council of Washington, D.C. to be used in continuing the studies that have been made in the control of salmon poisoning of dogs.

Investigations of this malady carried on at the college as a side issue by members of the staff have resulted in a positive method of immunizing dogs against this disease which is caused by a parasite contained in fresh-water salmon and trout in western Oregon and Washington. The study failed to reveal, however, the exact nature of the infection carried by these parasites, and as certain angles of the case indicate a possible new development in medical science, the National Research council has supplied funds to carry on the research under the direction of Dr. R. T. Simms, head of the department.

GENE BROWN HAS BIRTHDAY PARTY

Gene Brown celebrated his eleventh birthday with a party at his home, Tuesday evening. Interesting games were played, after which refreshments of ice cream, cake, and cocoa were served.

Those present were John Barnes, Carl Lierman, Hasting Denney, Bob Engelke, James Miller, David Mason, Richard Smith, Bruce Clement.

CROWD PRESENT AT BENEFIT PARTY

The benefit card party held at the Masonic Hall realized \$65.00 for the needy. More than 250 tickets were sold.

Ladies winning high scores are: Mrs. Mary Kemmer, first; Mrs. F. Donaldson, second; Mrs. J. T. Hadley, third; and Mrs. Dan Shaw, fourth.

Men's high scores went to: C. J. Rose, first; J. B. Gilkey, second; J. Roherbach, third; and Geo. F. Davies, fourth.

Door prizes were awarded to Mrs. F. Schone, Mrs. Mary Stut, Guy Alexander, and Geo. Kline.

A delightful program was rendered by Miss Evelyn Alexander, Miss Betty Goin, and Mr. Harris Hansen assisted by Mrs. Erickson and Mrs. Felsner.

We wish to thank the following business firms in Beaverton and friends who donated prizes: Wilson's Jewelry Store, Richey's Hardware Store, Stipe's Garage, Sprague's Store, Dean's Drug Store, Mrs. F. G. Donaldson, Mrs. V. A. Wood, Mrs. Bertha Williams, Mrs. L. Stark and H. A. Nielsen.

We extend our appreciation to Mr. Hulet for printing door tickets, and wish especially to thank the Review for the publicity given this benefit card party.

We would like to thank MacMarr Store at Beaverton for furnishing the good coffee, and also mention the following who so generously volunteered and brought refreshments: Mrs. Timmer, Mrs. Murray, Mr. Kennedy and Messrs. and Mesdames A. M. Janssen, V. A. Wood, S. B. Lawrence, H. A. Nielsen, William Gerrish, B. A. Holise, Carr, G. Alexander, L. Stark, Craig, Sherwood, Williams, F. W. Livermore, Doy Gray, Stipe, R. R. Summers, J. Summers, George Blasser, Denney, N. A. Byfield, W. H. Engelke, and McBreen, and Shrader's Bakery.

Mr. Twohy and F. V. Rosebraugh, both of Aloha, each contributed five dollars.

The committee in charge wish to thank all who contributed toward making the evening a success; we are deeply appreciative of the support of our many friends and members of the Masonic lodge and Eastern Star, and take this means to express our thanks.

—Signed, The Committee from the Masonic Building association and the Beaver Social club.

Now and then some citizen wakes up in the morning to find himself famous, but some of our movie star stay up all night and find themselves notorious.

According to the report of the Department of Vital Statistics married people do not live longer than single people, but it will be hard to convince the average married person that this is a fact.

Ask your attorney to send you legal advertising to the Review. We give careful consideration to all legal advertising.

COUNTRY RATES—AUTO INSURANCE

For five years I have been working to get the insurance companies to write Beaverton business at country rates. On Feb. 1st, nearly all companies announced country rates for Beaverton. The rest of the companies will follow suit on Feb. 15th. This means lower rates for Beaverton when Portland has just had an increase. All the business I write is in legal reserve stock companies.

I will always be in a position to write insurance at as low a price as any stock company can give, and generally lower than most of them. I devote all my time to insurance, and can give you capable service, and will appreciate the business.

Money To Burn

By Peter B. Kyne

IF YOU went to bed poor and I woke up to find yourself possessed of a million dollars, what would you do? With ruthless satire and keen humor Peter B. Kyne vividly portrays the exciting adventures of Elmer Clarke with his suddenly acquired million; how he had to sidestep, duck and run to escape the "gold diggers."
