**MOVEMENT OF BUTTER IN STORAGE SLOW**

Uncertainty in regard to a safe price to pay for butter to go into storage is having a depressing effect on the butter market as the storage season approaches.

Storage operators are keeping their stocks at a minimum and heavy seasonal production is resulting in accumulations. Movement of butter into consumptive channels has been satisfactory. Coast storage holdings of butter are considerably under a year ago, while total holdings in the United States are about one half of a year ago and three fourths of the five year average.

**TONGUE TELLS OF HIS SERVICES TO COUNTY**

In announcing my candidacy to succeed myself, I wish to brand as unqualifiedly false certain rumors seemingly spread by my enemies as to my personal taxes and the expenses of my office.

The rumor that I have not paid my taxes for 20 years is absolutely and unqualifiedly false. I have paid my taxes every year as and when they become due. Last year I paid on property of my own and on property in which I own an interest \$1800.39, and my income from it was \$500.00.

**ECONOMY**

Ever since I have been in office I have furnished without cost to the taxpayers and at my own expense the following items:

1. My own car, cost and expense, \$31,366.81.

The Circuit and County Judges, Hillsboro Justice of the Peace and Sheriff are on salaries, hence where possible I bring all criminal proceedings where the work can be done through these salaried officers, and by doing so have saved the County thousands of dollars in Justice of the Peace fees, Const-

able fees and other fees, costs and expenses.

**ANNOUNCEMENT**

To dispel any misunderstanding, I wish to state that at all times since becoming county judge I have driven my own personal car on both county and private business and that all oil, gasoline, tires and repairs for it have been purchased and paid for by myself.

(Signed) Donald T. Templeton Adv. c-21

2. I have paid my own office rent.  
3. I have paid for the care and janitor service of my office.  
4. I have furnished and maintained for the free use of the County a law library representing an investment of over \$10,000.00.

5. From the time in 1925 when the County Court authorized the appointment of a deputy, I paid out of my own salary upon that deputy's salary the sum of \$50.00 per month as long as he remained, a period of nearly 2 years.

6. I have furnished all furniture in my office except a small typewriter desk and two or three filing cabinets of four units each for criminal documents.

7. For great many years I have paid the entire salary of stenographers, now the County pays part.

8. I have furnished every typewriter that has been used in my office with the single exception of one recently furnished by the County for the tax foreclosure.

9. I have furnished more than three fourths of all the stationery used in my office and all stamps which alone amounted to an average cost of \$5 per month.

10. I have paid all telephone and telegraph bills and expense with the exception of perhaps four or five months.

11. When I was only deputy and received \$42.50 per month I paid my own office rent, all salaries of stenographers and other expenses, etc.

12. I have kept my office open every night for official business from ten o'clock to an occasional midnight.

These are some of the economies which I have practiced and by which I have saved the County large amounts of money while all other county officers have all their official expenses paid and with the exception of the Sheriff close their office at 5:00 o'clock in the evening.

During the year 1925 the County Court made an order which is now in force and effect authorizing the appointment of a deputy at \$1800.00 per year, the salary to be paid out of fines, penalties and forfeitures—not out of taxes. This order was made under an agreement with the County Court that I would pay into the County General Fund all that part of the fines, penalties and forfeitures which the law set apart for my exclusive use and expenditures. Since January 1, 1926 up to January 1, 1932, this portion of the fines set aside for my use and to which the County was not entitled amounted to \$12,919.49; the amount of the deputy's salary during that time amounted to \$9,000.00, and the County's clear gain under that arrangement amounted to \$31,366.81.

The Circuit and County Judges, Hillsboro Justice of the Peace and Sheriff are on salaries, hence where possible I bring all criminal proceedings where the work can be done through these salaried officers, and by doing so have saved the County thousands of dollars in Justice of the Peace fees, Const-

able fees and other fees, costs and expenses.

The Truth About Delinquent Taxes  
Under date of May 24, 1930, the County Court by letter directed the Sheriff and myself to proceed with the collection of delinquent taxes. At this time it was estimated that the cost of foreclosures would be any where from \$10,000.00 to \$12,000.00, and there was no money in the Treasury which could be lawfully used for this purpose, hence an item of \$10,000.00 was placed in the budget and brought up at the budget meeting in the latter part of 1930. At the budget meeting I expressed the opinion that in these times of financial depression and disaster and unemployment that the County would receive more money from its delinquent taxes by allowing all delinquent taxes to be paid in full with interest at 6% and that the County Court had authority to follow this procedure. The item nevertheless was placed in the budget and the money so budgeted was collected during the tax collecting period of 1931. Under date of May 21, 1931, the present County Court by letter directed me to proceed with the foreclosure of delinquent taxes. In the meantime the legislature had met, had passed some tax law and it was agreed between the County Court and myself that it would be better to wait until after the laws of that session had been printed and circulated in order that we might proceed in accordance therewith. In the meantime a case had been argued in the Supreme Court, contesting the levy of certain taxes. If the contention of that taxpayer were sustained it would no doubt have nullified a large number of the delinquent taxes in Washington County and if we proceeded and the holding in the Supreme Court would be adverse, it would mean that we would have expended a large amount of money uselessly and wastefully in our procedure. The matter was taken up both verbally and by written communications with the County Court and it was thought best by the County Court and myself to delay the institution of the foreclosure until after this decision was rendered. Immediately after the decision was rendered on the 6th day of October, 1932, we went to work to prepare the tax foreclosure proceedings and the suit is now pending, and it is my intention to carry out all orders of the County Court in relation to tax foreclosures as I have in the past.

In this connection, permit me to say that the County Court under date of May 21, 1931, made and entered an order in its records directing the District Attorney and Sheriff to proceed with the foreclosure of the delinquent taxes. So far as I know that is the first order that had ever been formally entered upon said subject, at least,

Brown's Beaverton Pharmacy, adv

It is the first and only one that had been called to my attention. A few days later, on June 5, 1931, an order was made and entered in the County Court from which it appears that there was 5 years' delinquent taxes on property owned by G. Russel Morgan, and the Court upon that date made an order in which it remitted all penalties and interest for the five years upon that property except 6%.

In doing so the County Court followed the very procedure that I had advocated a year before to be extended to every delinquent taxpayer, unemployed, widows and orphans and others.

The trial of criminal cases are, indeed, an expensive matter and involve expenditure of vast sums of money. If the defendant is acquitted it means that the County must pay any expenses of the proceedings; where convictions are secured fines are generally secured and the costs and expenses recovered. During my term of office the recoveries, fines, penalties, forfeitures and costs have exceeded by many thousands of dollars the cost of prosecution; hence, the office has paid the taxpayers a great deal more money than it has cost the taxpayers.

I submit that the person who is most likely to protect the taxpayer is that officer who pays taxes.

In these times when crime is rampant you should use the same care in selecting an attorney who is to try these cases as you would in securing one to try your own case—qualifications alone should be your sole guide.

I will make no promises that I cannot and will not keep. I can only promise that should I be re-

nominated and elected I will follow the same economical, energetic and efficient procedure that I have followed in the past. I am a firm believer in the principle of square dealing and equal treatment to all. Unemployed, widows and orphans should be accorded and receive the same treatment that every other individual receives.

The work of the District Attorney's office simply cannot be carried on without the assistance of a deputy, and my opponent does not promise that he will carry on the labors of the office without assistance. He only says that he will carry it out without a salaried deputy which leaves him free to pursue the course of expending for assistance the large sums of money which I have heretofore paid over into the General Fund as hereinabove set forth. During my term of office the County has not paid out a single dollar for outside legal assistance.
