HIGHLIGHTS OF THE STATE LEGISLATURE

By Mrs. LeRoy Wood, Secretary To W. A. Gill, Master State Grange.

The Special Session was called to provide additional revenue and unemployment relief, but nothing of the sort has yet been accomplished so on the surface it would appear that it required one week of the regular session to undo the work of the special session. However, scores of bills have been introduced and the assembly seems to have buckled down to business.

As was expected, the Governor vetoed the bill repealing the 3-mill property levy and shortly before adjournment Thursday, the House sustained the veto. That means the property tax is back, which gives the Administration, for an excuse to jam thru their sales tax program which is now going thru the sugar-coat process. Action in the House of the Governor's veto was rushed thru before the members had a chance to study matters. Some of them asked what possible harm could result from giving the bill deliberate consideration before voting on it.

This sales tax is one of the most dangerous things now confronting the people of Oregon. It hits the farmers harder than any other group, and in some cases is equivalent to double taxation. A farmer will not get relief through a sales tax. The small merchant will have to absorb the tax in order to compete with chain stores. The people who are dependent upon charity for the necessary food and clothing will be forced to pay the tax. The tax is no respecter of persons. There has been a lot of talk against hoarding money but now they want to tax every dollar that is spent. I urge that you write our senators and representatives stating you vigorously oppose a sales tax of any kind.

Copies of resolutions opposing the sales tax, passed by Granges, chamber of commerce and other organizations throughout the state, are pouring into the Grange office daily. The Grange is right on the firing line and putting up a good fight.

While the governor is advocating rigid economy, it is claimed that more money has been spent in his department the last biennium than during any other in the history of the state.

The joint ways and means committee has divided itself up into several subcommittees, each equipped with a pruning knife, and each is expected to take a slice off the budget. It seems to be generally understood that no new revenue proposals will be considered until the ways and means committee has completed its study of the budget.

An effort will be made to standardize salaries of employees in various state departments, and drastic reductions are proposed. (Con't Next Week)

Mr. and Mrs. Wilson were away at the time and didn't know of the loss until the next morning.

The origin of the fire is unknown but may have been defective wiring. The loss is partly covered by insurance.

asked for assistance; he stopped and another man opened the door of the car, put a gun in his side, and ordered him to hand over his money and other valuables. Upon request they gave him back his key ring and his empty purse.

TOO HARD-BOILED

"Religion! It's too deep for me. I never did study the Bible." Hold on Mister—you never studied medicine either. But you run to the M. D. just the same. Here's your trouble. You won't believe that proud sinners go into a Christless grave for a Christless eternity. You too hard-boiled?—and yet God proves his love to us in that "while we were yet sinners Christ died for us."

If you are wise enough to put yourself into the M. D.'s hands when your body gets off, you are

wise enough to turn your eternal soul over to God for him to save you. "Believe in"—turn yourself over to—"the Lord Jesus Christ and thou shalt be saved." Bible Salvation—Beaverton, Oregon.
