Mrs. T. B. Denney entertained with a luncheon at her home on Saturday. Her ten guests were classmates of the 1920 graduating class at Oregon Normal School. The afternoon was spent in playing Bridge.

Oh, Lovely Spring, Of Thee I Sing!
The crocuses are crowing;
The soft zephyrs blowing;
The nectarines are necking by the sea;
The cat-tails cater-wauling,
And spring is springing up along the lea.

The cowslip's slapping;
The catnip's nipping,
And the saps along the street begin to stir;
You know that spring is springing
When the blue bells start a-ringing,
And the pussy-willow buds begin to purr.

SILENTLY PASSING

Clement Kemmer, 42, died suddenly at his home in Portland on Friday, April 21. He is survived by his wife, Ruby, and a son, Clement Jr., also by his mother, Mrs. Anna Kemmer, three brothers, Joseph, Jacob and Albert all of Cooper Mt. and two sisters, Mrs. Eva Nelson of Seaside, Oregon and Mrs. Susie Nussbaumer of Portland. New Electric Ray Aids In Work Of Physician

A new kind of Electric Energy, shooting out a half-round sphere in the form of a violet colored ray at the rate of 470,000 vibrations per second, is aiding in restoring the health of many Portland folks at the Ray-dio-Ray Health Laboratories at 815 Bedell Building, under the personal direction of Dr. J. E. Cole. Telephone Atwater 7673

This new form of electricity is described as a "short wave radiant energy," and after three year experimentation it has been found to have such tremendous potentialities.

Ray-dio-Ray is not held out as a cure-all, definite claims are made for it only where its merit has

been proven by years of experimentation. Nearly fifteen thousand people have been treated with the Ray-dio-Ray in Portland and Spokane, hundreds of them have given testimonials as to its beneficial results. Among the many diseases successfully treated, the most notable are: skin diseases, sinus infections, arthritis, boils, ulcers and slow healing infections, nervous disorders and many others.

Three types of equipment using the Ray-dio-Ray are marketed by the Ray-dio-Ray Health Manufacturing corporation; one machine which kills insects and larvae in grains and cereals; another which prevents infestation and aids plant

growth in greenhouses and the therapeutic machine which is in use at the Ray-dio-Ray Health Laboratories in Portland.

To-day many large cereal manufacturers, including Old Fashioned Milling company of Portland, and the Fisher Flouring Mills company of Seattle are using the Ray-dio-Ray to sterilize cereals.

Ray-dio-Ray company expects soon to install health laboratories similar to the one in the Pedell building in Seattle and Tacoma and eventually it plans to have one in every city in the country with a population of more than one hundred thousand.

Factory Motor Car Company

The American habit of discarding the old car every year and getting a new one has received quite a set-back by the prevalent hard times and thus the auto rebuilding plant takes its proper place in the economic life of the country.

The Factory Motor Car Company is scientifically equipped as regards all classes of machine shop work, motor rebuilding, automobile machine work and cylinder grinding. They make a feature of cylinder grinding and have special machines and equipment to take care of this important and popular feature of their service.

By close, microscopic examination it has been found that grinding of

cylinders is far better than reaming. What is cylinder grinding? It is a highly perfected method of making cylinders round. Regrinding cylinders has a desirable effect on the power in that it restores the motor to its normal condition. A regrinding job gives the owner a seasoned motor not obtainable in a new car or tractor. Reground cylinders are better than new ones, not just as good. The leading auto, tractor and commercial car manufacturers of this country and Europe use the process.

To prevent loss of power, to have gasoline economy and a quiet humming motor is the aim and when it gets out of trim it requires work

of a specialist.

This firm has able automotive engineers with ears and eyes trained to detect all knocks and causes of trouble.

Motor engineers are employed here who understand all types of motors from the simple one cylinder stationary engine to the four-cylinder, the six, the eight and the twelve, and no matter what kind of motor you have you will find that when it goes out of this shop it will be sparking on all cylinders.

The Factory Motor Company at 14th and Everett Sts. in Portland is widely known to motorists in this section.

Progressive Hatchery and Poultry Farm

The Progressive Hatchery and Poultry Farm is under the management of Mr. C. C. Davidson. in Portland on Lenox Ave Box 476 R 1.

Mr. Davidson has written some literature on poultry called "Chick Facts" which feature valuable information about poultry raising. Get your copy to-day by calling Sutter 3812.

This firm conducts one of the largest and most modern hatcheries in this section of the country and annually produce thousands of baby chicks. The hatchery is known all over the country. They are people of wide experience in this important business and are considered authorities upon all matters per-

taining to baby chicks as well as all kinds of poultry. Their baby chicks are sturdy and full of pep and those who have purchased baby chicks here invariably re-order from this firm when they are in the market again. This shows what kind of chicks they sell and it is not strange that their business has grown to such proportions and is still increasing.

They are always willing to give any information desired and give prompt attention to letters, personal or telephone calls and orders.

The public is always welcome to visit the hatcheries. The aim of every customer satisfied—personal

attention is given to every customer regardless of the amount of purchase.

People in this locality who are interested in poultry raising should visit these hatcheries where they will receive valuable information and service.

They make a specialty of day old chicks and are in a position at all times to furnish chicks of any age that are needed to fill a depleted stock.

We wish to compliment Mr. Davidson upon the leading position his firm has attained and to urge all our readers to consult with him on all matters pertaining to baby chicks.

Dr. J. L. Wilson

Kelp Ore Baths

In Portland at East 23rd and Stephens under the management of Dr. J. L. Wilson.

This is a popular bath institution, enjoys a large and well merited patronage; catering to both ladies and gentlemen.

Without health all the other gifts of life are worthless. Human nature seems to be so constituted that we mortals do not realize the truth of this statement until it is too late. Health is one of those things—like a good wife—not appreciated until it is gone.

And when Charles Kingsley said that Cleanliness is next to Godliness he knew that cleanliness was worth while and modern science has proved the truth of this statement.

The special scientific baths have properties which, steamed through

the pores, eliminate all the poisons causing such diseases as rheumatism, neuritis, stiffening joints and other ailments.

What is this new health science? It is nature's own way discovered by men and women who lost faith in artificial means of curing disease and determined to turn to the better qualities supplied by nature which they believed would cure all diseases.

Perhaps you are feeling run down generally. You don't seem to have your normal amount of energy and push. Your work drags. You cannot sleep at night. If you sleep at all, you do not feel fresh when you awake in the morning. There are poisons in your body. Something is needed to eliminate these poisons and to give tone to your system. For this there is nothing like scien-

tific baths. They bring into play every possible means for eliminating poisons from the body. The energizing bath qualities act as a tonic. They build up strength, purify the blood and raise your general efficiency.

And what is most surprising, these baths are not expensive. Most of the fine things of life really cost little money, and it seems God-given that this finest of cures should be within the reach of all.

Call East 4360 and Dr. Wilson will be glad to explain the Kelp Ore baths to you. They may be just what you need. By their service to many ailing people in this community these experts in charge of these famous baths have built an enviable reputation in the community. They are recognized as true community servants.
