THE PRICE OF BUSINESS SPEED

Banking Institute Speaker Says That Bank Failures Followed Business Failures

CHICAGO, Ill.—Many appear to think that failures occur only to banks, but the complete story of business shows that failures of American banks have followed the failure of business enterprises, and have not been a cause of those failures. Dr. Harold Stonier, National Educational Director of the American Bankers Association, declared in a recent address here before the American Institute of Banking.

"It is true that we have had more failures in our banks than in the banks of a number of other countries," he said. "It is also true that we have had more failures in drug stores, grocery stores, railroads, and in every other type of business enterprise. At the same time, it must be said that we still have left after all our failures, more drug stores, more grocery stores, more railroads, and more banks than any other country."

People do not realize, he said, that we have in excess of 108 banks which have been in existence over a century and we have more than 2,000 banks which have been in existence over 50 years.

"In other words, we have more banks over 100 years of age than any other country—we have more banks over 50 years of age than any country in the world," he declared. "The American banking system has not fallen down—it is not in danger of decay. Such failures as it has experienced are due to the price we pay for too rapid development of business enterprises, but that is the American spirit."

U. S. GOVERNMENT GREATEST BANKER

Runs Fifty-two Financing Institutions With Investment of Two Billion Dollars—Thirty-nine Agricultural

AMERICA'S biggest banker today is the Federal Government, which is now operating fifty-two financing institutions, says Professor John Hanna of Columbia University in the American Bankers Association Journal.

"Forty of these are owned entirely by the Government," he says. "In twelve more the Government has already a two-thirds interest. Thirty-seven are intended to be permanent. Twenty-five of the permanent ones and fourteen of the temporary ones are agricultural."

"The capital stock held by the United States in these banks has a par value of \$1,350,000,000. The Government's total investment is nearly \$2,000,000,000. Resources of these institutions exceed \$3,000,000,000. In addition the Government has detailed supervision over fifty-one mortgage banks, operating under Federal charter."

"The Government also supervises 4,600 local agricultural loan associations with Federal charters. All this takes no account of the relations of the Government to the twelve Federal Reserve banks, nor of the authority recently given to the Reconstruction Finance Corporation to buy preferred stock in national and state commercial banks."

"The President has ordered the consolidation of the agricultural credit agencies into the new Farm Credit Administration, says Professor Hanna. He expresses the opinion that before the consolidation of the agricultural financing agencies too much machinery had been created to administer the financing institutions which the Government either owns or supervises."

"Existing institutions represent a considerable differentiation of function and any consolidations should be preceded by a careful survey of the actual activities of the various institutions," he continues. "The only consolidation the Administration has announced is that of the agricultural credit agencies in the Farm Credit Administration. As a permanent solution this arrangement is too closely bound up with politics."

"A better scheme would be to create a finance corporation under Federal charter to take over either the agricultural finance activities of the Government or all its lending agencies."

"The Government's financing and banking activities should be kept severely apart from subsidy and other schemes for raising the prices of farm products. One is business, the other is major political policy. The advantages of the corporation over bureau control for the business functions are real and significant."

large crowd out and a bounteous dinner. The first fall meeting of the club will be September 20.

The topic for this Sunday will be "The Climax of the Christian Life."

Church Of Christ

Rev. G. W. Springer

One month of the attendance contest with Hillsboro Church of Christ is past. Last year we won the banner, but it will require the united effort of every member to accomplish this again this summer. Remember the time of the Bible school is 9:45.

The young people will hold an ice cream social on the Church lawn Friday evening if the weather permits. Everyone is invited.

In the absence of Mr. Springer, Mrs. Springer will fill the pulpit Sunday both morning and evening. The topic of the morning sermon will be "The Book of Remembrance." In the evening, the topic is "Peace in Chaos."

We wish to extend an invitation to members of the Methodist Church to attend both our Sunday school and Church when there are no services in your own Church. You will find a hearty welcome there, and will soon feel at home.
