### TWO ACCIDENTS REPORTED.

Dr. C. E. Mason reports two accidents having occurred during the past week. The mother of James Beeson, 80 years of age, fell from the steps at her son's home the evening of October 3, and broke her arm in two places, one fracture at the shoulder and the other at the wrist.

Arthur McCallen, employed at Lewis Brothers at the Beaverton rock quarry, crushed his left thumb October 3.

### METHODIST

Rev. George F. Gordon

The sermon topic Sunday morning at 9 o'clock will be "The Method of Inquiry Into Religion." In Acts 25:20 we find Festus asking a question regarding a vital matter. Festus was baffled over this Jesus who did such wonderful things and said so many great things. He could not reason the whole thing out. Festus is not the only person who has felt at a loss about the inquiry into that topic. There is but one sure method of inquiry and that is through experience. You wish you really knew whether there is anything worthwhile in this man Jesus. Try Him. That is the only really scientific method of investigation. There are many methods of inquiry

that have been tried. Men have tried logic. They have discussed Christianity as an academic problem, a thing to be proved or disproved by a clever entanglement of major premise and minor premise and conclusion. But a living thing can never be investigated in a vacuum of formal logic.

Men have investigated Christianity by the method of analyzing the physical universe. With physics, chemistry, astronomy and biology they have scrutinized the universe. They have reported: "The earth is resolvable into so many elements. But our test tubes do not report God or the soul."

So this school of materialistic science has exiled from the universe all unresolvable mystery and wonder. There is only one valid method of inquiry into Christianity as a life—try this Christ. See what takes place in your life. Try living on the hypothesis that Jesus' revelation of God the Father is true and that his way of life leads into the largest values. That experience will yield facts on which to build life.

### SIN AND DEATH

You tell a lie; you draw down death. Though you only think out a lie, it is all the same to God. He counts it as a lie already told. Now, since in his holy eyes you lied, even though you did not speak it out, you draw down death. "The wages of sin is death."

You hate anyone? God sees it as murder. Even though you always meet that one with a smile, God sees back of that smile your hate. Hate is murder in God's eyes. You draw down death, eternal separation from God. Of all who walked on this earth Christ alone never sinned. He alone never earned that death. "Christ hath redeemed us from the curse of the law, being made a curse for us."

You take the stand that Christ by his death on the cross paid the penalty for your sins? Good! Now tell God and receive eternal life. "As many as received Him, to them gave He power to become the sons of God."
