Let
the car speak
for itself

HUNDREDS of thousands of people now own and drive Ford V-8 cars. Some neighbor or friend of yours has one. If we told you what we think of the car, you might say we are prejudiced, so we let the car and its owner tell you.

Economy of operation is one of the first points they will emphasize—the owner will boast of it and the car will prove it.

The 1934 car is even better than the 1933—and that was our best car up to its time. The new car is more beautiful—faster—more powerful—gives more miles to the gallon—better oil economy—is easier riding—cheaper to own and operate than any car we ever built.

You owe it to yourself and your pocketbook to ask our Ford Dealer to let you see this car, and let you drive it for yourself. At the wheel of the car you will be sure to reach a right decision. The Ford V-8 will tell you its own story.
