BANKING RETURNS TOWARD NORMAL

Reconstruction Finance Corporation Loan Repayments Show Banks Lead Procession in Recovery Movement

Indicating a rapid return on the part of the banks to a normal self-sustaining basis, 54 per cent of the loans which they made from the Reconstruction Finance Corporation to tide them over the difficulties of the past two years have been repaid by them, it is shown in a recent official report.

The R. F. C. report, issued on March 6, says that the Corporation since it began operations in February, 1932, had made aggregate cash advances to railroads, agricultural and home loan agencies, insurance companies and various other institutions in the amount of \$4,736,410,000. Of this sum banks and trust companies, to the number of 6,783, received actual cash advances of \$1,520,540,000, but have already paid back \$820,260,000, or 54 per cent. These figures are exclusive of \$376,390,000 in loans authorized but withdrawn or not availed of by the banks.

Non-banking borrowers received R. F. C. advances in the amount of \$3,265,870,000, and made repayments of \$377,830,000, or less than 12 per cent. Among other classes of financial institutions reported as making high ratios of repayments are building and loan associations which had received \$114,020,000 and have repaid \$53,880,000, or over 47 per cent, and insurance companies, whose borrowings totalled \$88,590,000 and repayments \$34,340,000, or nearly 39 per cent. None of the major non-governmental financial groups showed so high a ratio of repayments as the banks and trust companies as a group.

County Key Bankers

Describing the activities of the Agricultural Commission of the American Bankers Association, the Director, D. H. Cols, says: "With 2,500 agriculturally minded bankers, designated as county key bankers, there is enlisted a tremendous force for the improvement of agriculture. These key bankers bring organized assistance to progressive farmers, who are led to see the possibility of agricultural work in their communities. Banker-farmer tours are emphasized as a means of acquainting bankers, farmers and other business men with first-hand knowledge of how agricultural improvement methods are working out in practice. These give an opportunity for the key bankers to contact country bankers and work out new ideas."

Cars today are built so close to the ground one can make out quite a bit of the passing scenery under the billboards.

UNKNOWN SOLDIER

By Walter Norris-Owen
Brave soldier boy, unknown, sleep on; sleep on
In peace. Of noise and din you know your share
And more, in the great conflict over there;
So now, rest on, rest on—Those days are gone.
No lovelier spot could shelter you; at dawn
With rising sun you are the first to wear
Her badge of gold. As twilight falls, with care
She slips it from your breast, each morn, to don.

The birds sing sweetest o'er your quiet place
As with bared head and gentle tread, the wreath
Of love and honor close we lay. With face
Toward blood-bought flag we hear the taps. Beneath
Your spotless white, sleep on, our boy! We trace
Through you the sword of war within its sheath.

The Letter Box

NOTICE

If the Tax League has brought about the savings enumerated, then why were taxes higher last year than the year before, some may ask. This was caused by a return of the 3-mill state levy, the old age pension, a small levy for delinquent taxes and election, and four mill levy in the Non-Union High school district. These levies were due to legislative acts over which neither the Court nor the Tax League had any authority. The Tax League as an organization has had periods of sleeping but like the faithful watch-dog has been sleeping with one eye open, from which it could be aroused at any time to instant action should need for it arise, and a need for the Tax League to act has arrived, and a meeting is hereby called for Monday evening, May 28th, 1934, at 8 o'clock P. M. in the County Court House in Hillsboro, Oregon. All Tax League locals should plan to have delegates present.

At this meeting a County Central Council will be formed, composed of members of all Tax League Locals, Granges, Farmer Union Locals and Dairy Co-operative Units.

Sincerely yours,

H. R. Findley
Chairman of Washington County Tax Reduction and Equalization League

The following letter was received with the above notice, and it is of such vital interest to the taxpayers of the community that we are reproducing it in full:

Portland, Oregon, May 14, 1934

Dear Editor:
In response to several requests I am writing an outline of what the Washington County Tax Reduction and Equalization League has accomplished in the way of tax reduction in Washington County. The organization of the League was brought about by the depression and the action of the 1931 State Legislature who had apparently forgotten all about the depression and were appropriating money with a lavish hand. This aroused the ire of a number of property tax payers of the State, who after several vigorous protests to the Legislature without success realized the need of a strong organization of tax payers and then began the organization of the League which was extended to almost every county of the State during the summer and fall of 1931.

In giving an account of the work of the League in this County I wish to give full credit to the Grange and the Farm Union. These organizations have always co-operated with us and have had at all times a committee working with us. Our first attempt to reduce taxes in this County was made in the fall of 1931. We went to bat on a special road levy of 5 mills and defeated it.

(To be Continued Next Week)

RELEASE ON COMMERCIAL DEPOSITS

Mr. A. A. Schramm, Superintendent of Banks, has authorized a release of 15 per cent in the commercial department of the Bank of Beaverton, making a total of 20 per cent released since the national bank holiday. Right

Old Corinth; Phew; the odor. That great heathen temple; such doings in the name of religion as Uncle Sam bars from the mails. And the whole ancient world down in the same mire.

Now comes Paul the Apostle preaching. These "Cultured" pagans put their sins under Christ's blood. A church sets up, but certain converts hold to their old evil ways. Paul sends a rebuke adding, "Know ye not that your body is the temple of the Holy Spirit which is in you? You wouldn't know from their godless lives. Yet God's word stands. He in-dwells carnal believers.

These had dragged Christ's name down; they sorrowed; they got right. Pretty raw recruits these, you say? Yes, but willing to get right. And by their kind God swept pagan nations up to the Cross.

Is America drifting toward the mire? And are you offering the Message Or must you also first get right before God can use you?

Rev. Geo. N. Taylor, Beaverton, Oregon.
