Other taxes—general tax, road tax, water district tax, special road tax, and so on. That balance figures out as being \$192.75. Now, the state and county tax is 15.2 mills, the county road, 4.7 mills, and West Slope Water district pays 5.1 mills. Totalling the millage we have 15.2 plus 4.7 plus 5.1, or a tax of 25 mills. Now the total taxes, as stated above, \$521.75, the school tax \$229 which was fifteen mills, how in thunder can \$192.75 represent 25 mills taxes on the same valuation? Oh, fie, Mr. Portlander (we almost wrote "outlander"), what is wrong with your arithmetic?

And here is just an afterthought. Residents of Aloha are circulating a petition calling for an election, similar to the election to be held here next week. Why pick on Bea- verton to shout "high taxes" and keep so quiet about Aloha? Is that consistent?

CONQUERORS

Her face shone with a peaceful light,
Yet, in her home, want showed its blight;
So I made no appeal for bread,
But asked to use the 'phone instead.

Alas! where there's naught to divide,
Wee, as a rule, doth there abide,
But some may cover with a mask,
Lack, only beggars see, who ask.

How great to suffer want and wee,
Yet hide our pain from those we know!
Oh! would not earth be much more fair,
If all might thus hide their despair?

FEDERAL INDEMNITY FOR CATTLE TO STOP

Wm. F. Cyrus, County Agent

Dairymen may find it an ad- vantage to start blood testing for contagious abortion now rather than waiting very much longer. As things stand at the present time, the new Bang's Disease Control law will probably become effective Jan. 1.

When the government Bang's Con- trol program is discontinued the in- demnity now being paid will cease. Consequently reactor cattle will, if disposed of bring only a slaughter price. The present Federal program will supposedly end with this year and if it does the new state law becomes effective at that time.

Word from Dr. S. B. Foster, in- spector in charge of the Federal program in this territory, states in 25 that "Indemnities have been in- a circular letter under date of June 1934 to a possible maximum of \$25.00 per head for grade animals instead of the former \$20.00 max- imum. No difference is made on the maximum for purebred registered animals."

"The increased indemnity became effective June 10 and all animals not moved from premises prior to June 10 are eligible for increased indemnity. Any owner who has had reactor cattle moved off the place on June 10 or after can sign the new T. E. 33 revised agreement in order to get the increased indemnity."

Any herd owner who has signed the old testing agreement, but who has not yet been tested should get one of the revised agreements and study it carefully. These may be obtained from the veterinary who is doing the work or from the county agent's office.

Silently Passing

HARRY SUMMERS

Harry Summers was born on a farm near Morris, Ill., January 10, 1866, sixth child in a family of eight, five of whom have now passed to the Great Beyond. His education consisted of the usual in- struction afforded in the little re- school house of that time.

In 1891 he came to Oregon and has lived here or in this vicinity since that time. He never married. Poor health settled on him for a victim about a year ago, but he was so as to be up and about until Thursday. He died Friday, about six in the afternoon. He was buried in Crescent Grove, after the funeral services which were held Monday with W. E. Pegg in charge of arrangements.

Two sisters, Mrs. Hortense Keith of LaCenter, and Mrs. Ed Keith of Oso, Washington, and one broth- er, John, of Beaverton, survive.

Lawyer Tells How New Site Is Chosen

School Meeting Would Be Held To Choose Which Location To Buy

VOTE MUST BE TAKEN

Legal Requirements for Voting In
Bond Election Are Given

On the authority of P. L. Patter- son, Beaverton's city attorney, and prominent and popular young Wash- ington county attorney, we print below how a new school site must be chosen. Four different locations, have already been offered, and if you have a site that you think suitable, why not offer it for the voters to decide on?

Method of Selecting A New School Site

The district board must call a meeting at some convenient time and place fixed by the board to vote upon the question of selection and purchase of the site. Said elec- tion shall be conducted and votes canvassed in the same manner as at the annual election of school officers. The majority of the vot- ers present at such a meeting by vote will select a schoolhouse site, which site shall be purchased by the district board of directors.

Legal Requirements for Voting in Grade School Bond Election

Any citizen of this state, male or female, who is 21 years of age and has resided in the district thirty days immediately preceding the meeting or election and has Prop- erty (Real or Personal) in the dis- trict, AS SHOWN ON THE LAST COUNTY ASSESSMENT, on which he or she is liable or subject to pay a tax, shall be entitled to vote at any school meeting or BOND ELECTION, provided further, that any person shall be deemed to have complied with the property qual- ification imposed, who presents to the directors or judges of election satisfactory evidence that he or she has stock, shares or ownership in any corporation, firm or copartner- ship which has property in the dis- trict as shown by the last county assessment, and on which such cor- poration, firm, or copartnerhip pays a tax, even though his or her individual name does not appear upon the tax roll.

Chicago's Mayor Kelly Starts Work On Big Building to Employ Thousands

Center: Mayor Kelly (with spade) and Walter E. Olson, rug company head.

CHICAGO—With Mayor Edward J. Kelly wielding the spade, ground was broken recently for the first major building project of the year in Chicago—the third unit in the rapidly growing plant of the Olson Rug company. The new structure will cost \$415,000.

In addition to the fact that this project will result in the employment of thousands of men, Walter E. Olson, president of the rug com- pany, explained that he considered

this the ideal time to build.

"For us," he said, "this is doubly the time to build. In the first place, we badly need this new unit to handle our steadily increasing busi- ness; second, we have found build- ing costs are now more reasonable than they have been for several years."

"This is at least one sizeable build- ing project that is being launched in 1935 without the aid of federal funds," Mr. Olson added.

HIGH TAXES?

"Last year's taxes on Ned Nel- son's place was \$421.75 of this sum \$229 was school tax District No. 48,"—Beaverton Enterprise.

Now, what do you know about that? The school board insist that the school levy for District No. 48 is fifteen mills. Quite enough, we'll admit. But is it possible that the above statement is true? The one about Ned Nelson's taxes? Let us figure it out a little.

Two hundred twenty nine dollars represents, if the statements above are correct, one and one half per cent of the valuation of Ned Nel- son's property. That property must have an assessed value of \$15,266.66. Quite a tidy sum when we consid- er that property here is not as- sessed at its full value. Ned Nel- son must have property worth \$50,000.00 or perhaps \$60,000.00. Quite an estate, if we may be al- lowed an interjection.

Now, the balance of the \$421.75, the total tax, must pay several

other taxes—general tax, road tax, water district tax, special road tax, and so on. That balance figures out as being \$192.75. Now, the state and county tax is 15.2 mills, the county road, 4.7 mills, and West Slope Water district pays 5.1 mills. Totalling the millage we have 15.2 plus 4.7 plus 5.1, or a tax of 25 mills. Now the total taxes, as stated above, \$521.75, the school tax \$229 which was fifteen mills, how in thunder can \$192.75 represent 25 mills taxes on the same valuation? Oh, fie, Mr. Portlander (we almost wrote "outlander"), what is wrong with your arithmetic?

And here is just an afterthought. Residents of Aloha are circulating a petition calling for an election, similar to the election to be held here next week. Why pick on Bea- verton to shout "high taxes" and keep so quiet about Aloha? Is that consistent?
