What Does It Spell?

Does it matter that Uncle Sam is going in to debt a net \$10,000,000 a day? Makes \$400,000 an hour. How come? Well, for one thing we are saying that no mouth shall go hungry. Right we are in that. But we are doing it on borrowed money and passing on the debt. Leaving it to our children's children to pay. Loading ten million a day onto them. What does it spell? Is something wrong deep down within our people?

Look back a bit back to the time when Sunday was the Lord's Day, with the men-folks turning out to worship at the meeting house. The man-power of the country seeking to know God's will and to do it. We recall one man back there who stayed single for years to pay off his dead father's debts. A matter of honor with him to keep the family name good. God-fearing and debt paying went hand in hand.

Are we changed deep down? As a nation have we turned from the light? Back in Noah's time they went that way. "When they knew God they glorified him not as God; neither were thankful." And in seven steps they went down until they were worshipping carved stones and stumps; idolaters they became.

"Wherefore God gave them up." (Romans 1:21-24.) Judgement by flood their portion. Of all the race only Noah and his were left. Thus it is when man turns from God's light. Deeper and deeper, sin takes hold, and judgment must fall. The Bible warns us.

What has come over us since the time when we had one day in seven apart for God? Deeper and deeper is sin taking hold? Then judgment must fall. "God is not willing that any should perish but that all should come to repentance." 2 Peter 3:9. "My sheep hear my voice and I know them, and they follow me; and I give unto them eternal life; and they shall never perish." John 10:26-27.
