SELF-STARTING electric clocks regulated by alternating home-current have a definite appeal to the modern woman. These clocks are not only punctilious time-keepers but they come in such a variety of colors and styles as to make it possible to choose a clock that will harmonize with the decorative scheme of any room in the house. Beautifully tinted glass covers and charming timepieces in wood and plastic play an important role in room design. The Telechron motorized clock illustrated, for example, has been especially designed to appeal to the feminine whim. It is styled of glass with mirror finish. Imitation "Cristallo" finish metal makes the dial which is encircled with black etched-in Roman numerals. In blue, amber or rose crystal this particular clock may be a charming timepiece for the boudoir or feminine sitting room.

Did you know that by selecting window shades in a continuous color tone in which a room is decorated the room achieves a feeling of greater spaciousness? Larkspur blue shades—and incidentally Larkspur blue is one of the newest and smartest colors to make its appearance in cloth window shades—have been chosen to create just this effect in a room papered in pale beige where the woodwork is painted in a contrasting darker blue. This new Larkspur blue window shade has been used with great effectiveness in bathrooms and bedrooms. The color is a particularly good one for bedrooms as it keeps out the glare of the summer sun and makes for cool restful sleep.

A CRITICAL reader of a committee report wrote, "There are many omissions in the report." That is impossible. An omission is something that is omitted or left out. If the omissions were in the report they wouldn't have been omissions. In reporting a mountain climbing expedition a newspaper reporter wrote, "We followed the climbers step by step through the telescope." That seems to be impossible, too, unless the climbers climbed through the telescope as well as up the mountain.

"Demean" is often used incorrectly as a synonym for "debase, degrade, disgrace," as: "I never thought he could demean himself by such an act." "Demean" is merely a synonym for "behave" or "conduct (oneself)." A person may demean himself either well or badly, just as he may conduct himself either well or badly.

Washington, Scholls, Leedy, Aloha and Dixie Mountain. Also the following Farmers Union locals have arranged for space this year: Blooming, Gaston, Laurel-Scholls, Middleton and Verboort. These displays of agricultural products by these organizations are one of the most attractive features of the Fair, and the many visitors are surprised at the quality of Washington County products when they view these exhibits.

The Future Farmers will also have outstanding displays of farmcraft.

L. E. Francis, assistant county agent and club leader states that it will test the capacity of the buildings for the boys 4-H club exhibits this year. A recent survey shows there are 22 boys' 4-H clubs in then county. There are also 62 girls' 4-H clubs in the county, all of whom are interested in the fair. O. B. Kraus, county school superintendent, is superintendent of the girls' 4-H club division of the Fair, and expects their exhibits to be improved over last year.

A fine entertainment program is being arranged and will be completed later.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go
The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.
Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c.
