WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go. The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sick and the world looks pink. Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c.

Combining Beauty With Talent

Maxine Marlowe

IF pretty is as pretty does, Maxine Marlowe, star soloist on Phil Spitalny's "Hour of Charm", is a credit to the adage. Although assigned to the role of a radio songstress who is heard but seldom seen, Maxine, never neglects her make-up. Being always perfectly groomed, whether alone with the mike, or in public, is the secret of being exuberant, the vivacious kind of a person people like to have around.

RIGHT OUT OF THE AIR

By EARLE FERRIS

Joe Laurie, Jr., is a "funny" comedian. By that we mean he's unique because he doesn't want to be funny on the air. Joe is more anxious to get a certain philosophy across to listeners rather than make them laugh at cut and dried gags. This philosophy is that we all look pretty ridiculous to a disinterested observer like Joe's "Floyd the Fly."

Joe Laurie, Jr. Cecil B. DeMille's yacht is in commission again. Long out of service because DeMille was so tied up with his Radio Theatre and picture work that he couldn't spare time for it, the boat is in use every weekend now with the great director and parties of friends aboard. DeMille will be back in harness when Radio Theatre returns to the airwaves on September 13.

Johnny Trotter is the newest band leader to come up from North Carolina to radio fame. Johnny recently drew the musical assignment on the Thursday night Music Hall program. He organized his first band while a student at the University of North Carolina.

Irene Noblette's ability to change her voice at any time has saved Tim Ryan considerable worry - and

to make a motion picture, was accorded one of the warmest welcomes ever received by a radio celebrity. It is Baker's first visit to Hollywood in several years and his first major film venture.

Ferde Grofe's immortal compositions made him far more famous for his writings, than for his conducting. But since he began his CBS concert series, Grofe is recognized by American music lovers just as much for his conducting as for his composing.

Shortage of top rank dramatic material adapted to the requirements of the microphone is starting a new

trend in radio production. Writers are being commissioned to do one act plays for certain stars. Recent example was the Sunday Night Party's hiring of Colin Clements and Florence Ryerson to do a piece which was later called "Her Majesty the King," for May Robinson and Jean Muir. The program had the two stars out no good material. The one-act was written with the two actresses in mind.

NBC page boys recently conducted their own popularity poll around Radio City and voted Jane Froman as one of the best-liked artists in radio.

Don Voorhees, musical director of the CBS "Cavalcade of America" programs, is more than a purveyor of good entertainment. Scores of vocalists now enjoying great popularity on the air, claim that it was not for Voorhees' tolerance, patience and understanding their radio careers would not have progressed beyond their first audition.
