Mr. and Mrs. Jesse Hays made

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rain' in G.

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sick and the world looks pink.

Laxatives are only makeshifts. A more bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harshness, gas, acid, wet smacking in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c.

for wood or a cow. John Schaber, Bx 384, Beaverton. p-35

## RIGHT OUT OF THE AIR

By EARLE FERRIS

One of the rare father and son teams on radio contributes to Harry Von Zell's CBS Sunday night summer show. It is composed of Oscar Bradley, the orchestra leader, and his son John, who is home from Yale for the summer. Although John's paramount ambition is to become an actor, he has a flare for musical arranging and is assisting his dad on the Von Zell program.

Johnny Green, who at the age of 29 has written many outstanding songs hits, states that he will not be content unless he has at least forty hits to his credit when he reaches fifty years of age.

Clarence Muse, screen and radio baritone, states that his fan mail discloses that the majority of listeners prefer sad and mournful tunes during the summer and gay and light numbers in the winter.

Not publicized is the fact that Allie Lowe Miles used to be a movie star. She got off the acting track into

versatile entertainer than the air audience suspects. For years she taught piano, voice and violin to youngsters in Peoria, Ill. Later, she toured vaudeville with her own orchestra and did comedy acts with her husband, Jim (Fibber McGee) Jordan. During their first years on radio the team was known as The Twins, the Smith Family and The Smackouts.

Comedian Bob Burns, who proved that Horatio Alger was right when it comes to radio, has finally moved from his \$27.50 a month apartment into a Beverly Hills home costing \$65,000. The purchase of the home didn't strain Burns' pocketbook either. Movie and radio contracts guarantee him a million dollars in three years.

Some pertinent facts about Charlie McCarthy, the little ventriloquist's dummy who has taken America by storm: He's fifteen years old, was carved from white pine, weighs forty pounds, is thirty-four inches tall. Charlie is hollow, has a few simple levers inside which permits him to alter his voice. Edgar Bergen, to make his lips move head turn, and so forth. In other times and places he might have been burned for a witch or worshipped as a god. Americans, however, just love him and buy dolls resembling him for the children.

Charlie McCarthy

ALLIE LOWE MILES

writing, radio production and allied jobs. Now she conducts the "Husbands and Wives" broadcasts each Tuesday over NBC with Sedley Brown. In addition to all these things she has also written fiction under a dozen different names.

Horace Heidt, whose music is heard over both CBS and the Mutual networks, believes in keeping his organization intact. Four members of the band have been with him for twelve years and six have passed the five year mark.

Ozzie Nelson has been on "vacation" from radio for more than a month now but he has worked every

day and the prospect is that he won't have a single day off before he returns to the air in October. He has been playing hotels, theatres and dance engagements which wouldn't fit in with his winter and spring broadcast schedule.

Marian Jordan, the feminine member of the popular radio team of Fibber McGee and Molly, is a most
