The highest and lowest places in the United States are both in California, and only eighty-six miles apart. Mt. Whitney is 14,496 feet above sea level. Death Valley is 276 ft. below sea level.

If all the land in the United States were to be equally divided there would be between sixteen and seventeen acres for each inhabitant.

Swift, Easy Way TO CALIFORNIA

Day and night, regardless of the weather, our fine, fast trains speed to sunny California. When you go this way you relax in the knowledge that heavy steel rails are the SAFEST, easiest-riding, highway in the world. But speed, safety and comfort are not all: Economy dining car meals, 5c and 10c Tray Food Service, low rail and Pullman fares are other reasons why so many people travel Southern Pacific. Next time you go to California, try the train!
