PHONOGRAPH RECORD CIRCLES GLOBE

Twenty years ago—May 15, 1918—headlines and front page stories heralded establishment of the first air mail route. It was only 200 miles long, from New York City to Washington, D. C.

Today, a single phonograph record, speeding thirty five thousand miles around the globe, crossing three oceans and three continents in commemoration of that event, passes almost unheeded—a routine flight.

That phonograph record, a living testimonial to the efficiency and speed of modern world wide air mail, returns to the United States during United States Air Mail Week, May 15 to 21, after circling the globe, entirely by air, in less than five weeks.

A blank aluminum acetate record when it was dispatched on its "round the world" flight by Radio Station WBBM, Chicago, on April 7, the broadcast transcription will have on its face eight salutes to the U. S. Air Mail in three different languages when it completes its hop Tuesday, May 17, in Chicago. First voice on the disk is that of Postmaster Ernest Krueger of Chicago, who personally canceled the first stamps on the record when it was shipped over United Airlines for San Francisco on April 7.

Last voice will be that of Postmaster General James A. Farley, to whom the record will be presented in Washington during Air Mail Week.

Flying northward over Pan American airways from its last two stops in Rio de Janeiro, Brazil, and Havana, Cuba, the "Round the World" disc arrived in the United States at Miami, Florida, Tuesday May 10, at 5:35 p.m. EST.

Immediately it boarded Eastern Air Lines for Newark, and American Airlines for Montreal and the final recorded salute. The record's itinerary calls for a visit to the New York Worlds Fair Grounds May 15, and presentation in Washington to Postmaster General Farley May 16. Returning to Chicago May 17, the record will be specially treated for permanent preservation in the Post Office Department Archives and broadcast on a special WBBM program Friday at 20, 7:00-7:30 p.m. CDST. In its five week 35,000 mile flight the record travels on ten airlines.
