SALUTATION

Our reason for acquiring The Beaverton Review is because we believe there is an excellent field here for a real newspaper—one that prints the news of the community and offers a means for Beaverton business men to contact the residents of the trade territory through their advertising. Our interests will all be in Beaverton and we will give you the best we have to help in the improvement of the community.

Politics seems to be an important business in Oregon, but with this newspaper it will be handled as of secondary interest. The only excuse for a newspaper in a city of this size is the publishing of the news of the community. However, the reader has a right to know the politics of the editor of this paper, and we have no hesitancy in announcing that we are a 100 per cent Roosevelt backer. We are for him in his efforts to aid the laborer and farmer in the fight against organized wealth, and therefore, we shall vote for the candidates for state and national offices who will support the president in his program. God gave us all brains to think with and we believe everybody should do their own thinking. We respect the right of everybody to hold their own views, and we also reserve that right for ourself.

Improvement will be made in the paper just as fast as our business justifies expansion. We will be handicapped for some time in reporting the news. Names and locations are unfamiliar and no doubt we will make plenty of errors. We ask you to overlook our shortcomings for the time being and we promise you that we will improve as time marches on.

We need a lot of new subscribers and we ask you who receive sample copies this week, to look over the paper carefully and if you think it worth the price, drop in and leave a dollar for a year's subscription.
