GRADE SCHOOL NEWS

The yard and grounds of the Grade School have taken on a new and beautiful appearance during the last week. A crew of workers under the direction of Mr. Drew has planted groups of beautiful evergreen shrubs around the base of the building. A lawn is to be planted in front and maple and sycamore trees around the playground.

Friday of last week brought an interesting experience for grade school students above the third grade when Miss Keller from the State Board of Health gave a hearing test. They were tested in groups of forty. Each child had a head phone resembling those which telephone operators wear and listened for, and wrote down numbers which they heard. If the group test seemed to indicate a loss of hearing, an individual test was given. A number of schools sent their students here to have the test, among them were St. Cecilia, Barnes, Hiteon, Kinton, Tualatin View and Farmington. Because of the large number to be tested some of the Beaverton students didn't get the individual test. It will be given later and a report made to parents.

The marble tournament is in full swing. Leading at this date are: 7th grade boys, Wayne Swaeger.

6th grade boys, Harvey Bernash. 7th grade girls, Anna Mae Tong. 5th grade boys, David.

8th grade boys, John Lillard. The 4th, 5th and 6th Grade girls gym class is having a lot of fun playing End Ball in their gymnasium period. This game is a "lead up" for Volley ball. Miss Lite, their gym teacher, hopes to form some teams later on and some peppy volley ball games may be expected.

The 4th, 5th, and 6th grade boys under the leadership of Mr. Phelps are learning to march in groups and follow orders.

The upper grade boys are anxiously awaiting the installation of baskets in the gymnasium so that they may begin basketball practice.

Bobby Hunt is a new student in the first grade. Sherry Rodgers and Richard Lund are newcomers in the third grade.

Bobby Nolt has returned from the Shrine Hospital and is in school again.

John Biggl, a sixth grader, has returned after a few days absence due to illness.

On Friday night last week the Grade School building was broken into by vandals, nothing of much value was taken but some damage to doors and furniture was done.

New members of the Girls' Glee Club: Margaret Lou Selden, Jeane Lewis, Juanita Keebaugh, Florence Heughen, Roberta McCloskey, Jean Wolf.

Boys Glee Club Members: Lynn Fauteck, Glenn Mortimore, Crandall Peck, Floyd Carlson, Keith Cook, Harvey Bernash.

HIGH SCHOOL NEWS

(By Pat Ward, High School Reporter)

Before a crowd of 2500 people Beaverton High School was awarded the trophy donated by Pacific University at the official Washington County football opener held at Forest Grove last Friday night September 23, on the Pacific University campus. Eight schools competed for the cup, which was awarded for best showmanship of the team, rooting section of the school, and stunts presented.

The eight schools were divided into East and West sides the East being composed of Sherwood, Tigard, Beaverton and Newberg. They played against the West side teams, Forest Grove, St. Marys, Hillsboro and Banks. Beaverton scored against Sherwood for the West bringing the score to the evening to a 7 to 7 tie.

Beaverton scored their touch-down when Emmons made a spectacular 45-yard dash for a touch-down in the fourth play of the quarter, and were a constant threat throughout with their snappy play.

Between quarters each high school presented stunts for which points went toward earning of the trophy.

The Beaverton High School stunt was a snappy military drill by the band, drum majorettes, and the Pep Club. Judges awarded the stunt first place on the basis of its color effect, precision, uniformity and perfection.

The gold cup, another award for Beaverton, was presented by the judges to Marshall Toelle, president of the associated Beaverton High student body, at the end of the game. In the base of the cup has been placed a paper bearing all names of those who through their participation helped to win it.

CARBON MONOXIDE WARNING

We have all heard of carbon monoxide, the highly poisonous gas which is contained in exhaust gases of all internal combustion engines but how many of us know under what circumstances we are apt to be exposed to high concentrations of the gas and how much time is required before its effects are felt?

A running automobile engine produces from three to five cubic feet of carbon monoxide per minute, or enough to render the air in a single-car garage deadly within five minutes, if the garage doors are shut. On the other hand the gas is dissipated so rapidly in the open air that its effects will be felt only on the most heavily travelled boulevards after several hours exposure. No one but traffic officers are likely to suffer from this source.

There is a third source of exposure not so immediate dangerous as the first, but frequently having disastrous consequences. This source is the leakage of carbon monoxide into the driver's compartment through the dashboard and floorboards.

This leakage may be due to a defective gasket, cracked muffler or broken exhaust pipe. It is not apt to be serious unless the driver's compartment is sealed against seepage of air.

The danger from this type of exposure to carbon monoxide lies in the possibility that one will fall under its influence gradually while driving will become dizzy or sleepy and will fail to keep one's car under control. It is highly probable that a number of so-called "drivers asleep" accidents are attributable to partial monoxide poisoning.

The safe thing to do is to check your car's exhaust system for cracks or leaks, see that it is provided with an exhaust pipe reaching slightly past the rear of the vehicle, and make sure the floor of the driver's compartment is adequately sealed with mats or padding.

FOOTBALL GAME TODAY

The "Rainier Lumbermen" will invade the "Beaver Pond" today in an effort to make it two straight over Coach Marble Cook's Orange and Black Outfit.
