new fullness is manipulated impresses one. In some instances skirts are frankly full all around, inspired no doubt by the diradly ogue that has been having a successful run for some time. The all-around pteated skirts will hold good among foremost fashions not only for midseason and spring, but their style prestige will endure the whole summer through. Unpressed pleats is also a favorite method with designers for acquiring desired fullness. Then, too, there is the circular-cut skirt that measures yards around the hem. It is getting lots of notice especially in the very new petticoat versions which are made to reveal a swish of taffeta or a splash of white that repeats the pique neckwear which finishes off the blouse. These petticoat dresses are providing a big sensation on the new style

For women who cannot stand for ness, the new skirts that make particular appeal show a controlled treatment in that they are smooth at the back and hips with fullness brought to the front in gathered or pleated panels. In both day and evening clothes this idea is carried out

This matter of soft styling and intriguing fullness is by no means confined to the skirt but rather is consistently worked throughout the costume so as to preserve continuity in a unifying way. The smart coat and dress shown in the illustration
