Library Tea Is Very Successful

The Library Tea had a most successful afternoon both socially and financially. \$27.50 was given to apply on buying books for the library.

The Masons generously set the standard for cooperation by allowing the use of their hall.

The committee from the 14 organizations worked untiringly. The members who did the last minute duties of hospitality are to be highly commended. Mesdames Robert Stewart, McKell, Blasser and Denny made the tea tables works of art and by their beauty created a finer atmosphere. Mesdames Walter Scott, W. Grauer, C. E. Mason and Henry Dahl presided at the tea tables.

The most necessary part of the tea, service from the kitchen, was done by Mesdames E. Summers, A. M. Jansen, B. Johnson, A. Holbake and Mrs. Donaldson.

The musical numbers by Roberta Whatly and LaRay Martyn accompanied by Mrs. R. A. Montgomery of Aloha set the correct key for the afternoon. Miss Kate Failing gave a most interesting talk on her stay in India and with the display of Indian articles left little to be desired. The modeling of the India costumes by Mrs. B. McCloskey and Mrs. Rector was especially good.

Friends of the library from Portland brought donations of books. Mrs. Thompson gave the afternoon so the guests of the tea could visit the library and a number took advantage of the opportunity.

One of the treats of the afternoon was the unexpected attendance of ten of the business men of Beaverton. This lent the last touch of dignity needed for success.

A hearty thank you should be extended to all who helped with the tea or attended. This is one more link in community co-operation for a splendid Library.

EXECUTIVE PREDICTS GOOD YEAR FOR GAS

In anticipation of a prosperous year marked with exceptionally heavy automobile travel, H. F. Morrison, president of the film distributing Hancock Gasoline and Petroleum Products throughout Oregon and Southern Washington, made a flying trip to the Hancock refinery at Long Beach, California last week.

While at the refinery, arrangements were completed to assure millions of additional gallons of Hancock products during 1939 by the enlargement of the tanker fleet which brings the gasoline from the marine terminal in California to the recently enlarged storage facilities in Portland.

"Business conditions appear to be improving," stated Morrison, "and with the beautiful Golden Gate Exposition in San Francisco, I look for automobile travel to be particularly heavy. Many people in Southern California whom I met stated they would visit the Fair and continue through the Northwest for their vacation, and naturally many people from the East and Middle West will drive out through this section of the country."

"Tourist dollars should reach a very high level in 1939 and help the Pacific Northwest enjoy an unusually good year."
