**AMERICANISM**  
"Americanism is unflinching love of country; loyalty to its institutions and ideals; eagerness to defend it against all enemies; undivided allegiance to the flag; and a desire to secure the blessings of liberty to ourselves and our posterity."

## CHRISTLESS GRAVES

From time to time a friend or a neighbor is laid away in a Christless grave. And why in a Christless grave? Because the Good Book says, "He that believeth not the Son shall not see life; but the wrath of God abideth on him." The Bible is a severe book. It is like the M.O. who tells you the truth about yourself when you have an incurable disease. The Bible does not soft-soap a sinner and tell him that the good life he has lived will save him. It is crystal clear. He that believeth has eternal life. Otherwise he is under the wrath of God. The Bible nowhere tells the lost to copy Christ and by that be saved. Not by works of righteousness that we have done are we saved, it warns.

One monster sin stands out above all others. It is to know that Jesus Christ died for your sins and then to reject Him. HE THAT BELIEVETH NOT THE SON SHALL NOT SEE LIFE, BUT THE WRATH OF GOD ABIDETH ON HIM. The Bible becomes the most unpromising of all books to who ever rejects the light. It affirms that hell was prepared for the Devil and his angels. It says that our friends who go into Christless graves, pass on after the Judgment Day, to share the fate of Satan. Whatever destiny awaits Satan, awaits them. But he that believeth in Christ hath life. Whatever destiny awaits Christ in the eternities, awaits Christ's people. His glory is to be theirs. Death can never touch Him nor His. For two thousand years not one of His redeemed has ever lasted death. From that instant when they laid hold on His death as clearing them, eternal life has been theirs.

God urges the man under wrath to turn. God commendeth His love for us in that while we were yet sinners Christ died for us. Being now justified by His blood, we shall be saved from wrath thru Him. BLESSED ARE THEY WHOSE INQUIRIES ARE FORGIVEN, AND WHOSE SINS ARE COVERED. BLESSED IS THE MAN TO WHOM GOD WILL NOT IMPUTE SIN. In God's holy eyes, our human righteousness is as filthy rags. But now a righteousness of God has been brought to light. A righteousness of God thru faith in Jesus Christ, unto all and upon all that believe. FOR YOU IS IT LIFE UNTO LIFE OR DEATH UNTO DEATH?

THE effectiveness of tin plate roofing is considerably enhanced if, shortly following installation, the roof is given several coats of rust-inhibitive paint.

Allow tin plate to weather from two to six weeks depending upon moisture conditions, until the smooth, "glossy" surface has sufficiently corroded to provide firm anchorage for paint. Then remove all loose rust, if any, leaving only roughage which adheres firmly to the surface.

If necessary to apply paint before time required for weathering, wash down tin plate—after sheets have been soldered in position—with four per cent acetic acid solution which roughens surface, removing "glossy" sheen.

Back prime tin plate before installation. While paint dries, sheets may be soldered in position.

For best results, apply back and surface priming coats composed of 12 parts paste red lead, 10 parts raw linseed oil, 1 part turpentine, 1 part liquid drier.

For darker colored finishes, add colors-in-oil to body and finish coats of red lead mixed as above.

For lighter colored finishes, apply usual body and finish coats of white lead paint.

Q.—Suggest method for refinishing mahogany after removal of old, worn varnish. Will an oil stain do?

A.—Surface must be smooth for whatever finish is applied. Rub down, well with fine sandpaper.

Wipe off with benzine, taking fire precautions.

For high gloss finish apply two coats best quality quick-drying varnish.

Dull the first coat gloss when it is dry by sand-papering as above. Wipe well before second coat.

For waxed finish apply coat of white shellac thinned half and half with denatured alcohol. Finish off by rubbing in well two thin coats of paste wax.

Oil stains are seldom applied to finger woods.
