Age limits are between 15 and 21. Participants must have completed three years of club work including the current year and must not be enrolled in a college course. A gold medal is the reward for the county winner, a trip to the Chicago International Live Stock Exposition in Chicago is the state award; six educational scholarships of \$200 each which may be applied toward a course at a State Agricultural College are the national awards. Last year Orr-Lyda J. Brown of Eugene won a \$400 scholarship in this contest.

Canning club members have a similar opportunity in a contest sponsored by the Kerr Glass Manufacturing Corporation. Eligibility requirements and awards are the same as in the food preparation contest. THE "TAX RACKET"

A recent survey, reported to be among the most accurate ever made, concerned the proportion of income paid in taxes by a typical workingman earning \$20 a week. The survey found that \$4 of this modest wage went to the tax collector.

That \$4 was not paid directly, of course—it is probable that the average worker doesn't know he is taxed at all. He isn't concerned with income tax blanks and the other myriad and involved tax reports required by government of those in higher income brackets. His \$4 was paid indirectly, throughout the entire week. High taxes make a loaf of bread cost a penny more than it would otherwise, a pair of shoes cost fifty cents more, a ticket to a movie a dime more, the monthly electric bill sixty cents more. So it goes, down the endless list of purchases and payments we all make. The tax collector is always at your elbow—a highly expensive if unseen companion.

And here is proof of the fact that the real burden of taxation falls more heavily on the man of small means than the man of large. Four dollars a week taken out of a \$20 paycheck means that this typical worker's family must go without needed clothes, medical attention, entertainment, etc. It means less money for insurance or savings. It means poorer housing, poorer meals.

housing, poorer meals.

We've heard much of that proportion of the population which is "ill fed, ill housed, and ill clothed." What we don't hear often enough is that the burden of debt and taxation is largely responsible for that, and in two ways. First, it takes a percentage of the small wage earner's income which he obviously cannot afford if he is to maintain a decent standard of living. Second, it deprives him of jobs and opportunities and the chance for better pay. An overtaxed business doesn't expand and hire more men. Nor, when it is being drained to the limit by government, can it increase wages.

So the "little man" is getting it in the neck—as a result of those suicidal fiscal policies pursued by a group of politicians who copious crocodile tears on behalf of the people. It's time to racket.

Propaganda for Democracy

Diagram comparing Democracy vs Dictatorship. Democracy: Wealth must be abundantly created, Democracy secures all the freedoms—freedom to speak, to worship, to think, to dream, to accomplish. Dictatorship: Democracy rests not on supermen, but on the good sense of many. We work to a hundred-year plan. It is the laborious process of making more things people will buy, in which everybody participates, that distributes the benefits.

WHAT'S WRONG WITH DEMOCRACY? In discussing this question recently, Paul Garrett, Director of Public Relations for General Motors, found nothing wrong with our democracy except, perhaps, a lack of understanding of the things it stands for. The only way to correct that, he said, is through more and better propaganda for democracy—propaganda that is honest, that is human, that stirs sound emotions. "Over all the world," Mr. Garrett concluded, "the heart of man is hungry for faith. Man wants to believe he can earn his way to better position. He wants opportunity along with others working beside him, opportunity that is the only true security, to attain all those freedoms our form of democracy stands for. Man longs to know that through and through the plan of American enterprise is threaded his greatest hope for the future." Above are illustrations of excerpts from Mr. Garrett's talk "Propaganda for Democracy."

Black Sheep Flowers

If the black sheep of a family is the member who doesn't act or look like the rest, then the zinnia family of flowers is just a parade of black sheep. Shown above are seven zinnia blossoms, with no one of them much like the other in size, shape or color.

That is one of the reasons the zinnia is among the most popular of home garden flowers. They can be had large, medium-sized, or small, and in a color to suit any garden scheme. Moreover they are easy to grow, and they provide an abundance of bloom from early summer until well into fall.
