

## Fair Art in Action!

Here is one of a score of artists working in the Art in Action exhibit on Treasure Island. Note the rapt expressions on the group watching the artist as she begins building a clay and picture in the Palace of Fine Arts.

## Keep Away From My Girl!

**DOBBIN** may be only a horse, but he has very tender sentiments for Miss Florida Exhibit, and he'll stand no interlopers coming between them.

Here is Dobbin, the dancing star of the Ford Exposition's horse opera, at a stunt party at the New York World's Fair, aiming a good, swift kick at the Firestone Mechanical Man. Dobbin doesn't like the attentive air of the mechanical man, as he hovers about Margaret Ann Merk, 18-year-old beauty from Del Ray Beach, Florida.

After a glance at this picture, one might well wonder what goes on at the Fair, anyway. For this is an actual scene taken in front of the Florida pavilion at a party for World's Fair dummies. They were all there, except Charlie McCarthy, who, after all, is in Hollywood most of the time.

Dobbin galloped over from the Ford Playhouse, where three different sets of dancers alternate inside his dappled gray flannel hide.

The Mechanical Man (who is actually a real man, but who impersonated a robot for so long that the part comes natural to him), joined Miss Merk in greeting him. Present, too, was Penelope Shoo, the wheatfield scarecrow (that's her husband in the opera hat, at the extreme right). Behind Dobbin's outstretched foot is the prehistoric man from the Pastorama, and at the left is the little laughing manikin who represents a cigarette-lighter.

These and other robots performed in turn on a program the like of which has never been seen before. The Florida State Exhibit's animated image of Ponce de Leon was official host. Dobbin, who packs 'em in twelve times daily at the Ford Playhouse, opines the party was a big success, even though they wouldn't let him eat the straw that stuffs Penelope Shoo. Dobbin is the leading man of the Ford Exposition's tuneful, hilarious pantomime "A Thousand Times Neigh."

### Jelly Making Maxims

by Alice Blake

"SOUR grapes" don't bother home makers who use a short-boil recipe for jelly. That's a cover-up failure this new-fashioned way. Just follow the recipe exactly—and reap a reward of half-again more glasses from every pound of fruit.

#### Venison Jelly

(Makes about 11 medium glasses)

- 4 cups juice
- 7 cups sugar
- 1/2 bottle fruit pectin

To prepare juice, stem 3 pounds fully ripe grapes and crush thoroughly. Add 1/2 cup apple vinegar, 1 teaspoon cloves, and 2 teaspoon cinnamon.

Bring to a boil, cover, and simmer 10 minutes. Place fruit in jelly cloth or bag and squeeze out juice.

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottle fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 1/2 minute. Remove from fire, skim, pour quickly. Paraffin hot jelly at once.

### Ice Cream and Cantaloupe

How about ice cream and cantaloupe for a porch supper during hot weather? Make it something special—cantaloupe a la mode, garnished with fresh peaches and blackberries for good measure.

The vanilla ice cream for which we are giving you the recipe is going to be one of the easiest, nicest and most economical you have ever made. Not too rich, but smooth and full-bodied. Made with only one part cream to three parts milk, which is one-third to one-sixth as much as most recipes call for—a feature that will delight your household budget and prove a boon to those of your family who love ice cream but find it too fattening. And using no eggs, so you can guess how simple it is. All this because it is a rennet-custard ice cream, and rennet has a way with milk, as you rennet-custard fans already know. But why should we tell you about it, when it's so easy to try it for yourselves?

- Vanilla Ice Cream in Cantaloupe
- 2 rennet tablets
- 2 tablespoons cold water
- 3 cups milk
- 1 cup heavy cream
- 1 cup sugar
- 1 tablespoon vanilla

Dissolve rennet tablets in cold water. Warm the milk, cream, sugar and flavoring to **LUKE-WARM**—not hot, stirring constantly. Remove from stove. Add dissolved tablets, stir a few seconds; pour immediately into freezer can and let set at room temperature until firm and cool.

Freeze in ice and salt mixture, 4 parts ice to 1 part ice cream salt. Turn freezer about 10 minutes. Remove dasher. Repack with ice and salt and let set until ready to serve.

Serve in halves of thoroughly chilled cantaloupes, with a garnish of sugared sliced peaches and fresh blackberries. Serves 8.

### Civil Service Exams.

The United States Civil Service Commission has announced open competitive examinations for the positions listed below. Applications will be rated as received at the Commission's Washington office until further notice. The salaries given in each case are subject to a retirement deduction of 3 1/2%.

Inspector, powder and explosives, \$2,300 a year; also senior, \$2,600 a year; associate, \$2,000 a year; assistant, \$1,800 a year; and junior, \$1,620 a year.

### Last Lap

Hazel Baker (lower) and Marie Cubitt ride down the home stretch of the fair on Treasure Island on a hobby horse. Why shouldn't they? The fair has been their hobby ever since May 25, and it will be until September 29, when their show also closes.

**Dear Miss KITCHEN:**

1. What is the art of making colorful desserts?
2. Would you tell me the difference between pimento and pimento?
3. I should like to know the rule for broiling chicken at low temperature?

By Kitty Kitchen

1. Good molds, care in choosing foods of harmonious color and artistic garnish give desserts eye appeal. Practice makes perfect!

2. Pimento is the Spanish sweet pepper; pimento is the allspice. Both are widely used in cookery.

3. Place chicken halves on broiler rack 3 to 5 inches from a medium flame. A broiled chicken should be well done and turned occasionally. If your gas range broiler uses the oven burner, set heat control at 300-400 degrees.

### The Review

By C. E. Johnston

Dean, Schools of Business International Correspondence Schools

THE youth who for the past several years has been eagerly awaiting an opportunity to get ahead on the job should take a self-inventory now. The state of affairs which has developed recently in the United States as the result of the war in Europe means that more and more highly trained people will be needed by business and industry. There will be no great number of new types of jobs, but there will be an increased demand for skilled and trained persons.

Of course, it is not possible for the youth to acquire great skill and technical training overnight, but he can begin a program of study and self-improvement which will make him a decided factor in the nation's plan of preparedness and self-defense. With the steadily increasing tempo of business, jobs will appear and he who has the necessary training and background will be given the first call.

Our great factories and plants are beginning to hum with activity and thousands of men who have been "marking time" until they could get back to a regular job, are returning to work. Some of these men, many, in fact, have gone into other fields of work. There will be a certain number of vacancies at the bottom of the scale, but the great demand will be for men with special training. Here is the chance that the young man with ambition has been seeking—the chance to show what he can do with the knowledge he has been acquiring. Much depends upon these young men in this hour of concern—our American way of life.

Employment is in the Ordnance Department of the War Department. Applicants must have had at least 18 semester hours study in organic chemistry in a recognized college or university. Additional experience may be substituted for part of this requirement. For all grades except junior inspector applicants must have had experience in analytical work in a chemical laboratory, or inspection of powder and explosives. Applicants must not have passed their fifty-fifth birthday.

Inspector, ship construction, also senior inspector, \$2000 and \$2600 a year respectively. Optional branches are mechanical hulls and electrical. Inspector, engineering materials, also senior inspector, \$2000 and \$2600 a year respectively. Optional branches are hulls, mechanical-electrical, and radio. Junior inspector, engineering materials \$1620 a year. Employment in these positions is in the Navy Department for duty in the fields wherever assigned. Applicants must have had inspectional experience appropriate for the grade and optional branch. For the junior grade applicants must not have passed their thirty-fifth birthday; for the other grades they must not have passed their fifty-fifth birthday.

Full information as to the requirements for the examinations and application forms, may be obtained from the Secretary of the Board of U. S. Civil Service Examiners at the post-office or customs-house in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D. C.

Niederlander vs. Niederlander  
**SUMMONS**  
IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR WASHINGTON COUNTY Dorothy E. Niederlander, Plaintiff, vs. Fred Niederlander, Defendant.

To Fred Niederlander, the above named defendant:

In the Name of the State of Oregon; You are hereby required to appear and answer the complaint filed against you in the above entitled court and suit on or before the last day of the time prescribed in the order for publication of this summons to-wit: on or before the expiration of four weeks next from and after the date of first publication of this summons, the first publication thereof being on August 16, 1940, and if you fail to appear and answer for want thereof the plaintiff will apply to the Court for the relief demanded in her complaint, to-wit: that the marriage contract now existing between plaintiff and defendant be dissolved and that plaintiff be granted a decree of divorce herein; that plaintiff may resume her former name of Dorothy E. Brown, and that she have such other and further relief as to the Court may appear equitable.

This summons is served upon you by publication by order of Honorable R. Frank Peters, Judge of the above entitled court, which order was made

and dated at Hillsboro, Oregon, August 13, 1940.  
Date of first publication August 16, 1940.  
Date of last publication September 13, 1940.  
M. B. Bump, Attorney for the Plaintiff, Residence and Address Hillsboro, Oregon.

### YOUR MINUTE ON THE WAY

Following is a line that comes in handy with the hitch-hikers who get a ride if they look to be about college or high school age. This familiar line **Seven die every minute and your minute is on the way** When it comes will you go out to meet Christ as Saviour or will it be to meet your sins and Christ as Judge? And how do the riders take it as we pick them up along the way and open the question? For one thing, at the very beginning the line gets us on common ground. We humans travel together so long as we can agree and it is good salesmanship to get your man to stand with you at the beginning. So here is the point of agreement; men do die every minute and our minute is on the way. We all stand together on this. **It is appointed unto men once to die says Hebrews 9:27.**

#### When Earth Fades Out

The rest is simple. This good America of ours is full of people who honestly believe that at death they go out to meet Christ as Saviour or else go out to meet their sins and Christ as Judge. Their minute, and your minute also, is on the way. We vision the end with life gone, earth faded out, eternity come.

There you stand, with the chapter closed. The joys, the trials, the life job, the neighbors, the home folks, left behind. Eternity is here. Is it bright and glorious with the **LOVER OF YOUR SOUL** waiting there to give you welcome, or must you meet your sins and Christ as Judge?

#### Two Resurrections

Just for a moment most folks are willing to be thoughtful as to what is yet in store. Then hear Christ—"The hour is coming in which all that are in the graves shall come forth. They that have done good—believed in Him as Saviour—unto the resurrection of life; They that have done evil to the resurrection of condemnation."—**BIBLE.** First the saved are to be raised. Afterward the lost dead. Christ has been appointed as Judge. God hath appointed a day in which he will judge mankind in righteousness. Judged by whom? By that MAN whom he hath ordained. Are you sure of this? God hath given assurance in that he hath raised Him from the dead. For one thing then Christ was raised from the Tomb to judge mankind. But there is no condemnation for them that are in Christ Jesus.

*Frank Taylor*  
Beaverton, Ore. Paid Ad.

## Fair Nears the "End of the Trail"

The end of Treasure Island as the picturesque setting of the Golden Gate International Exposition's near for the fair.

## Clubwoman: Wageman: Homewoman—

**SHE'S THE SAME PERSON**, when she goes to a store.

At her club meeting, it's kind of fun to hear some radical lecturer "prove" that most manufacturers are slickers, most store chesese is chalk, and most advertising is ballyhoo.

But watch the clubwoman when she starts buying. She wants her money's worth and she gets it. How? By first consulting the advertisements. Then by choosing the products she knows—the trade-marked, nationally advertised products that have been on the market for years.

Those trade-marked, advertised articles are the **ARISTOCRATS** among all the things she buys—or that any of us can buy.
