AMERICANISM

"Americanism" is unfailing love of country; loyalty to its institutions and ideals; eagerness to defend it against all enemies; undivided allegiance to the flag; and a desire to secure the blessings of liberty to ourselves and our posterity."

HOW ABOUT PAYING

As the armament program swings into gear, the biggest question facing this country is, "Where are we going to get the money?"

The expenditures which have lately been authorized or considered dwarf anything in our history. Close to \$15,000,000,000 has been voted for national defence purposes, and the best estimates indicate that the total figure will touch \$25,000,000,000. And even that marks only the beginning. The vastly expanded army, navy and air forces must be maintained, and the cost of that alone will probably come to about \$7,000,000,000 a year.

So far, Congress has almost completely side-stepped the financing problem. It has extended the \$45,000,000,000 debt limit by authorizing the issuance of \$4,000,000,000 of national defence bonds—a step which will provide no permanent solution whatsoever. It has passed new tax measures which will produce about \$1,000,000,000 a year in new revenue. And it is now considering an Excess Profits Tax which will raise in the neighborhood of \$200,000,000 a year if passed. All of that is simply a drop in the bucket. And, as hard statistics prove, it is impossible at this time to raise enough money by taxes to pay for current expenditures. For, if you took every dollar of net income made in this country, on the basis of 1938 figures, the total would be only \$16,000,000,000.

What, then is the answer? It is two-fold. First, it is no longer excusable for this country to spend \$8,000,000,000 a year for regular government activities,

The SNAPSHOT GUILD TAKE UNUSUAL PICTURES

Can you identify this subject? The answer is below—with other ideas for novel and amusing pictures you can take.

WHEN you run out of ideas for the usual type of pictures—try your hand at unusual pictures. Look out for novel angle shots, and opportunities for "puzzle pictures." This is fun—and such shots will add novelty to your snapshot album.

There are all sorts of unusual things worth trying. For example, odd lighting effects when you are taking night snapshots. Instead of having your photo bulbs at eye level, put them on the floor for a few shots, so that they shine up toward your subjects, and cast long shadows on the wall. It's a stunt that yields surprising effects.

Try shots at unusual angles. Take a picture from an upstairs window, with a subject directly below you looking straight upward. Try a steep up-angle shot of a tall building. Shoot straight down a stairway well. The picture above is a shot of a deep circular staircase, taken with the camera pointed almost straight

down. You'll agree it makes a novel effect.

For another stunt, try tricks with perspective. Take a shot of a subject sitting down, with his feet extended toward the camera. If the feet are fairly close to the lens, they will show up absurdly large in the picture. For shots such as this, use the smallest lens opening on your camera, as you need extra "depth of field." It won't matter if the nearest objects are slightly out of focus, but they shouldn't be too "fuzzy."

Try some double-exposure tricks. For example, a close-up shot of a newspaper page—and then a close-up of a person on the same film. Use a dark background for the shot of the person. You can produce some unusual "combination" effects in this manner.

Try all these stunts—and keep your eyes open for other novel picture chances. They'll give added spice to your camera hobby.

John van Guilder

along with the other billions required for defence. Many political projects and departments must be cut or eliminated. Our program of waste must be changed to a program of thrift, individually and nationally.

Second, the national income must be increased in order that we may retire our debt, just as we paid off most of the World War debt between 1920 and 1930.

That means that we have to get rid of artificial, punitive restrictions on business—so that business may go to work and put the unemployed to work. A national income of \$90,000,000,000 or 100,000,000,000 must be attained if we are to provide for today's gigantic expenditures without destroying our standard of living.

We can't dodge the issue and pass the buck much longer. We can't make this country secure until we have a fixed, long view fiscal policy and a definite plan for paying bills.

Will Continue Pea Purchases

Continuation of the purchase program for Austrian peas and hairy vetch and the inclusion of Willamette vetch for 1941 was officially announced late last week by the Oregon AAA office. Peas will be purchased for 3 cents a pound, hairy vetch for 7½ cents per pound, and certified Willamette vetch for 4½ cents per pound.

This price schedule for peas and hairy vetch is of course based upon a 98 per cent purity and 90 per cent germination basis. In the 1940 Austrian field pea seed crop in this county there was a considerable sprinkling of common vetch in a large number of lots of seed. Growers who are continuing to grow Austrian field peas should exercise some care in the kind of seed they sow. If peas containing some common vetch are planted, the percentage of common vetch in the crop to be harvested the next season will, almost certainly be greater than the percentage of vetch in the peas that were seeded. This vetch seed lowers the price of the crop and it becomes increasingly more difficult to grow a clean pea seed crop.

Some growers have indicated an intention to increase their

acreage of peas for the 1941 harvest. In announcing this program for 1941 the AAA has reserved the right to purchase in 1941 Austrian field pea seed from a grower from an acreage no larger than his acreage harvested in 1940. They have not definitely stated that seed would be purchased from an acreage no larger than that in 1940 but they reserve the right to purchase from an acreage no larger. Any grower is privileged to plant any acreage he cares to plant but if this reservation is carried out then the new grower or the grower who has increased his acreage would need to depend upon some market other than the AAA to which to sell that part of his crop from the increased acreage. The Oregon AAA committee is attempting to have this part of the 1941 provisions definitely determined and announced immediately. Unless soon it would appear that growers who increase their pea acreage for 1941 should be prepared to expect to sell the crop from the increased acreage outside the AAA program. In thinking of this part of the program, growers should remember that the southern farmer prefers to some explanation of this is made seed hairy or Willamette vetch for cover crops. There probably will be a demand for Austrian peas in the south for a long time. However, when the supply of the vetches become considerably greater, the demand for peas can be expected to be less.

There are no restrictions in the 1941 purchase program on the quantity of hairy vetch or Willamette vetch to be purchased. These will be purchased from any grower whose farm is listed on the program and who is in complete compliance for 1941. The Willamette vetch of course will need to be certified to bring the 4½ cent price. The growers will pay for certification which is not an expensive item.

Seeding peas after October 15 appears to be a desirable practice for seedings this fall as well as in recent years. Evidence

points to the advisability of these later seedings to decrease the seriousness of aphid infestation. Seasonal conditions might sometimes upset that, but over a long period of years, the studies of L. P. Rockwood, entomologist at Forest Grove, definitely establishes the fact that vetch or peas that are above ground when we have temperatures of 55 or 60 degrees are much more likely to be seriously aphid infested the following spring than are seedings that are not up when we have these kind of temperatures. Delaying seeding until very late is not always advisable when there is considerable seeding to be done. If seeding operations are delayed too long it may be impossible to get them completed before the prolonged rainy season begins.

CHURCH ANNOUNCEMENTS

THE METHODIST CHURCH
Earl B. Horsell, Minister
Sunday school, 9:45 a.m. Superintendent, Chas. H. Rosema
Morning worship 11:00 a.m.
Subject of the sermon will be: "The Heart of the Church".
Evening Worship 7:30 P. M.
Review will continue of "Methodism Can Be Born Again" by Sannerster and a study of "Paul's Secret of Power".

ST. CECILIA'S CHURCH
Rev. George O'Keefe, Pastor
Mass, 8:00 a.m. and 10:00 a.m.

Bethel Congregational Church
Willard B. Hall, Minister.
9:45 A. M. Church School. E. G. Webb, Superintendent. An interesting class for every age group.
11:00 A. M. Morning Worship. The sermon subject will be "The Kingdom of God".
7:00 P. M. Christian Endeavor
8:00 p. m. The Church has the privilege of being host to the Hi-Y and Girl Reserves as they begin their new year's work. The speaker will be Jim Palmer of the Portland Y.M.C.A. Following Mr. Palmer's address the

ladies of the church will serve refreshments during the fellowship hour.

CHURCH OF THE NAZARENE
W. P. Keebaugh, Pastor.
Sunday school at 9:45.
Morning worship at 11:00.
Young Peoples' Service, 7:00 p.m.
Evangelistic services at 7:45

CHURCH OF CHRIST
E. E. Coulter, Minister.
Morning worship, 9:45 a.m.
The subject of the sermon is "Thy Kingdom Come"
Bible study at 11:00
Evening service at 8 o'clock
Subject of the sermon will be "The Judgement of God".

BETHANY BAPTIST CHURCH
Rev. John C. Schweitzer, Minister
9:45 a. m.—Sunday school with classes for all ages. John Croenl, superintendent.
11:00 a. m.—Worship service. Choir directed by Carl Eggman.
7:45 p. m.—Evening service.

ALOHA ASSEMBLY OF GOD
Church on Wheeler and Alexander Streets.
Sunday School 9:45 A. M.
Young People 6:30 P. M.
Morning Worship 11:00 A. M.
Evangelistic 7:45 P. M.
Tune in on KWJJ each Sunday from 5:00 to 5:30 p. m. to the Assembly of God Broadcast.
F. J. Huntley
Pastor

SEVENTH DAY ADVENTIST
The Huber-Aloha Seventh Day Adventist meets every Saturday morning at 9:45 at the Huber Commercial hall. Sabbath school meets at 9:45; church service at 11:00.
Leader, T. G. Edgington.
Superintendent, Mrs. F. E. Tuttle.

ALOHA COMMUNITY BAPTIST
Rev. B. Marcus Godwin, Pastor
Bible school 10:00; morning worship, 11; young people's meeting, 6:45; evening worship, 7:45; teacher training class and prayer meeting, Wednesday, 8:00

Fine Printing - -

"Do your Christmas shopping early" is good advice—if you must shop. But most of us do more shopping than is necessary. You can make Christmas or any other giving easier and pleasanter by remembering that everyone writes letters, and that fine writing paper, therefore, always makes a practical and useful gift. Properly packaged it makes an attractive and impressive gift.
