

LOCAL APPENINGS

Earl Blackstone and James Walters are on a hunting trip.

Dr. B. T. Jordan of Portland is in charge of the pharmacy department at Dean's.

Herman Schlottman is among those who are shouldering their guns to pursue the nimble deer.

Mrs. Josephine Pienovi of Portland is spending a few weeks with her son Michele Pienovi.

Robert Johnston along with Veldon Boge and his brother are hunting in the region around Klamath Falls. They left Thursday.

Mrs. J. C. O'Connor spent several days this week at the home of her daughter Mrs. John M. Simpson and family in Portland.

Members of the Friendly Circle and several guests were entertained by Mrs. D. Long at her home on Watson Street on Friday afternoon of last week.

Hugh Lewis, Henry Nelson, A. E. Hanson and Benny McCua accompanied by a carload from Hillsboro left Wednesday evening for the John Day country to hunt.

The Beaverton Book Club will hold its first meeting of the Fall and Winter season on Thursday, October 10, at 11:00 A. M. in the Kiwanis Hall. An interesting book is being prepared for review.

Louis Bamer of La Portone reports that he went fishing over the week end at Waldorf. He says that the fishing was good but that he left the fish to grow up and will go back later when they get bigger.

The Bible school at the Christian church is making a splendid growth as Rally Day approaches. The goal for Rally Day (October 6) is 250 in attendance. Last Sunday the attendance was 137. Two weeks ago it reached 150.

James Heinlein and Don Mullins are in charge of the Studio barber shop this week. Frank Moore has gone hunting down in the Lakeview country and his brother who has been in the shop with him some time has joined the National Guard and reported for duty Monday.

HOME OWNERS FORUM

By ABNER GORDON

CONCRETE failures can be avoided by following a few basic rules in mixing and laying which eliminate the causes for dusting, flaking and cracking. Concrete mixed with clay, loam or other so-called impurities, or prepared with sand in excess proportion to the cement, will inevitably fail to give lasting, satisfactory service. The ingredients must be stirred thoroughly and the mixture poured before setting begins. Pour concrete only during periods when moderate to warm temperatures may be expected. Freezing of soft mixture will result in imperfect setting. Do not allow concrete to dry out before chemical action of setting has occurred. When dusting or chipping results, treat surface with a hardening fluid prepared by dissolving three pounds of zinc sulfate crystals in one gallon of water. Saturate entire area with the solution and allow to dry thoroughly. Under all but exceptional conditions, this treatment will check dusting making further correction unnecessary. Liquid wax is also useful in checking surface failures. Work the wax in well, allow to dry, then rub firmly. If dusting or chipping continues, ascertain by hard brushing or picking if failure is more than surface deep. If so, no hardener will suffice. Entire wall or floor must be replaced to correct trouble. QUES. Can paint mixed on the job from paste pigment and linseed oil be used effectively in a spraying machine? ANS. Red and white lead paints mixed on the job from the paste pigments are widely used for spray application. Prepare the paint according to standard volume formulas for the surface in question, then add additional turpentine until paint sprays freely. Generally one extra quart of turpentine per gallon will suffice.

Real Estate Transfers

United States National Bank to Dean W. Ridley et ux, lot 2

block 1, Multnomah Country Club J. W. Moomaw et ux to H. A. Hartshorn et ux, lot 19, 11st Add. to Benz Park.

Vera Houghton et vir to Olen W. Wolf et ux, lot 63 in North Tigardville.

Henry H. Gerlach et ux to Beretta Leonard, N½ of lot 2 in Bonita Gardens.

WELSH RETURNS FROM TRIP TO BEND

Dr. R. S. Welsh returned from a trip to the Bend country Wednesday night. He reports that he left here to get away from the dampness but that he found much more of it on the other side of the Cascades. He did not see the sun during his entire trip. The woods are full of hunters in that section, he goes on to say, but he didn't stop to take a census of the deer.

BEST FISH STORY OF THE WEEK

The palm for the best fish story this week goes to Russell Grant who returned from a fishing trip to Duncan, Canada, Wednesday. He went fishing for salmon.

His story is that there were fish by the score being washed up on the banks of the river but that there were no live ones to bite. There had been several violent electrical storms and the natives report that the fish washed up were probably stunned by the thunder and were very edible.

We did not learn what stream he was fishing.

APPLICATIONS IN FOR INSURANCE

Crop insurance applications written for the 1941 wheat crop have shown a definite increase in number over those for the corresponding period for the 1940 crop. A total of 22 policies was written on the crop harvested in 1940. August 31, 1940, the final date for applying for Crop Insurance on the 1941 crop, showed a total of 300 policies written by Washington County wheat growers.

To date indemnities have been paid on ten of the 22 policies written on the 1940 wheat crop. The total of the indemnity paid to the insured farmers showing a loss in 1940 is 1887 bushels. The total insured production covered by these 22 policies was 9,290 bushels at a cost of 692 bushels or \$509.11 cash equivalent on the day the policies were written.

1941 Crop Insurance applicants will be notified when their respective policies are in force. Wheat growers who have applied for Crop Insurance are cautioned to sow wheat on the tracts where applications have been written, otherwise the crop will not be insured.

This type of insurance is similar in purpose to other kinds utilized by Washington county farmers. Operators who have insured their 1941 wheat crops are expected to sow their crop in the same manner as they would without benefit of insurance. In other words, a farmer who applies for this insurance for the sole purpose of collecting an indemnity will be disappointed, due to the fact that his costs for proceeding in this manner will not vary a great amount from the costs of growing a crop in excess of his normal yield.

Losses covered by this insurance include practically every kind of loss but the neglect of the insured. If a total loss exists due to a freezeout the operator insured is in position to seed another kind of crop and still receive his indemnity.

LABOR DAY TRIPS BRING 3 DEATHS

Labor Day week-end traffic fatalities in Oregon this year totaled three, a reduction of 62 percent from the toll of eight reported for the same period last year, reports reaching the secretary of state's office revealed it has been announced.

The traffic toll was the lowest reported over a Labor Day week-end in this state for several years. The reduction was made in the face of travel increases estimated to be at least seven percent.

During the past three years, an average of five persons has been killed per Labor Day week-

end in Oregon, Snell said. He congratulated Oregon drivers on reducing this toll this year.

"Oregon will stand well up in the list of states effecting a reduction in the Labor Day highway toll this year," Snell predicted. Fatalities over the nation as a whole showed an increase this year, and the fact that Oregon showed such a great reduction should place this state high among those states showing improvement, he said.

LOCAL GRANGE HAS GOOD ATTENDANCE

Beaverton Grange met Saturday of last week with an unusually fine attendance, guests from Oswego, Sherwood and the neighboring state of Washington

being present. During the luncheon hour birthdays of four members were featured. Mrs. B. K. Denney, chairman of the Agricultural Committee had charge of the afternoon program and the roll call, "I prefer to live in the country — or city" was responded to by those present, with an overwhelming majority choice for country life. Miss Jean Hanson and Miss Lois Keebaugh gave interesting reports on their attendance at the 4-H club summer school in Corvallis last June. On Monday evening Sept. 30, the Grange will hold a booster meeting to which members and friends are cordially invited. The next regular meeting will be Saturday October 12.

4-H Club Activities always a Headliner at Pacific International Livestock Exposition

PORTLAND
OCTOBER
5 to 12

Pictured above is Senator McNary, Republican nominee for Vice President, an enthusiastic supporter of 4-H Club work with "Bobby" King of Moro, Oregon, and his Grand Champion 4-H Club Hereford Steer.

The old saying is, that "Records are made to be broken", but the record held by the State of Oregon 4-H Clubs for number of completions of training in proportion to enrollments will probably stand for many years to come.

With a total of 2,909 clubs in Oregon, it is little wonder that the enrollment is proportionately large. Present figures show an enrollment of 9,992 boys and 12,879 girls, or a combined total of 22,871, of which there were 20,152 completions, or boys and girls who continued through the full time of training—an outstanding record of 88.11 per cent. Other northwest states are not far behind in percentage, but their enrollment is not so large as Oregon's.

In addition to 4-H Clubs of Oregon, five other Western states are sending teams to the Pacific International Livestock Exposition in Portland, October 5 to 12 to compete in demonstrations of their various projects. An American Flag, made of silk, is awarded annually

to the winning team. Mr. O. M. Plummer, general manager of the Exposition, stated recently during an interview, "There is no limit to the value of 4-H Club work to the present and future of the Agricultural Industry of this Country, and as in past years the demonstrations by 4-H Club members will hold the spotlight during this year's Exposition.

Other Exhibits will include Dairy and Beef Cattle, Horses, Sheep, Hogs, Poultry, Pet Stock, Dogs, Land Products, and Industrial Exhibits.

Of special interest will be an Exhibit by the United States War Department.

For entertainment, Mr. T. B. Wilcox, Jr., president of the Exposition, states that he has succeeded in obtaining Victor McLaglen, well-known movie star and his famous Light Horse Troop, also a group of outstanding Mexican Charrros (cowboys of Mexico), from Mexico City, in addition to the usual brilliant Horse Show and thrilling Rodeo.
