The Beaverton Kiwanis held their regular meeting at the Bethel Congregational church dinner, Wednesday, December 4. At the dinner Mrs. Stratton received a beautiful gift in honor of her year's service as head of the Kiwanis Ladies Auxiliary.

It was announced that next Wednesday, December 11 each Kiwanian would take a football player of the Beaverton high school team as his guest. Bill Grauer said that in hunting for a treat for the men's dinner of December 18, he discovered that his trusty aids Leonard Adams and Bob Burnside had found an excellent meat animal that lived in trees. Bill said he suggested squirrel but they told him he was wrong. It was porcupine. We wonder.

The guests of the evening were Miss Marian Metzler of Beaverton and George Angel, past president of Portland Kiwanis.

T.B. TESTS TO BE GIVEN AT SCHOOL

The tuberculosis test made possible each year through the sale of Christmas seals will be given at the high school Wednesday of next week. As a result of the request blanks distributed last week, there are approximately 150 tests that will be given at the request of parents.

If a child has had a tuberculosis test before with a positive reaction (red spot on the arm) it is unnecessary to again take the test. If the test has been taken with a negative reaction (no red spot on the arm) it is quite important that the test be given from time to time to determine whether or not the child has contacted the disease.

Any adult in the community will be given the test free of charge, if they care to take it, at the high school building on Wednesday morning, December 11 at 9:30 a.m.

Applications for renewal of Chauffeurs' licenses are now being received at the Secretary of State's office, it was announced today. Current chauffeurs licenses expire December 31, after which 1941 licenses will be required.

No renewal notices are sent out, but holders of current permits may fill out the form on the reverse side of their license card and send it to Salem along with the renewal fee of \$1. Persons who do not hold current licenses are required to take the State examination for chauffeurs before being issued their 1941 cards.

Approximately 27,000 drivers new hold chauffeurs' cards in Oregon and in order to facilitate the handling of renewals, drivers are urged to file their applications in the near future.

Oregon's green and white license plates are now out from the Secretary of State's office, it was announced today. Those who send applications in by mail of those who make their applications at the capitol building in Salem or at either of the two branch offices in Portland, are receiving the new plates.

The 1941 plates may not be placed on cars before December 15, Earl Snell, the Secretary of State, warned.

Applications now coming in are being acted on at once, but it will be impossible to give later applications such prompt attention, due to the greater number received during the peak period, Snell pointed out. Automobile owners also were reminded that the mail congestion during the Christmas rush period would slow up delivery of plates for late applications.

Despite an eight per cent increase in travel in Oregon during the first ten months of this year, the traffic death rate as expressed in the number of persons killed per 100,000,000 miles of travel, was slightly under the rate for the first ten months of 1939, it was announced today at the office of the Traffic Safety Department of the State Department.

The death rate for the first ten months of 1940 was 11.1 persons killed per 100,000,000 miles of travel, compared to 11.13 last year.

Travel in Oregon up to November 1 of this year totalled 2,519,344,711 miles, compared to 2,327,086,275 for the corresponding period a year ago. Gasoline consumption so far this year amounted to 220,222,439 gallons, an increase of 16,794,399 over the consumption for the same period last year.

HAZELDALE MAN TAKEN TO HOSPITAL

Max Berger, prominent farmer of the Hazeldale district, was taken to the St. Vincent's hospital at Portland Sunday for treatment of gunshot wounds in his head. Hospital attendants Tuesday reported that the bullet had not yet been removed and that Berger's condition was serious but not critical.

Mrs. Berger found her husband slumped on the garage floor, a rifle at his side, about 11 a.m. Sunday when she ran to investigate two gun reports. With the help of neighbors, she carried him to the house and summoned a physician, who stated that one bullet had grazed the skull, making only a flesh wound. The other was lodged in the front lobe of the brain.

Rushed to the St. Vincent's hospital, Berger was found to have a fractured skull. Friends in the Hazeldale district report that he has been in poor health lately.
