

LA FOND'S LEAVE FOR MONTANA

David La Fond of Malta, Montana, who has been a patient at the Shrine hospital in Portland left for his home Monday with his aunt and uncle, Mr. and Mrs. EUGENE La Fond. Little David is the son of David La Fond who lives in Montana and is a grand son of Adolph La Fond who lives on Watson St. Mr. and Mrs. Eugene La Fond spent the holidays here with his parents, Mr. and Mrs. A. La Fond.

NEW WAREHOUSE BEING BUILT HERE

Construction is under way on a new city warehouse on Front and Tucker streets. It will be 50 x 76 feet in size and is to be used to house town machinery and materials. Labor is being furnished by the W.P.A. and materials will be supplied by the town to the value of approximately \$1500. The building will be ready for service in about two months.

Construction will be of sheet metal with ceilings ten feet up from the floor.

DR. MASON NOW IN HIS NEW OFFICE

The new office building at the corner of First and Watson streets was completed this week and Dr. C. E. Mason, the owner moved into his new offices. He will be associated there with his two sons, Drs. David and Herbert Mason.

The building is modernistic in design and glass brick are used in a part of the wall. The very latest type of medical equipment is installed and the structure is one of which the whole community may well be proud.

BIG TURKEY AND TRIMMINGS ENJOYED

New Year's Day dinner guests at the home of Mr. and Mrs. Chas. Thompson at Kinton included Mr. and Mrs. L. L. Myers and Bobbie and Mary and Mrs. Myers's mother, Mrs. Florence Johnson; Mr. and Mrs. Carl Rogers, Mr. and Mrs. Virgil Myers and son, Virgil, Jr.; Mr. and Mrs. Robert Johnston and son, Howard; and Miss Evelyn

PRUNING MEETINGS BEING SCHEDULED

Pruning peach trees will be demonstrated; spraying, controlling root borers and other orchard practices will be discussed at two field meetings in Washington county next Tuesday, the 14th of January, according to W. F. Cyrus, county agent.

At 9:30 a.m. the meeting will be at Roy Bierly farm near the Kinton school, five miles southwest of Beaverton on the Scholls-Ferry road. At 1:30 p.m. of the same day the meeting will be held at the John Huisman farm south of Cornelius.

DIMM TALKS TO GARDEN CLUB

Mr. Walter Dimm of Portland will be the guest speaker at the Huber Garden club next meeting, which will be held at 8:00 p.m. Tuesday, January 14 in Huber hall. Mr. Dimm has travelled over much of the World's surface and has taken many pictures in color of different flowers and plant life. While his pictures will not be available at this meeting, his talk is most interesting and well worth hearing.

Mrs. Richard Ferriss is in charge of the refreshments to be served at the close of the meeting. You are invited.

REBEKAH LODGE INSTALLS OFFICERS

At their meeting Tuesday evening of this week the following officers were installed in the Rebekah Lodge:

Noble Grand, Esther Troupe; Vice Grand, Lois Doyle; Right Support to Noble Grand, Mildred Osfield; Left Support to Noble Grand, Lena Buffum; Right Support to Vice Grand, Edna Sheets; Left Support to Vice Grand, Lily Warner; Warden, Mary Caveness; Conductor, Sarah Ross; Secretary, Sarah Walker; Treasurer, Myrtle Hardman; Inside Guardian, May Neycomer; Outside Guardian, Thelma Newcomer; Musician, Fern Haines.

Myrtle Hardman was District Deputy President and installing officer ably assisted by Thorborg; Benson District Deputy Marshall

Johnson.

A 26-lb. turkey with all the trimmings, was enjoyed by all.

Mrs. John Dobbins, Mrs. S. B. Lawrence, Mrs. M. Ce McKercher and Mrs. Nelson Walker were luncheon guests of Mrs. Samuel Cooke at her home in Burlingame last week, Friday.

America's "Miracle" Fruit

By BETTY BARCLAY

If there is a miracle fruit, the lemon is it.

The tall tales told by early travelers of bathers in pools in Ceylon where divers anointed themselves with lemon juice to protect them from leeches in which the waters abounded have nothing on the discoveries about lemons being made today in scientific laboratories.

The list of ailments for which lemons are a prescription is long. Physicians prescribe lemon juice for gout, rheumatism, arthritis, wound healing; to combat tooth decay and gum infections; to counteract such infections as pneumonia and tuberculosis. Their value in protection from common ailments with often far-reaching complications — colds and constipation — is known to thousands of persons who hope never to be afflicted with anything more serious.

Many people who have been in the habit of taking laxatives have found that regular, daily use of lemon juice, soda and water, — or lemon juice and water without the soda — accomplishes the same objective. They find it gentle, yet effective.

For years hot lemonade has been prescribed for colds — that common ailment which is indeed a "misery." The trend today is toward taking the lemonade in whatever preferred form as a cold preventive, on the theory that a

cold will not materialize as often when lemon juice is a daily habit. When a cold does overtake one, despite such precautions, doctors still prescribe a stiff dose of hot lemonade, to be followed by rest in bed.

Besides aiding elimination, lemons are the only known source of vitamin P (citrin), an excellent source of normal alkalinity. This vitamin is only recently discovered, has to do with controlling "capillary fragility," or skin and other hemorrhages which frequently accompany scurvy. The lemon established its most widely known claim to fame as a specific against scurvy in the Middle Ages, especially among sailors on long voyages. The cure for scurvy, lemon juice, was known long before the cause of the disease, which manifests itself by "Gums eaten away and Teeth ready to drop out, Pains and Aches all over their Bodies." Seldom encountered today in violent form, scurvy is still frequently found in so-called "border-line" cases.

Most of the lemons used in this country and Canada today are grown in California. Active support for scientific research into the health values of lemons has been contributed by California lemon growers through their cooperative Exchange. Such research, conducted at established universities and other educational centers, has shown that wounds heal more rapidly when large amounts of citrus fruit juices are taken; that there is a definite need for more vitamin C during fevers and in the presence of tubercular infection.

Draft-Age Group Offers Services In National Defense Plans

Secretary of the Navy Frank Knox with Mark S. Matthews, President of the United States Junior Chamber of Commerce, during their conference to determine ways and means of tying in Junior Chamber activities with the National Defense Program.

United States Junior Chamber of Commerce to Gear Organization and Activities to Nation's Needs

NEW YORK, N. Y.—In line with recent conferences with Secretary of the Navy Frank Knox, and other Government officials, Mark S. Matthews, President of the United States Junior Chamber of Commerce has announced plans of his Board of Directors to gear the activities of the organization into the needs of national defense and preparedness. The United States Junior Chamber of Commerce, which was one of the first organizations to urge compulsory military training, is probably the only national group in the country having the same age limits as the Selective Service Proclamation now in operation. Every one of the 150,000 young men who are members of its 1,000 affiliated Junior Chambers of Commerce throughout the country are from twenty-one to thirty-five.

Three-Point Program

A three-point program has been set up at the United States Junior Chamber of Commerce headquarters in Chicago and will entail: 1, The

dissemination of information through local organizations to all men of draft age and relating to all matters on compulsory military service; 2, The training of aviators through establishment of Flying Cadet recruiting programs, Junior Chamber of Commerce flying clubs, and CAA courses under JCC sponsorship; and, 3, Establishment of local schools and courses for the training of skilled workers essential to the national defense program, mechanics, welders, machinists, etc.

Knox Commends

Commenting on the program during their conference, Secretary Knox said to Mr. Matthews, "Your far-sighted interest is obvious in your early demand for compulsory military training. I congratulate you on your stand here today and ask that you assure your Board of Directors of the gratitude of the United States Navy." Though the membership of the Junior Chamber of Commerce falls 190% within the age limits of Selective Service, Mr. Matthews pointed out that they do not look upon themselves as a special group having any special privilege. The whole purpose of the United States Junior Chamber of Commerce is now, and will in the future be, to serve and not to ask.

Lift Up THINE Eyes

IN the five generations since 1740, we Americans have performed the heroic task of clearing, populating, farming, industrializing and civilizing a country larger than England, France, Germany, Spain and Italy put together.

Because we have looked always forward and upward, and have worked hard, we have achieved the highest standard of living in the world.

One of the most potent of all the forces that have created this living standard is advertising, which inspires us to want always the new and better things and ways of life.

Of late years it has been the fashion among our radical reformers to attack advertising as an economic waste.

How silly, in view of the magnificent service it has rendered us! Let's encourage it and use it for an ever brighter future.

They Cheated Nazi Bombs

These English refugee children escaped death twice at the hands of Nazis before reaching haven in New York, where they could have their tea and read in peace without scrambling for bomb shelters.

Those shown above, ranging in age from four to fifteen, are among the group quartered temporarily at the Seamen's Church Institute of New York by Marshall Field's U. S. Committee for the Care of European Children.

Inset shows Richard Booth, 4, at tea. Below, left to right, are John Wright, Alan Cheshire, John Fein and Adam Hutchinson in a corner of the library. All are from the London and suburban area.

They are part of the last contingent of 108 child evacuees removed from Britain more than three weeks ago. While waiting to be claimed by foster parents, who will keep them for the duration of the war, they found the first peace

and quiet they had known since death began falling from the sky over England.

At the Institute, daily schedules of sightseeing trips and games keep their minds from dwelling too long on loved ones "holding the fort" at home. And best of all, between 3 and 4 o'clock they can have their daily pickup of tea after play without having to keep a weather ear open for air-raid sirens.

During their journey, the train on which they traveled from London to Glasgow was bombed but not hit. Their ship, the Empress of Australia, traveled in the same convoy as the City of Benares, torpedoed recently with the loss of scores of lives.
