

LOCAL HAPPENINGS

Mrs. Robert Morse has been confined to her home with Flu.

Miss Helen Fanno was a visitor at Mrs. Boyds home Wed.

Mrs. J. T. Osfield returned to her home Friday from the Hospital.

Miss Viola Wright accompanied friends to Independence over the week-end.

Math Falls is visiting at the home of his parents, Mr. and Mrs. L. Shellenberger.

Mrs. Madge Eliander and Mrs. Myrtle Fletcher attended

the O. E. S. chapter in Hillsboro Tuesday evening.

Mrs. C. J. Stevens is in a Portland Hospital. She underwent an operation Monday, and is reported doing nicely.

The Tuesday Bridge Club met with Mrs. A. E. Hansen March 18th. Mrs. Frances Donaldson held high score.

Beaverton Garden Club meets Friday March 21st 1:30 P. M. Kiwanis Hall. Mr. Elliot will talk on birds.

The Cherrio Bridge Club met Tuesday March 18th with Mrs. L. Schellenberger to celebrate Mrs. Helen Fisher's birthday.

Beaverton Community Book Club meets Thursday March 27 at 11 A.M. at the Kiwanis Hall. The book review will be by Mrs.

Kitchen Light-Conditioning Recipe Is Simple As Pie

Shadowless Illumination Lightens Tasks in Woman's Workshop.

By Jean Prentice

AMONG the new subjects some students are taking up in high schools and colleges is home lighting.

A number of home economics and household management classes are studying the ins and outs of light conditioning. Of particular interest to them is better light in the kitchen.

Among the pointers they are getting are several illustrated in the studies shown here.

Every work area has a source of light above it. Over the sink is a wall lamp. The range and a kitchen table are visible here, also have wall lamps. Beneath the cupboards are long brackets holding luminous tubular lamps to light the work space below them.

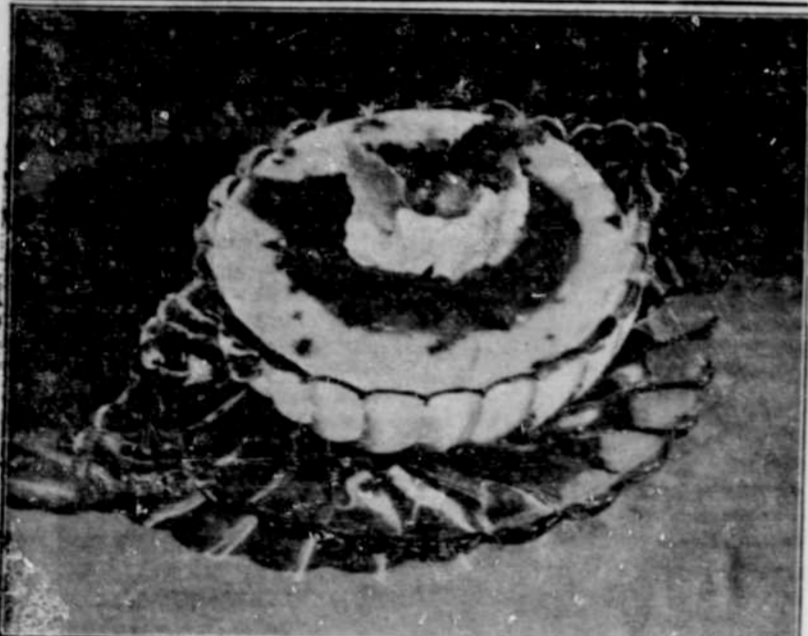

Always a glass shade, open at

the bottom, had been used at the ceiling. It did a poor job of spreading lighting through the room without contributing glare.

Now there's a cheerful diffusion of general illumination from a new indirect adaptor fixture and 150-watt silvered-bowl bulb. This fixture was screwed into the ceiling socket, like a bulb, in less time than it takes to tell.

With modern lighting such as this the homemaker is less apt to make mistakes when reading recipes. Vegetables are cleaned more quickly and thoroughly. Food is seasoned more satisfactorily since the eyes can see the salt and pepper more sharply. The room becomes a better place in which to work. It thus fits right in with the needs of the home economics student or of any homemaker... just as easy as pie.

Good All Year 'Round

Many of our most popular dishes are seasonable. We enjoy them while a certain fruit or vegetable is on the market, and then we must forget them for awhile.

You may have a recipe for a peach shortcake that is perfection itself. The actual shortcake may have brought you many words of praise from guests. But when important guests arrive, with no peaches obtainable, that particular recipe is of no use.

It's well to have a number of recipes for delicious dishes that may be prepared at any time—good all year 'round dishes. Then you are always ready to place a tested and tried dainty before your guests.

Here's a recipe for a dessert that is just as popular in January as it is in June—with one for a cherry sauce that is also an "all year 'round" possibility.

This healthful rennet-custard dessert calls for no eggs. No baking or baking is necessary. Especially for guests of any age, and is especially perfect for a party.

Grape-Nut Rennet-Custard
2 cups milk (ordinary or homogenized)
1 pkg. vanilla rennet powder
2/3 cup Grape-Nuts
Cherry sauce

Set out 4 or 5 individual dessert glasses. Warm milk slowly, stirring constantly. Test a drop on inside of wrist frequently. When COMFORTABLY WARM, (120° F.) not hot, remove at once from stove. Stir rennet powder into milk briskly until dissolved—*not over one minute*. Add Grape-Nuts and pour at once, while still liquid, into the dessert glasses. Do not move until firm—about 10 minutes. Chill in refrigerator. Serve with Cherry Sauce and garnish with whipped cream and candied citron, if desired. Serves 4 or 5.

Cherry Sauce
1/4 cup butter
2 tablespoons flour
1 cup red cherries
2 tablespoons sugar
1/2 cup water

Murry and Mrs. Vejar.

Mrs. Jay Gibson, Mrs. Helen Fisher and Mrs. Ruby Boyd were guests of Mrs. Walter Scott at the Rotary club lunch on card party and style show in Portland Monday.

Mrs. Robt. Johnston and Mrs. Louise Madden of Beaverton, Mrs. Alvin Bobbitt of Forest Grove, and Mrs. Mary Hunter, of Hillsboro all attended a No Hostess Luncheon at the home of Mr. and Mrs. M. J. McEntee of Hillsboro.

GET EXPERIENCE IN N-Y-A PROJECTS

With 200 NYA youth workers having been recently released for jobs in National defense industries in Washington and the neighboring counties, after having

qualified for such jobs through work experience on NYA projects other young men and women in this vicinity are availing themselves of getting actual job experience on projects being sponsored by the National Youth Administration, according to Jack W. Benefiel, NYA Area Director.

Some of the placements of the young men have been in the electrical, metal, woodworking, auto motive and construction fields; while young women have been placed in clerical and similar positions.

There are still opportunities for any youth between the ages of 16 and 24 to obtain valuable work experience afforded by the NYA, Benefiel said, adding that interested persons may obtain further information by getting in touch with their high school principal.

HOME OWNERS FORUM

By ABNER GORDON

ALTHOUGH window screen wire mesh is seldom painted, when decoration is desirable a very thin coating composed of 2 parts (by volume) soft paste white lead and 3 parts of an equal mixture of boiled linseed oil, spar varnish and turpentine—either used white or tinted as desired with paste colors-in-oil—will provide the most variable, durable finish.

Brush and cross brush the paint on evenly from both sides of the screen, after which tap the frame lightly to clear the wire of excess paint which otherwise might remain to clog the pores.

When the mesh is sufficiently dry for handling, paint the frame with pure white lead and oil according to the standard practice for exterior wood.

C.—Can shingle overwalling be applied to brick as well as wood siding?

A.—For restyling plus added insulation or when brick walls are causing trouble due to leakage and moisture absorption, overwall shingles are the economical solution.

First fasten vertical siding strips to the window frames and walls with nails—specially fashioned for the purpose—driven into the mortar lines between the bricks.

To these verticals, attach horizontal strips as a shingle nailing base. The latter should be installed with a center-to-center spacing equal to the proposed exposure surface of the shingles.

Overwalling on all types of wood siding is comparatively simple, as the shingles may be applied directly as to new sheathing. Here binding paper is required, installed as is the common practice on new construction.

Durable certified red cedar shingles—single or double coated—are highly recommended to produce new style lines for modernizing old buildings.

News Oddities . . . by Squier

THE EARLIEST MATTRESSES WERE SIMPLY PILES OF STRAW OR RUSHES COVERED WITH SKINS OF ANIMALS BAGGED IN THE CHASE.

QUEEN NEFERTITI
MOTHER OF CHEOPS, THE PYRAMID BUILDER, HAD A RICHLY ORNAMENTED BED WITH A GOLD FOOT-REST TO KEEP HER MATTRESS FROM SLIPPING... HER PILLOW WAS A POST TO SUPPORT HER NECK, AND NOT MISS HER HAIR-DO.

THE PATENT OFFICE CLEO!

BEDS
ALONG WITH FOOD AND DRINK, MAN'S OLDEST NECESSITY, HAVE EVOKED MUCH DECORATIVE GENIUS BUT, UNTIL MODERN TIMES, LITTLE SCIENTIFIC THOUGHT OR INVENTIVE INGENUITY.

FIRST BED SPRINGS WERE PATENTED IN THE U.S. IN 1831, BUT DID NOT BECOME POPULAR AT ONCE. IT WAS SAID THE INVENTOR GOT THE IDEA FROM THE SEAT CUSHION OF HIS BUGGY.

THE LAST WORLD IN MODERN MATTRESSES HAS NO SPRINGS AT ALL... IS MADE OF CLOUD-SOFT FOAM LATEX CALLED ROYAL FOAM... ASSURES NATURAL AND SCIENTIFICALLY CORRECT SUPPORT.

LET DE JUSTICE... ROYAL EDICTS FROM THE BED OF FRENCH KINGS BECAME LAW. LOUIS XVI, LAST MONARCH TO USE THE DEVICE, PROVOKED OPEN REVOLT BY THIS OVER-RIDING THE VOTE OF PARLIAMENT.
