Office in Donald Charleston home, opposite Presbyterian church, Bandon, Oregon

PROMINENT COQUILLE ATTORNEY WEDS

L. A. Liljeqvist and Miss Emma Sherwood United in Marriage.

L. A. Liljeqvist, Deputy Prosecuting Attorney for this district, and Miss Emma Sherwood of Coquille, were married at the home of the bride's parents in Coquille, Wednesday evening, by Archdeacon Horsfall of this city.

Mr. Liljeqvist is one of the prominent young attorneys of Coos county, and is at present deputy prosecuting attorney, besides having a large independent legal practice.

The bride is the daughter of Mr. and Mrs. A. J. Sherwood of Coquille. Mr. Sherwood is also one of the leading attorneys of the county.

Mr. Liljeqvist is well known in Bandon, having been connected with several cases in this city, and his official position also gives him a wide acquaintance throughout the county.

Amateur Night at the Grand.

Beginning Friday, November 4th, and every Friday night thereafter, the Grand Theatre will give everybody who has a desire to perform on the stage an opportunity to display their talent. Suitable prizes will be awarded to those who receive the greatest amount of applause from the Audience.

RULES AND REGULATIONS.

All parties desiring to enter the contest must have their application on record with the Manager of the Grand by Wednesday morning of each week.

No more than six acts will be permitted to go on for one evening.

Each act is limited to 10 minutes, excepting sketches, and these are limited to 15 minutes.

Any performer wishing to sing a song must furnish their own music. Any act will receive consideration such as: Songs, Dancing, Recitations. Short Sketches, Team Work, in fact, any form of entertainment that has nothing of an objectionable nature connected with it.

The audience is requested not to annoy the performers or in any way to interfere with the show. No throwing of vegetation or peanut shells will be permitted; anyone resorting to this kind of measure in showing their displeasure will be ejected.

The object of giving this form of entertainment is to give everybody who has stage talent, or think they have, an opportunity to make good. Remember, some of our greatest actors and actresses were at one time amateur performers.

THE HOOK.

The Hook, commonly used to yank performers off the stage that are not pleasing to the audience, will not be used in the Grand Theatre. The Manager thinks that this vulgar method is extremely humiliating to the performers, and also has a tendency to keep away much promising talent that would otherwise be glad to go on and try for the prize.

The idea is to give one Show every Friday night that will be clean, entertaining and full of fun.

Prizes for the First Amateur performance, will be:

The Lady receiving the greatest amount of applause from the audience, for her acting, will receive a Cash Prize of \$2.50. The Gentleman receiving the most applause from the audience, for his acting,

Support Your Home Industries.

Bandon is a mighty good town—in fact there are none better for the size on the map. Most of Bandon's people are boosters; but there are always some knockers in every locality. There are knockers who knock just for the sake of knocking; and there are boosters who boost just for the sake of boosting. The one is no greater menace to a town than the other.

There is a legitimate kind of boosting—that is merely telling the truth. The truth about Coos and Curry counties is sufficient, the truth about Bandon is sufficient; to tell any more is misleading and injurious.

There is no use of saying things about this country that cannot be substantiated by the facts. The place is good enough and we can "deliver the goods" in every instance.

What Bandon needs is to support her own industries, use Bandon made goods as much as possible. Buy your goods from Bandon merchants, use the products of Coquille valley farms and help build up this section in every way possible.

We have an intelligent citizenship and we have the possibilities of a much greater country than many of us think, but the fact remains that a careful conservative course of boosting is worth more to any town or country than all the unwarranted statements that can be made.

We can raise fruit here equal to any in the United States. For dairying, gardening and many kinds of diversified farming we do not need to take a back seat for any country on earth. Then too, we have our great lumber industry that cannot be excelled. In fact we have resources—all we need is the proper development of those resources and this can be accomplished by merely supporting our home town and home industries in a proper manner.

Think it over and see what you can do to develop the country.

STRUCK OIL ON BEAR CREEK

Substance Taken from Well is Well Saturated with Desired Fluid.

The drillers for the Miocene Oil & Gas Company on Bear Creek, have taken substance from the well so thoroughly saturated with oil as to have an exceedingly strong odor, and the oil can be seen to collect on the surface when a small amount of the substance is placed in a pan. This substance was taken from the well at a depth of less than 500 feet, and the formation at the place where they are now drilling gives every indication of abundance of oil.

C. E. Bowman has a bottle of the substance on display in his cigar factory where any one who may be skeptical on the subject can examine it and satisfy his curiosity.

The indications for a big flow of oil are getting better all the time, and it might be added here that the company still has a little stock to sell in quantities to suit the purchaser; he can have one share or as many as he wants.

Good Time Party.

Remember the Good Time Party to be given at the Bandon Opera House, tomorrow, Saturday evening, Oct. 29th, under the auspices of the Bandon public school, the proceeds to be used in liquidating the debt on the piano for the lower grades in the school. Admission will be 10 cents, and the exercises will commence at 8:00 p.m. sharp.

will receive a Cash Prize of \$2.50.

The Show will begin at 7:45 P.M. High Class Pictures will be shown between acts.

Admission, Adults 15c. Children under 10 years 10c.

Prof. Kausrud will give special Musical Selections.

Performers address all letters to W. C. Sellmer, Bandon, Oregon.

LINER SAN JUAN CARRIES SUSPECTS

British Vessel Coals U. S. Cruiser and Men of War.

(Wireless via Cape Blanco.)

Los Angeles, Oct. 27th.—Liner San Juan carries three dynamite suspects, Rice, Perry and Smith, who may be on board. The vessel is due to land at Acapulco to-day. Arrest is ordered at Washington. One man has a glass eye and identity is considered complete, and the authorities anxiously await news from Acapulco.

Rome, Oct. 27th.—The appalling cyclonic wave and volcano which ravaged this place October 25th, are getting greater as new discoveries are made. New craters are vomiting ruins, and the mud covers the roads 30 feet deep for miles. The death list is over 300.

San Francisco, Oct. 27th.—A British vessel is to coal United States cruisers and men of war. This is the direct result of the insufficiency of the American marine, and it certainly does not speak well for us that such a condition is true. Our government vessels should not be compelled to depend upon the vessels of any other nation to serve them in that capacity. American commerce should be carried on by American vessels.

In his signed circular which is flooding the mails, Senator Bourne gravely asserts that "no man who changes his political beliefs can be trusted in public office," which is edifying when considered in connection with Jonathan's political history and the present fact that notwithstanding his election as a Republican he and his Democratic colleague are leaving no stone unturned in an effort to defeat the Republican nominee for governor and elect the Democratic candidate.—Hillsboro Independent.

WILL CONSUME FIFTEEN MINUTES

Believed to be Average Time in Which to Vote Ballot.

Salem, Oct. 27.—Considerable interest has developed here, even as to wagering as to the time that will be required by the average voter to mark his ballot if he goes down the entire list, including the initiative and referendum measures. One or two practical tests employed on a sample ballot by an elector who had a thorough study of every candidate and every measure for which he wished to vote, places the average marking of the ballot at 15 minutes. This is taking into consideration the fact that probably nine out of ten of the average voters will be required to delay for several minutes in study of the initiative and referendum measures.

Placing 15 minutes as the average speed there will be a large number of precincts throughout the state in which it will be impossible for more than two-thirds of the electors to vote if they line up and vote as rapidly as possible throughout the day. In one ward in this city there are 600 registered voters. With ten booths in this election precinct and ten voters marking their ballots every fifteen minutes for the eleven hours granted during the voting period on general election day, only 440 voters could register their ballots at the best calculation.

In light of the fact that the electors would not crowd to the booths and exercise their franchise as rapidly as possible, it would seem apparent that there would be thousands of voters throughout the state who will be unable to vote.

Has Proven Good Judge.

Judge John S. Coke, candidate for circuit judge from Coos county, and the running mate on the Republican ticket of Hon. B. F. Jones, of Douglas county, has proved himself, during the recent term of circuit court, not only a most courteous gentleman, but a judge of rare ability who at all times dispenses justice in a fair and impartial manner. Mr. Coke has won the friendship of many in this city during his brief professional visit who will be pleased to lend him their support at the polls November 8th. Coke and Jones are a most excellent combination to serve the people of the district as circuit judges, and both should receive the support of the republican voters.—Roseburg News.

Forest Fires Cost Millions.

Washington, D. C., Oct. 24.—Six billion board feet of lumber valued at about \$15,000,000 were destroyed in the recent forest fires in the National forests of Montana and Idaho. The total area burned over in this one district was 1,250,000 acres. The heaviest losses two Idaho forests, Coeur D'Alene where 450,000 acres were burned over and Clearwater, where 300,000 acres were burned over. The other heavy losses were Helena National forest in Montana, 500,000,000 feet; Cabinet 400,000,000 feet; Lolo forest, 300,000,000. How much of the burned or killed timber can be saved, it is impossible to predict; \$15,000,000 is the estimate based on the total loss.

NOTED CASE ENDED TUESDAY

Trouble Between the U. S. and Venezuela Settled by The Hague Court.

The Hague, Oct. 25.—The International Court of Arbitration rendered its decision in the Oreino claims case today.

The Barge award was declared null on four points and the American Company is awarded \$46,867 with three per cent interest since June 16, 1903 and \$7,000 costs.

The judgment is to be paid by Venezuela within two months. The tribunal rejected the American contention on other points in the dispute. The decision disposes of the long standing dispute between the United States and Venezuela. The Orinoco Steamship Company, a New Jersey corporation, was granted certain exclusive privileges by Venezuela, which subsequently were repudiated by President Castro, and a suit for \$1,400,000 damages was begun. The case was submitted to Dr. Charles Barge, who, as umpire, Feb. 2, 1904, awarded the company damages of \$28,700. The company appealed to the American government which refused to accept the decision.

Florence Hit by Fire.

Monday's Coos Bay Times says: According to word received this morning by Fred Hollister of North Bend, one of the officers of the Bank of Florence, two-thirds of the business district of Florence, at the mouth of the Siuslaw, was wiped out by fire late Saturday night.

But meagre details of the fire were obtainable. The cause of the blaze which started in one corner of the block occupied by the Wm. Bryan hotel and the F. W. Carey Lumber Company's buildings, could not be ascertained. The entire block was wiped out.

The loss is estimated at upwards of \$50,000. No one on the Bay has any idea of the amount of insurance carried. The F. W. Carey company of San Francisco is the heaviest loser, but as they are a strong firm, the loss will not be as severe on them as on some of the private concerns.

The bank, which is across the street, escaped damage. So far as can be ascertained, no one on the Bay suffered any loss, although several North Bend and Marshfield parties are interested at Florence.

K. of P. Ball.

Posters will be out tomorrow advertising the K. of P. Annual Ball which will be given on the evening of November 19th at the Oriental Hall. The General Committee, C. R. Moore, Wm. N. McKay and G. R. McNair, have been busily engaged looking after the preliminary arrangements, and now have their plans pretty well laid out; it is the Committee's expectation that this year's event will be a fit successor to those preceding it. Floor, Door, Reception and Decoration Committee have been formed and their personnel will be announced in an early issue of the RECORDER. The Pythian Sisters are already planning to make the supper, which is to be given in the hall below, attractive, appetizing and irresistible.

Fine line of new granite ware just received at the second hand store on the hill. S. H. GOFF. 44 ft
