**RAILROAD TO COME IN 1912**

**C. A. Smith Prophecies That Actual Construction Will Be Underway Soon**

"Coos Bay will see actual railroad construction before the end of 1912, is my prophecy," remarked C. A. Smith of the C. A. Smith Lumber Co., today in discussing the railroad situation. How much sooner he anticipated the beginning of active work on a line here, Mr. Smith would not say, says the Coos Bay Times. Let it come, we hope Mr. Smith is a good prophet, and see no reason why he should not be. A railroad to Coos Bay would of course touch all other points along the coast and the entire coast would profit by it.

Coos Bay is a logical point for a railroad, so is the Coquille Valley. We have two excellent harbors in this county, each of which will make a magnificent terminal for a railroad, and we expect to see a terminal at Coos Bay and one at Bandon inside of the next five years.

**Humes, May Raise Issue State Right**

An appeal to the federal court to prevent the regulation of fishing in the Rogue river by the state of Oregon, is the threatened move of the Hume interests, who have failed in their efforts to re-open the stream to commercial fishing. An injunction will be asked for on the ground that the control of the waters of a stream are vested in the federal government instead of in the state.

Such at least is the information brought back by Ira J. Dodge from Portland, who states that this program was outlined by Ivan Humason, one of the Hume agents. Similar threats were made during the session of the legislature by the Hume heirs.

These contentions were then regarded as a bluff, to force the passage of the bill repealing the initiative bill. The master fish warden stated that the federal courts have repeatedly ruled that the state has the right to regulate fishing in its streams, and upon these are based all of the fish laws of various states.

However, if the threat is made good and an injunction is secured, the Rogue River Fish Protection Association will be on hand to fight it to a finish.—Mail Tribune.

**Is Marriage A Failure?**

The delightful Farce Comedy in three acts will be presented at the Grand Theatre by the Hollingsworth Stock Co., Friday, March 31. A prize of a 2lb. box of candy is offered by Blundell Bros., Candy Shop, for the best answer to

**IS MARRIAGE A FAILURE?**

Get a card, write your opinion sign your name and leave same at Blundell's Store. Answers will be read in the "Grand" Friday March 31st after the show. The audience will decide which is the best answer. No doubt there will be some novel replies handed in that will cause merriment. Get busy and fill out that card.

Take HERBINE for indigestion. It relieves the pain in a few minutes and forces the fermented matter which causes the misery into the bowels where it is expelled. Price 50c. Sold by C. Y. Lowe.

**GREAT ACTIVITY IN COQUILLE VALLEY**

**Much New Land is Being Put Under Cultivation at Present Time**

That the Coquille Valley is beginning to awaken to the natural advantages possessed by both soil and climate is evidenced by the unusual activities shown by the farmers in clearing up their rough land. On a trip to Myrtle Point last week the editor noted nearly a dozen different clearings which have been begun or completed since last fall and the smoke of clearing fires fills the air these spring days.

No accurate estimate can as yet be made as to the number of acres of new land which will be under cultivation before the close of the year, but that it will go up into the hundreds we are confident. And every acre of this land means many hundreds of dollars added to the wealth of the county both in the way of increased productiveness and also in the increased pasturage possibilities of the valley and thereby the natural increase in the number of head of dairy and beef animals which will be raised here.

That the hill land on either side of the Coquille Valley has wonderful possibilities in the way of fine fruit culture has been proven many times and much of the land which is now being cleared will be planted to fruit trees this coming summer. Several hundred acres of apple trees have already been put in the ground and as soon as the setting out season arrives, many thousands will be set out in this valley. This will mean that the Coquille Valley will step into its rightful place as the natural home of the Gravenstein apple. Also the famous Spitzenberg will be fully represented on the shipping bills of the transportation companies before many years.

Coquille Valley fruit has always held first place in the markets where it is known as regards quality and it only needs a systematic course of training on the part of the growers, pickers and packers, to make the apples of this section stand first on the markets of the world in point of quality and general excellence of flavor. This is the place where the apple of perfect flavor grows to its perfection and this fact need only be properly advertised and demonstrated to make it apparent to the apple consuming world at large.

With this in view the work of the fruit growers association will be along these lines for the next few years and the associations of the county are awakening to their heavy duties in this regard and are preparing to get this county before the world in the best possible manner for the fruit of the coming season's crops. Good growing, good picking and good packing will mean more than good advertising, but the latter will do much to place the first shipments where they will do the most good.—Coquille Sentinel.

**Attention**

All members of the Bandon G. A. R.; W. R. C. and Sons of Veterans are requested to meet at the G. A. R. hall Saturday evening, April 1 at 7 o'clock sharp, to go in a body to the M. E. church where Captain Branson will deliver a special address to these organizations.

Definition FIFIELD—"Superior to all others."—Why not patronize the best and "ONLY WAY?" 54ft

**NEW HOUSES GALORE GO UP**

**In Every Direction Are Signs of Life and Progress in Bandon**

That Bandon is prosperous and continuing to grow is evidenced in many ways, but none more so than the fact that in every direction you look there are new houses, most of them substantial residences, going up. Bandon is growing in business interests, but it is also growing as a city of homes, and many beautiful homes are now going up which are a credit to the city and speak for the enterprise and thrift of our city.

Bandon wants new factories and mills and we are getting them, but we also want new homes and good people to live in them, and we are getting these too.

Here's to Bandon as a city of homes.

**Excursion To Coquille For Championship Game**

The Bandon High School team is making preparations for the fastest game of Basket Ball ever played in the county. When the B. H. S. Five meet the Myrtle Point team at Coquille next Saturday.

The two teams are very evenly matched and have always played exceptionally close games. The game will be played on an open court at 1:00 p. m. The Myrtle Pointers have chartered an excursion boat and will bring a crowd to the game. Bandon High School will take a large crowd from here, as most everyone says they are going. The Dispatch will leave at 8:30 a. m. arriving at Coquille about 11:30, returning after the game. Boat will stop at Prosper, Lampa and River-ton. The fare for round trip is only 50 cents and admission to the game at Coquille 35c. The excursionists have planned a basket dinner at Coquille and no effort will be spared by the High School to make this the big event of the season. The team needs the encouragement of every patriotic Bandonian and your presence there will be an inspiration to them to win this great honor. Get the spirit and don't miss it.

**Many Boats Come In.**

The fact that the Coquille river is becoming more important as a port all the time is evidenced from the fact that more boats have been in the river the last few days, than at any time in the previous history of this harbor. Sunday night there were twelve in all here. They were steamers Phoenix, Elizabeth, Fifield. The gasoline schooners Anvil, Wash-calore and Randolph and the schooners Ruby, Lizzie Prien, Esther Buhne, Oregon, Advance and Ida McKey. The Anvil came in and went out again Sunday night and a number of the others will be ready for sea tomorrow.

Besides these twelve, there are four others due to arrive within the next few days. They are the steamer Guaila, and the schooners Sausalita, May Flower and Albion.

**Popular Hotel**

The Popular Hotel, N. N. Jacobovich, proprietor, will keep open every Saturday night till 2 o'clock. Supper served to dancing parties and any others who may desire.—24ft

**MAY PAVE FIRST STREET**

**Proposition Now Being Taken Up With Good Prospects of Success**

O. R. Morrissey, of Marshfield, manager of the Coos Bay Paving & Construction Co., has been in Bandon a day or so consulting the property owners along First St., in regard to paving that thoroughfare this summer, and reports that he received encouragement all along the line, and that actual work of paving will probably begin in a short time. This will make a substantial improvement that Bandon has long needed and one that will add more to the appearance of the town than anything that has yet been done in the way of improvements.

**Notable Days**

Speaking of "Notable Days" the RECORDER says, Arbor Day, April 11th, and Easter Sunday, April 16th are the next of particular note, I wish to bring to the public mind the 12th day of April, 1861, when at the call of "To Arms" in defense of the Union, so many of our men and boys responded. The 12th day of April, 1911 will be the "Semi-Centennial of that most memorable day. What can we do to show our appreciation of their valor. In many of the towns of the East the citizens are preparing to give entertainment and a good dinner, making the "Veteran" the "Guest of Honor." Its a grand idea and I hope the citizens of this town will sit up and take notice and so honor the few veterans of this town and county as they deserve to be. The Woman's Relief Corps stand ready, heart and hand to help them. April is surely an honored month, with its precious Easter Sunday and that glorious heart rejoicing day, the 9th. of April 1865, the day that saw at Appomatox, the closing of the terrible war.

—Per Press Correspondent, W. R. C. No. 40.

**Revival Meetings at M. E. Church.**

The revival meetings at the M. E. church under the direction of Captain Branson are progressing nicely and growing in interest constantly. A number have already professed faith in Christ and many others are following.

The Sunday services were largely attended and were intensely interesting and instructive.

It might also be added that these are not merely Methodist meetings, but everybody is invited to come and participate in the meetings and converts will be allowed to choose their own church affiliations without any influence being brought to bear on that point.

Tuesday night will be especially for young people, which includes all who have a young heart.

Wednesday will be a day of prayer. All christians of all churches are requested to remember in prayer the special efforts being put forth.

Thursday there will be cottage prayer meeting at 2:30 p. m. at the Methodist parsonage, the home of Mrs. L. Roberts, and at the residence of Mr. Hollenbeck on the Prosper road.

Saturday will be G. A. R. night.

**GRANGE CORNER ONCE AGAIN**

**Master F. F. Eddy Writes Concerning Big Agricultural Fair**

It has been some time since I lifted my pen for the Grange Corner. If you will kindly permit me to use the space I will do so again for I have things on my mind and I would like to see how they strike other people. Let it be said however, that what I say here in matters of argument or opinion are just Eddy's views and don't carry the official sanction of the Grange in any way, so take them for what they are worth of thought.

The editor persists in calling it a street fair, but so far as I know the Grange has not been guilty of suggesting a street fair. I labor under the impression that the Grangers are not pining to gaze at horrible monstrosities confined in canvas pits at ten cents per gaze, nor longing to cast rings at canes or tin jack knives. I think it safe to say that the grangers are not going to waste any energy promoting a street fair. Thank you, we have too much to do putting in the spring crops and caring for the dairy herds.

An agricultural fair, with emphasis on the agriculture, is what we want. I have no objections to having any decent amusement features as side issue. Certainly let us have that sort of thing so long as they are not pure larks, and let us by all means have the peanut vender and the hot taffy artist. Oh, hot taffy—yum, yum, I would give much for just one bank of hot taffy that tasted the same as that I ate long, long ago, in boyhood days, way back at the Eaton County Fair in Michigan, but after all this sort of thing is not the main object after which we grangers are striving. What we seek is a reasonably complete exhibit of the natural resources of this part of Coos County, especially of those products which are produced by the art of the farmer.

Why not have such an exhibit? Why not get together a committee appointed by the Grange, the Commercial Club and the City Council which shall be vested with the necessary power to go ahead with the project? Why not advertise it widely and arrange special rates with the various steamers connecting Bandon with Portland and San Francisco? Why not go after some of those tourists who are said to be flocking toward the western shore this summer? Why not take hold of it in earnest and finally why not make it an annual affair? Why not? But say, if such an exhibit is attempted, it is time to get busy. It takes several months to arrange and prepare for an affair of this kind. If the other representative interests of Bandon and this section of the country are willing to co-operate, the Grangers will do their share.

In another issue, I will talk further about this matter and some other things, with your kind permission Mr. RECORDER MAN.

Yours for a fair, F. F. EDDY,  
Master of Bandon Grange

**A NUT TO CRACK**

What are you going to do when you are too old to work? Better provide for the future while you have time. It's not how large or how small are your earnings, but it's what portion of your earnings do you save that's of consequence. When you start saving your money and put it in this bank, your fortune is half made. The other half is persistency. We want the small depositor that grows to be the large one. Why not start now?
