

Bandon Recorder.

VOLUME XXVII

BANDON, OREGON, TUESDAY, JULY 25, 1911

NUMBER 56

BERRY DAY

NEXT SATURDAY

Be Sure to Eat Berries on That Day, Wherever You Are

Next Saturday, July 29th, as has already been announced in the RECORDER will be Berry Day in Coos county, and whether you are at home, at a hotel or restaurant, camping out along some of the beautiful streams of Oregon, on the beach, or wherever you are, YOU SHOULD EAT BERRIES.

Coos county is the greatest berry producing spot on the earth, and yet we are really not raising berries enough for home consumption. The idea of Berry Day is to show the people just where we are at, and what we can do.

Frank B. Tichenor, one of the main boosters for Berry Day, says: "Berry eating day next Saturday is merely to show the Coos county people that they do not raise berries enough for their own use."

It is the desire of those fostering the berry eating day to show the people that they had better put out many more acres in berries for their own use and then commence to put out more for exportation.

The soil, the climate, and in fact, every feature for the raising of berries successfully, to be found in Coos County, and the only thing is for the people to get busy and do things.

New Factory Doing Business

The Bandon Brick & Tile Co. have some samples of their brick on display at Smith & Deyoe's office and they are certainly good ones.

This company has just opened-up operations on the DeGessen place south of Bandon, where there is an abundance of brick and tile clay and when the factory is in full operation they will probably employ 50 men, which will make a big addition to the industries of Bandon and vicinity.

Oil Well Prospects Best Yet.

C. A. Smith, the new driller for the Miocene Oil and Gas Co., has successfully loosed and raised the heavy casing, put the well in fine condition, replaced the casing, and is drilling away in first-class shape. The prospects are better than ever, and those interested are more than pleased with the same, and the present progress of the work. The well has every indication of a big producer and is attracting considerable interest and attention.

Bandon Loses Again.

The Bandon base ball team lost again Sunday to Coquille, but this time the score was only 9 to 5. Our boys are getting a little nearer all the time, and if they just keep up courage, they may be able to capture the county seaters' scalp yet before the season is over.

Ocean Rebekah Lodge.

Ocean Rebekah Lodge, No. 126 will install officers Saturday evening July 29th, at the I. O. O. F. hall at 9 o'clock. All Odd Fellows and wives are very cordially invited to be present. By order of the N. G. Clara Goetz, Sec.

CARNIVAL COMMITTEE

HOLDS MEETING

Will Complete Program at Their Session This Evening

The carnival committee, committee, composed of Geo. P. Laird, Geo. Manciet, J. Howard Johnston, and N. J. Crain, met Monday morning and partially outlined their plan of campaign and program for the carnival, but as they will meet again this evening to complete the program, there will be nothing definite in that line to give out until Friday's issue of the RECORDER, but suffice to say the committee is working on plans that will make the carnival a big success in every particular.

The committee is in correspondence with a number of concessions and the prospects are that there will be a fine line of attractions here on August 24-25-26, the dates set for the big event.

That Good Roads Committee

In a recent issue of the RECORDER it was announced that Gov. West had appointed a good roads committee. This committee consists of one of the leading business men of each county. The Coos county appointee is R. E. L. Bedillion, manager of the Bandon woolen mill and a good booster for all of Coos county. If the other members of the committee are men of the same calibre as Mr. Bedillion, there will no doubt be a systematic campaign for good roads started throughout the state within the next few months, and this is something that is much needed in Oregon. Mr. Bedillion is very enthusiastic over the proposition and will do all in his power to promote the cause.

Fast Ball Game Saturday.

Bandon fans will have an opportunity next Saturday to see the fastest ball game of the season between the team from Oakland, Ore., and the Bandon team.

This is the first time that an outside team has visited Bandon in five years, and this will be our opportunity of seeing some class ball.

Oakland has the fastest team in the valley and has won from teams all along the line of the Southern Pacific. The Bandon boys are also putting up some good ball and all who go will be sure to get the worth of their money.

Everybody should turn out and see the game and help cheer the boys on to victory.

Big Feature Film.

"Ten Nights in a Bar Room." This magnificent 2000 foot special release by the Selig Co. will be exhibited at the GRAND Theatre TONIGHT, Tuesday, July 25th. Special music by Prof. Kausrud's Orchestra. Don't miss this masterpiece in motion pictures. Admission the same—only rocts.

Note: This picture will be shown One Night only.

Stephenson & Gibson are now putting in the new plate glass in C. Y. Lowe's drug store. When this is finished, they will have their work done on this building, which has made practically a new building out of it and adds greatly to the appearance of that section of First street.

Automobile Road to Beach

Bandon people are getting automobiles at a rapid rate; so fast, in fact, that it is almost impossible to keep track of the large number of new cars that are constantly arriving. This is a good thing as it speaks well for the prosperity of Bandonians, but along with the automobiles there should be better roads throughout this section of the country, not for the automobiles alone, but for the general good of the public, that farmers might be able to get to town more easily with their produce and thus build up a great farming section here, as this country is capable of doing.

But what we started out to say was that there should be an automobile road to the beach, and not only an automobile road, but one for general travel. Bandon has the finest beach on the Pacific coast, and, in fact, has the only picturesque one along this section of the coast. This is an asset, the value of which cannot be calculated; all it needs is development, and the way to develop it is to begin a little at a time, and the first thing to be done is to make it easily accessible to the people.

We have a sidewalk for foot passengers, and all are agreed that this is the best thing that has ever been done for the improvement of the town and benefit of the people, and that the people appreciate it is evidenced by the hundreds, yes, thousands who are constantly using it. This is especially noticeable on Sundays and holidays, when there is a constant stream of people between the city and the beach.

Now with the sidewalk completed, the next thing we need is a road for automobiles and other vehicles to the beach. What could be nicer than a spin along the beach in an auto, or a nice carriage drawn by prancing steeds?

There are two routes of easy access, either of which could be put into excellent condition for one hundred dollars or less. One of these is down by the old Bennett place, and the other near the Queen Anne cottage. The possibilities are there and it would be an easy matter to raise the small amount necessary to do the work. All it needs is some one to take the initiative. The question is, who will it be?

In addition to our own autos and rigs, there are many people from Coos Bay and the up river towns, here in their autos every Sunday, and what an advertisement for Bandon it would be if there was just a road by which they could get down on the beach.

Let's get busy and ACT. Who will take the initiative?

Mrs. E. E. Reynolds entertained a number of lady friends Friday afternoon in honor of Mrs. H. C. Ostien, who is soon to move to Monmouth, where Prof. Ostien has been elected to a position as professor of mathematics in the Monmouth normal. The afternoon was pleasantly spent, the diversion being social conversation, fancy work and cards. Elegant refreshments were served. Mrs. Reynolds has the reputation of knowing just how to make her guests enjoy themselves.

FOR SALE—House and two lots in Prosper, \$1000. 49-tf JOHN DE COSTA.

The editor's family joined him on the installment plan during the last two weeks. His mother, Mrs. L. A. Savage, arrived a week ago Friday. H. L. Savage, his brother, came in Monday of this week, and Miss Grace Savage was an arrival on yesterday morning's train. All came in by the Middle Fork auto stage line, and will remain for an indefinite time.—Coquille Sentinel.

Bandon Warehouse Co. have just what you want in hay, grain and feeds. See them. 38-tf

Mr. Lee Barrows has some peas on display in Smith & Deyoe's office that cap anything in that line that we have seen for some time. Certainly the Coquille valley is a hummer when it comes to raising peas.

You boost for a good thing, don't you? Boost for the Stmr. Fifield and you will then boost the "good thing" along. 45-tf

J. L. Fester has the biggest turpin yet on display in the show window of Smith & Deyoe. Just take a look at it. It's a daisy and shows what can be done in this section.

County Supt. W. H. Bunch came down yesterday from Coquille to look after the interests of the schools in this section. He went out to New Lake today.

Socialists Attention.

A meeting of the Bandon Local will be held at the City Hall, Friday evening, July 28th. Come!

G. S. Capps, foreman of the Times office, who was called to Portland recently by the serious illness of his father, received a message this morning conveying the sad intelligence of his death in the Portland hospital last evening. The body will be taken to Tacoma for burial.—Coos Bay Times.

FOR TRADE—6 room house and 4 garden lots to trade for Bandon property; house and lots preferred. Pacific Real Estate Co., Coquille. —52-St-x

Last Saturday Frank Burkholder and Claude Moon purchased the E. M. F. 30 automobile formerly owned by Oliver Sanford and since that time have been enjoying the pleasures of their new acquisition by taking in the sights of the surrounding country.—Coquille Sentinel.

For butter tubs, butter barrels and fish barrels, see T. W. Robison at Central Warehouse. 53-tf

Wilson & Walrath opened up their blacksmith shop on Columbia avenue yesterday morning and are starting off in fine shape with a big supply of work from the start.

SAV, watch the horses smile and grow fat when you feed them grain and hay from T. Robison. 40-tf

Rex Starr, the man who had his foot amputated at the Bandon hospital recently as the result of his accident in the Conlogue camp, is getting along nicely at present, which will be good news to his friends.

FOR SALE OR RENT—My property in Bandon. See J. S. Tilton or phone Farmers 17. L. J. Davison. —55-14

DAIRY INSTITUTE

WAS INTERESTING

Attendance Light But The Addresses Were Excellent

The Dairy Institute held on Thursday under the auspices of Bandon Grange was most interesting and instructive to those who attended, although the attendance was less than was hoped for by the promoters of the affair.

On account of the late arrival of the boat the forenoon meeting was passed over. Hon. W. K. Newell, President of the State Board of Horticulture, was present, but being obliged to leave on the early boat in the afternoon his address was unfortunately missed.

Prof. F. L. Kent of the Dairy Department of the Oregon Agricultural College spoke along the lines of showing the admirable way in which fruit growing and dairying worked together. As to dairying specifically he reiterated the advice he has been giving for some years past. Better cows, better care and feed, and larger net profits. He admitted the confining nature of dairy work, but said that success along any line of endeavor was attained only by constant and strenuous endeavor.

Prof. H. D. Scudder spoke along the same lines. He said this was a dairy country preeminently. Of fruit orchards he spoke approvingly but regretted the lack of judgment displayed by many investors in orcharding projects. He expressed it as his opinion that so wide spread and so costly were the mistakes in orchard planting that 75 per cent of the new orchards in the state were doomed to be failures so far as financial profits were concerned. He outlined in regard to dairying a system of green feeding to last practically the year around. This he contended was the best method. In the future he thought pasturage would be less and less used. An exercise lot and abundance of daily cut green feed was the coming way of scientific dairying. The silo was to be used to fill in breaks in the succession of green feeds but the cow he said was the best silo. Twenty acres in rye and vetch, alfalfa and kale, would yield daily green feed for fifty cows he declared.

Elk "Goat" is Abolished.

No more will the intending Elk be compelled to ride the goat, climb a greased pole or do other "stunts" in connection with his initiation. The last important action of the recent meeting of the grand lodge of Elks was to abolish absolutely all horse play and hazing in the initiatory rites of the order. This ends a fight that has been waged for a decade by a constantly growing element in the organization which contended that the horse play deterred from presenting themselves as members who would be towers of strength to the order.

Mr and Mrs. Charles Marshall of Cherokee, Kansas, arrived here a few days ago to visit Mr. Marshall's brother, J. B. Marshall of this city. The brothers had not met for 40 yrs.

Some of the finest gooseberries we have ever seen are in the show window at Smith & Deyoe's. They were grown by R. C. McKinnis in South Bandon and are certainly daisies.

Mrs. W. E. Dungan and Mrs. Nellie Owen are camping at Al Owen's cottage, Crow's Nest, on South Coos River.—Coos Bay Times.

Mrs. Thos. White was a Marshfield visitor Monday.

Mr. and Mrs. Shumate have a bouncing 12 pound boy born July 18th.

BOATS ARRIVE

AND DEPART

Shipping Business at This Port Still Continues Very Brisk

The Elizabeth sailed Sunday evening with 210,000 feet of lumber, 100 maple and myrtle logs, 350 bundles of veneer slices, 25 bundles basket splints, 696 cases cheese, 65 cases butter, one bale woolen goods, 5 tons of miscellaneous, and 17 passengers as follows: Louis Kruger, J. L. Bulher, R. G. See, Mr. L. W. Day, C. C. Mechelson, B. Falcon, Mrs. B. C. Shull, Mrs. A. M. Russell, Mrs. C. O. Monroe, L. Thompson, John Terry, T. Kerby, Mrs. C. M. Spencer, E. Mechelson, Miss Johnson, Sol Israel and J. H. Johnson.

The Elizabeth will leave San Francisco for Bandon Thursday.

The Anvil arrived in port Saturday with 80 tons of freight and 20 passengers as follows: Mrs. R. M. Hanby, Miss Pearl Hanby, Miss S. J. Hanby, Walter Campbell, Ed Ellis, S. W. McFerdinand, Al White, Geo. Slough, A. W. Foster, A. J. Morgan, wife and child, Sid Polock, Wm. Millhouse, Glen Howard, J. C. Marshall, L. E. Gilbert, D. M. Kemp, F. J. Bartels and C. E. Gilbert.

The Anvil sailed from here Sunday with a big cargo of freight and passengers and will arrive here again about next Saturday.

The Fifield sailed from San Francisco for Bandon last night and will probably arrive here tomorrow.

Bandon Furniture Co. have just received a select line of wall paper at right prices. Oatmeal paper 60cts per roll. 55-14

WHY NOT BUY A U. S. Separator FIRST

since you will surely buy one IN THE END?

The Separator that won the World's Record for skimming, in 50 consecutive tests, extending over 30 days, with the milk of 10 different breeds of cows. The U. S. won the only Grand Prize, Seattle, 1909.

We are daily adding new names to our already long list of depositors. There is a good reason for this. It is this: They have found that the road to wealth is by way of the bank account, and that we, by our uniformly conservative methods, our courteous treatment to our customers, our steady increase in strength, has proven that this is the place to open that account.
