

TO HONOR ALBERT A. POPE, "FATHER OF GOOD ROADS"

Memorial Committee Proposes Dedicating a Drinking Fountain.

Since the death of Colonel Albert A. Pope in August, 1909, a movement has been quietly going on which has for its purpose the erection of a memorial in his honor. The movement was started by the Bicycling World, a New York publication, and afterward taken up by the board of trade of Hartford, Conn.

The purpose is to pay a deserved tribute to the memory of the man who was not only a pioneer in the agitation for good roads, but who is considered by many to have been practically the leader in the formation and development of such agitation into the tangible results which have been achieved.

PROPOSED MEMORIAL TO POPE.

in road improvement throughout the country. Some have called him "the father of good roads."

The memorial selected by the committee in charge is a drinking fountain for man and beast and by permission of the Hartford park commissioners is to be placed in Pope park, which Colonel Pope presented to the city of Hartford. The fountain is a work of art and will cost about \$7,500. Of this amount something over \$4,400 has already been subscribed. In the opinion of the committee many persons, among them farmers, manufacturers, automobilists and others who profit by or enjoy the improved roads of the country, will be glad to contribute.

ADVICE TO ROAD BUILDERS.

Engineering Skill, Competent Supervision and Money Are Needed.

The true value of a system of highways to the state depends upon many conditions, among which may be cited continuity, thus providing for the requirements of transportation over distances greater than can be economically traversed on inferior and sometimes nearly impassable roads; hardness and smoothness of surface with easy grades, permitting a reduction in the cost of haul, and an administration that will furnish an economical and judicious expenditure of the funds used in construction and maintenance, says G. W. Cooley, state engineer of Minnesota. It has been shown that 95 per cent of all products carried by rail or steamship must first be transported over the primary roads of the country, and it is therefore to these, the most important of which at this time are the common earth roads, that our attention is at present directed.

One of the greatest mistakes generally made with the opening up of a road system in a new country is that induced by the belief that no engineering skill is necessary and that any man versed in the handling of tools or road machinery is thoroughly competent to build a road. Such a mistake frequently finds its legitimate fruitage in expensive changes of location, regrading or insufficient drainage and requiring after the expenditure of large amounts of money for construction that much more must be provided to remedy the errors originally made.

The subject of road building on a plan commensurate with the necessities and financial ability of the people then resolves itself into but three parts—first, sufficient engineering skill to properly locate and drain our highways; second, competent supervision in construction, and, third, money to pay the bills.

GOOD ROADS ATTRACT POPULATION.

Counties which are neglecting the improvement of their highways need not be surprised when the census figures show that they are losing population, while more progressive counties are gaining. Good roads attract population, while bad roads drive it away.

Town Buys a Roller and Crusher.
The town board of Galen, N. Y., has purchased a ten-ton Buffalo road roller. Last year the board purchased a Chalmers stone crusher and with this equipment proposes to greatly improve the town's roads the coming season.

ANXIETY.

Anxiety is the poison of human life, the parent of many sins and of more miseries. Can your solicitude alter the cause or unravel the intricacy of human events? Can your curiosity pierce the cloud the Supreme Being hath made impenetrable? To provide against every important danger by the employment of the most promising means is the office of wisdom, but at this point wisdom steps.—Blair

HAPPIEST GIRL IN LINCOLN

A Lincoln, Neb., girl writes, "I had been aching for some time with chronic constipation and stomach trouble. I began taking Chamberlain's Stomach and Liver tablets and in three days I was able to be up and get better right along. I am the proudest girl in Lincoln to find such a good medicine." For sale by C. Y. Lowe.
