His Worry.

"Clarence," said the American helpess hesitatingly, "I think that you should be told at once how my father made his money. Our business men in this country have methods which to one of your pure soul, whose motto is 'Noblesse oblige,' cannot but—" "Cease, Maude, cease," said the young lord reassuringly. "Tell me no more. However he made his millions I can forgive for your sake. But—er—has he still got them all right?"—London Globe.

Almost a Miracle.

One of the most startling changes ever seen in any man, according to W. B. Holsclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for coughs and colds with excellent result." It's quick, safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at all druggists.

Salt Gold by Postmasters.

At Bevilux (Old Bex), among the Alps, the railroad passes the rock salt mines from which the Swiss government procures most of the salt whose sale is a government monopoly and often sold only by the local postmaster, who deals not only in stamps, but in salt. At this point a toothed rail is brought into play, and the gradient rapidly increases, as the cars pass through woods of walnuts and chestnuts, here an important item of the diet and income of their owners.—National Magazine.

The Danger After Grip.

lies often in a run down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of grip. If suffering try them. Only 50 cents. Sold and perfect satisfaction guaranteed by all druggists.

Origin of "Pants."

The words breeches, trousers and pantaloons are now used interchangeably, but originally the significations were quite different. Pantaloons were at first nothing but long stockings worn in Italy as a sort of religious habit by the devotees of St. Pantalon. Breeches originally reached from the waist half way to the knee and finally to the knee, where they were fastened with a buckle. Trousers are the present style of leg gear, a combination of the former two.

It Looks Like a Crime.

to separate a boy from a box of Bucklen's Arnica Salve. His pimples, boils, scratches, knocks, sprains and bruises demand it and its quick relief for burns, scalds, or cuts is his right. Keep it handy for boys also for girls. Heals everything healable and does it quick. Unequaled for piles. Only 25 cents at all druggists.

An English Joke.

Brown—I say, Smith, are you good at conundrums? Smith—My boy, I am great at such things. Fire away. Brown—Well, if it takes a man three days to chew a ham weighing ten pounds, how long will it take the same man to chew a hammer weighing six pounds? Smith (after considering some time)—I'll give it up, old chap. Brown (as he prepares to dodge things)—It will depend whether he is a professional or a hammer chewer.—London Answers.

Puts End to Bad Habit.

Things never look bright to one with "the blues." Ten to one the trouble is a sluggish liver, filling the system with bilious poison, that Dr. King's New Life Pills would expel. Try them. Let the joy of better feelings end the "blues." Best for stomach, liver and kidneys. 25c at all druggists.

Cause of the Quietness.

"That new cook I secured is certainly quiet," said Mr. Dubbs happily. "One would never know she is about the place." "She isn't," chimed in Mrs. Dubbs. "She left this morning."—Satire.

Marking a Bullet.

When a leaden bullet traverses cloth characteristic marks are left upon the projectile which are not obliterated by the subsequent passage of the bullet through flesh, provided that it does not strike a bone. It is even possible to identify the nature of the garment through which the bullet has passed by a careful examination of the marks on the lead.
