

Don't Gamble in Clothes

THE average man knows little about clothes. He likes the color of the fabric, the cut of the garments, but has doubt of the wearing qualities. He looks on clothes buying as more or less of a gamble. The man who chooses MICHAELS-STERN CLOTHES does not gamble. He takes no chances. Six months after he has bought a suit he is still satisfied. The wearing qualities are there.

Special School Election 17th.

Friday, May 17th, is the day set by the school board to vote on the proposition of issuing interest bearing time warrants for the purpose of building a gymnasium to be used by the schools.

This election was called by the board as the result of a petition presented to them, signed by about 140 tax payers in the district, and with such a large number signing the petition it would seem that the proposition would carry with ease. The gymnasium is something that would be of great practical benefit in the physical development of the young people of our city and should carry by a good majority.
