The Sabbath Day.

All different nations see God ac cording to their standard of intelligence and influence brought to bear upon them in childhood.

Each nation has a different name for the great spirit they worship "Thosh'; in Greece He is "Feuse"; tion. "Jehovah" for the Jews; Indians age while thousands of names for to open the door. this great Spirit are gone into ob

There is no end, no death, not only is the spiritual part in higher creation freed, when that which we call death ends the mortal body, but in its change, the body returned to its elements becomes imprial. Summer, producing flowers, fruit, growth of vegetation. It is apparently gone when winter comes with storms and frost and sno v, and so shows God the creator in His power to restore which men in their shortsightedness, in their greed for power, wealth, and in sellishness have destroyed all his gifts. For instance take the mighty forests once covering those mountains and valleys, laid low by fire. New growths have come into existance until too, this globe the earth, changes but never is ended.

When men once become afraid o God and see Him as a revengeful spirit, when they are told of and believe in everlasting torture, punishment, of an existence of a place such as they call "Hell," This p sached and forced into weak minds by teachers dressed in fancy garbs and dressed and ornamented with jewels and titles, then they have strayed far off from the narrow path of truth, for God is Love and only Love. No prayers can change love, no sacrifice will aid His ruling. He alone knows what is the best, He is what he was in the beginning. is now and ever will be Love,

BIG CROPS FOR PACIFIC NORTHWEST

Country Looks To Be A Certainty

Portland, Or., June 4 (Special)-Bumper crops and prevailing good prices are expected to put the farmers of the Pacific Northwest in high good humor this Fall, and

The biggest wheat crop ever harve-ted is predicted for Oregon, thought the yield will reach 70,000, 000 bushels, worth \$52,500,000. Oats are expected to add \$18,675,-000 to the farmer's bank roll, and barley \$9,900,000 more. Fruit marketed this Fall and Winter will add \$15,000,000 to this new wealth, and hay the neat sum of \$35.390,000. The wool crop is estimated to be worth \$6,600,000, and hops \$4. 650,000. This is a total income for the producers of the three states of almost \$150,000,000. If the manu factured products were added to the wealth of the soil, it is probable the total would fall not far below \$500,-000,000 for the year.

When it was known that Marshfield had changed the batting order, Manager Whitsett of the Bandon captain denied that he had shifted the order; however, the Marshfield manager acknowledged it after the game. This is in strict violation of the base ball rules, and the result of the game has been protested to President Charles Baxter of Coquille who will decide as to its merits.

Bandon had the best of the game throughout. Pitcher Craig struck out 14 men, passed one, hit one, and allowed only two hits, which is certainly a record not often made in a game.

There were only about 55 people besides the players who went from Bandon, but there should be twice that many the next time.
