One of the most effective ways for local merchants to oppose encroachments of mail order houses is to advertise liberally in the home paper. Too many merchants sleep on their oars while the eating house comes in and takes a large portion of their trade. They demur at undertaking anything like a thorough system of advertising, contending that the drift to the mail order houses is bound to come; and yet they make free complaint over the inroads of the mail order houses into their particular trade. The fact of the matter is, the trade belongs rightfully to them and would come to them if they were progressive enough in inviting it with good, live advertising.

The Word "London."

What is the derivation of the word "London?" The usually accepted one is the Celtic "Llyn-din," or lake city, referring to the historical fact that the city was built on a river that overflowed at full tide and half surrounded it. Other philologists have derived it from "lawn" (full) and "dyn" (man), others again from "lon" (a plain) and "dun" (a hill). But the derivation "London," or "grove city," seems more probable than most of these. The name occurs in wooded parts of Scandinavia to this day.

Mail Carriers Will Fly.

This is an age of great discoveries. Progress rides on the air. Soon we may see Uncle Sam's mail carriers flying in all directions, transporting mail. People take a wonderful interest in a discovery that benefits them. That's why Dr. King's New Discovery for Coughs, Colds and other throat and lung diseases is the most popular medicine in America. "It cured me of a dreadful cough," writes Mrs. J. F. Davis, Stickney Corner, Me., "after doctor's treatment and all other remedies had failed." For coughs, colds or any bronchial affection its unequalled. Price 50c and \$1.00. Trial bottle free at all druggists.

A Good Bluff.

An Englishman and an Irishman made a bet which could swim the longest. On the day of the race the Irishman came to the shore in a bathing suit and a large satchel on his back. The Englishman asked him what he had in the bag. "Provisions for three days," coolly answered Pat. "The bet's off," said the Englishman as he handed Pat the money. A few days later he heard that Pat had swum a stroke. London Times.

What Makes a Woman?

One hundred and twenty pounds, more or less, of bone and muscle don't make a woman. Its a good foundation. Put into it health and strength and she may rule a kingdom. But that's just what Electric Bitters give her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, backache and tired, listless, worn out feeling. "Electric Bitters have done me a world of good," writes 'Eliza Pool, Depew, Okla.,' and I thank you, with all my heart, for making such a good medicine." Only 50c. Guaranteed by all druggists.

Astrology.

Astrology was cultivated by the Chaldeans, Egyptians, Hindus, Chinese, Greeks and Romans. It was much in vogue in Italy and France in the sixteenth century and gradually passed out with the rise of physical science. Shakespeare called it the "excellent foppery of the world" and in many instances ridiculed it to the full extent of his almost superhuman powers.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by C. Y. Lowe.

Who Really Knows?

"Who discovered America?" asked the new teacher. "Columbus," said one boy. "Lief Ericson," answered a second. "The Danes had a colony in it before Ericson was born," declared a third. "The teacher hadn't been used to classes like this. She passed hastily on to another subject—Louisville Courier-Journal.

For soreness of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pain. For sale by C. Y. Lowe.
