One of the most effective ways for local merchants to oppose encroachments of mail order houses is to advertise liberally in the home paper. Too many merchants sleep on their oars while the catalog house comes in and takes a large portion of their trade. They demur at undertaking anything like a thorough system of advertising, contenting that the drift to the mail order houses is bound to come; and yet they make free complaint over the inroads of the mail-order houses into their particular trade. The fact of the matter is, the trade belongs rightfully to them and would come to them if they were progressive enough in inviting it with good, live advertising.

Sickened of the Scalpel.

An extraordinary event led Lassone, physician to Louis XVI of France, to abandon his anatomical studies. While selecting from among some dead bodies a suitable subject for dissection he imagined that one of them showed doubtful signs of death and sought to revive a life which was perhaps not extinguished. His efforts were crowned with success. He cured the man and as he was poor nourished and supported him, but the idea of having been on the point of committing a crime so affected Lassone that he felt himself unable to pursue his accustomed labors, and from that time forward he studied natural history and chemistry in place of anatomy.

Mail Carriers Will Fly.

This is an age of great discoveries. Progress rides on the air. Soon we may see Uncle Sam's mail carriers flying in all directions, transporting mail. People take a wonderful interest in a discovery that benefits them. That's why Dr. King's New Discovery for Coughs, Colds and other throat and lung diseases is the most popular medicine in America. "It cured me of a dreadful cough," writes Mrs. J. F. Davis, Stickney Corner, Me., "after doctor's treatment and all other remedies had failed." For coughs, colds or any bronchial affection its unequalled. Price 50c and \$1.00. Trial bottle free at all druggists.

Champion Fasters.

The sect known as the Jains, in India, is said to be ahead of all others in fasting feats. Once a year these people abstain from food for seventy-five days, while fasts of from thirty to forty days are very common.

What Makes a Woman?

One hundred and twenty pounds, more or less, of bone and muscle don't make a woman. Its a good foundation. Put into it health and strength and she may rule a kingdom. But that's just what Electric Bitters give her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, backache and tired, listless, worn out feeling. "Electric Bitters have done me a world of good," writes Eliza Pool, Depew, Okla., "and I thank you, with all my heart, for making such a good medicine." Only 50c. Guaranteed by all druggists.

Great Luck.

"And yet they say there's no such thing as luck."
"What's happened now?"
"My dentist just called up and canceled an appointment I had with him."
—Detroit Free Press.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by C. Y. Lowe.

Why We Walk in Our Sleep.

The reason many persons walk in their sleep is because one part of the mind is wide awake when the other is asleep. But the curious thing about sleepwalking is that just because the walker is asleep and not conscious he can walk over dangerous spots which would probably cause him to fall through nervousness if he were wide awake. But as he is not awake and not conscious he generally walks safely and remembers nothing about it. So it is easy to see why it is dangerous to awake a sleepwalker while he is walking along a precipice or in some other dangerous position. —Kansas City Times

For soreness of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pain. For sale by C. Y. Lowe.
