After Burbank's Laurels.

Walter Drane and wife have returned from a three weeks' outing on the beach north of Bandon. Mr. Drane is much improved in health, a result he sought to attain. He presented to the Herald for inspection a new variety of gooseberry raised on the beach farm of Stephen Johnson, on the county road between Bandon and Empire. The berry measured $3\frac{1}{4} \times 3\frac{3}{4}$ inches, perfect in form, smooth and solid. Many gooseberries on the bush were nearly as large. Mr. Drane will plant the seed and nurture the growth with care, and if he succeeds in producing fruit equal to the parent berry, he will detract laurels from Luther Burbank.—Coquille Herald.

THE DECLINE OF BOOK SELLING.

The profession of book selling has fallen, and this generation must build it up. With shrinking profit salaries shrank, and poorer men manned the floors. With the poorer men the sales shrank. You who manage the stores must draft the best men you can and keep them by paying for good service. Think of what a profession it is. Compare the pleasures of handling books to handling hardware. Compare the customers with customers of a wool house. Why don't some of you engage college men? College men go out to teach at \$1,000 a year. Some of you could afford to pay them that for what they would bring you. Our stores must have men whose interest in books does not stop at the door, who can learn to love a handsome page, warm to a beautiful binding and to whom caring for stock is a labor of love.—Frederick G. Melcher, Publisher.

PERSIAN PROVERBS.

A prince who falleth out with laws breaketh with his best friends.

The laws are the only guards he can be sure will never run away from him.

Power in the prince and liberty with the people are like heat and moisture—where they are well mixed everything prospers.

Where the least useful part of the people have the most credit with the prince men will conclude that the way to get everything is to be good for nothing.

A wise prince will not oblige his courtiers, who are birds of prey, so as to disoblige his people, who are beasts of burden.

If a prince does not show aversion to knaves and deceivers they will deceive him till they ruin him.

A prince who praiseth others too soon is in danger of repenting it too late.

THE TONGUE.

He has a killing tongue and a quiet sword, by the means whereof a breaks words and keeps whole weapons.—Shakespeare.

Watch thy tongue. Out of it are the issues of life.—Caryl.

Fire and sword are but slow engines of destruction in comparison with the tongue of the babler.—Steele.

Hear much and speak little, for the tongue is the instrument of the greatest good and the greatest evil that is done in the world.—Raleigh.

Bescher Out For Base Stealing Honors.

Photo by American Press Association.

Bob Bescher, the Cincinnati Nationals' star left fielder and speed demon, says he is out to capture the base running honors of the country this season. At present Bob is leading the National league bag pilferers and is in a fair way to land the title. Bescher is one of the speediest runners in the game. Last season he led his league in stolen bases with eighty to his credit.

Zinn Crack Outfielder.

There was no blare of trumpets when the Highlanders bought the release of Guy Zinn from the Altoona club of the Tristate league last year. Guy was no high priced, highly touted phenom of the O'Toole-Marquand-Russell class, but an ordinary garden variety of green rookie. Guy jimmied his way into about a dozen games on the hill-top last season—not enough to get into the official averages. He played a few good games, but did not look as if he possessed big league caliber. Before going south this year Guy was not conceded a chance to stick with the big fellows, as it was thought that Wilfred Osborn, the former Phillie, would land the substitute outfield vacancy.

However, Zinn not only landed the job as substitute outfielder, but in three days clinched a regular position. The poor showing of the team has thrown a shadow over the good work he has been doing. With New York up in the race the praise of this youth would be sung all over. Zinn gives promise of developing into a great batter. He hits the ball hard, and, what is more, does his hitting in the pluches. Many times this season he has made good with runners on the trails. Zinn is no Ty Cobb on his feet, but he covers a big area of ground in the outfield and is fairly fast on the bases. He has made more hits than any other member of the Highlanders this season, and it looks as if he is in the big leagues to stay.

Motorboat Handicapping.

One thing has been settled in the present controversy as to the system of handicapping high speed motorboats, and that is that from now on hydroplanes of the various types will be compelled to race in separate classes from displacement boats. As to the handicapping dispute no general basis has as yet been decided upon. The rules of the American Power Boat Association will undoubtedly be used in all cruiser classes in which all the boats are of the displacement type, while other craft, it is said, will be rated, for some time at least, according to the individual club rules.

Boxing at Penn.

Boxing is to be a part of the regular athletic curriculum of the University of Pennsylvania and is under consideration by other eastern universities.

Dr. R. Tait McKenzie, director of athletics of the University of Pennsylvania, is conducting a correspondence with the heads of the athletic departments of the leading eastern universities with a view to seeing intercollegiate boxing bouts scheduled for next season.

Dr. McKenzie is a good boxer himself and believes in the sport for college men.

Daubert Best First Sacker.

If Jake Daubert of the Brooklynns were playing first base for the New York Giants he'd be rated in a class by himself. At that he is the best first baseman in the National league.

Good Deeds of a Dentist.

Dr. E. W. Endicott, our dentist, returned Monday after a month's absence upon a most important mission. He was married on June 18th to Miss Letty Walker at the home of the bride's parents, Fort Ransom, North Dakota. Minneapolis, St. Paul and the famous resorts near the twin cities were visited by the happy couple.

Mr. and Mrs. Endicott are now at home at the Stewart Lyons residence.

Dr. Endicott reported the weather conditions as admirable during his absence, traveling luxurious and ideal, and everything conspired to add joy to his sojourn.

We congratulate Brother Endicott for joining the great and sublime lodge of Matrimony and trust the "working tools" of his household may always be used not only as a means of providing "refreshment and sleep," but as symbols to impress the "innermost recesses of the heart" with all that is dear to the fullest enjoyment of life. May added "Es" in life be company for three and thine.—Coquille Herald.

Are Coming to Provoke Mirth.

For over thirty years the Nashville Students have been amusing the American people, it has become a household word with the public. The small children can always tell you who and what the Nashville Students are and what they stand for. It ranks along with the Barnum and Bailey and John Robinson circuses in age, and like wine, has improved with age until it today stands as the highest exponent of the small show minstrel art. Any one will tell you the original Nashville Student are good. They always have been and as long as they are under the thorough and expert management that they are today you can always rest assured that you will be pleased with their entertainment. Their singing, dancing, comedy and novelty acts rank with the best. They have been playing to capacity houses everywhere. The press has nothing but favorable comment for them and they are today giving the greatest, biggest, and finest show of its kind in America. The manager of the Orpheum theatre has secured them. This same show played here several months ago and gave excellent satisfaction.

Just His Luck.
