Taft Likely to Run Third.

London, Sept. 11.—Chamney M. Depew sees the presidential contest as between Wilson and Roosevelt, with Taft a 'bad third.' The former senator thinks the result of the state election in Vermont makes the republican outlook bad. He said, "It had been any other state than Vermont, it would not have been so bad, but Vermont was a rock-ribbed republican state and never had a habit of chasing political jack-o-lanterns like some of the western states."

"On the face of the returns," continued Depew, "it looks like a contest between Taft and Wilson with the latter running strong, but Taft having a good chance. Unfortunately, however, an analysis of the returns shows a different condition. Roosevelt drew practically his entire vote from the republicans, which means that if Roosevelt can hold his pre-convention following in New Jersey, Pennsylvania, Illinois and California besides other western states, it will be a fight between Roosevelt and Wilson, with Wilson a sure winner and Taft a bad third in any event."

"I am going home to do what I can for President Taft."

It is admitted now that the cranberry crop on North inlet will be the lightest of recent years, and there is no logical reason advanced for the shortage. There has been plenty of rain this season, more than common during the growing season, and yet there will be but one full crop of cranberries, that on the McFarland ranch of six acres. Cranberries, locally grown, have been in the market for some time, and the growers are obtaining \$3.50 per box for them. J. H. Pinkerton, who was down from his ranch today, says his crop will be less than 50 per cent of what it has usually been, and others in the neighborhood will be as short. Mr. Pinkerton lives on the Tenmile road, a mile and half from the North inlet landing and is inclined to charge his shortage to lack of water at certain times during the season. The Lyon's crop is short as is the Resin and Small production. The total, Mr. Pinkerton estimates, will not be over 50 per cent of the crop raised last year.—Marshfield Record.

Professor Raymond E. Baker and family expect to move to Coquille next week where they will make their future home. Professor Baker is the republican nominee for County school superintendent and as there is no candidate against him on any ticket he is practically certain of election and would have to move January 1st anyway, consequently he decided to move now, before the heavy rains set in. The many friends of the Baker family will regret very much to see them leave Bandon, but will extend their congratulations to Mr. Baker on his election to office and will wish them well in their new home.

Deputy Organizer S. W. Green, of the Loyal Order of Moose is doing good work in Bandon and vicinity. Last night a class of 14 was instituted and tomorrow Mr. Green goes to Coquille where he will obligate about 30, which will, however, be under the jurisdiction of the Bandon Lodge. In a short time a club room will be fitted up here and also at Coquille. We understand the charter will not be kept open longer than the 24th, and after that date the fee will be \$25.00.

Dr. White came up from San Francisco on the Fifield and is looking over the situation here with a view of locating. He is much pleased with the town and the adjacent country.

William Candlin, who arrived from Coquille at noon, is calling on Coos Bay customers. On being asked what news there was from the court house, he said he had never been in court but twice, once when he was transformed from an Englishman into an American, and once as a witness. Evidently, he thought that a pretty good record.—Marshfield Record.

The Man From the Bush.

The young man from the bush faced the baseball manager.

"Well?" said the latter.

"I'm a novelty player," the youth cheerily announced.

"What's the novelty?"

"I'm a warmer-up."

"You're warming me up all right. What is it?"

"When the pitcher begins to weaken an' t'other fellows touch him up, then I get out alongside the bleachers and chuck the ball to the change catcher, an' th' crowd says they're warmin' up the young phenom' from Skedoo, an' th' pitcher gets scared an' takes a brace and wins th' game. See?"

The manager regarded the ingenious youth with a serious air.

"Boshy," he remarked, "you sure are too good a thing to lose. I'll see if I can't get you a job pluggin' knotholes in the right field fence."

"All right," chirped the phenom'.

Colleges Fight Farmers For Men

"Oh why, be farmers, stockmen sawyers?" the college clamours loud and clear; why not be editors or lawyers, and wear fine linen all the year? Why soil your hands with loathsome labors? Why carry swill to cow or hog? Rise, rise above your toiling neighbors and be a fourth rate pedagogue! Why wear duck overalls and curry the hump-backed mule and brindled steer? Come to the college in a hurry and learn to be a bank cashier!

Through all the land the boys are dropping the yeoman's tools in deep disgust, resolved to learn the trade of yawing, resolved to wear boiled shirt or bust. Professions all are overcrowded: the starving lawyers throng the streets, and there are men in surplice shrouded who should be busy hoeing beets. Stenographers we've by the legion who haven't learned the way to spell, and in the fertile farming region the grangers raise an awful yell. "Oh send us help," we hear them crying, imploring with ten thousand tongues; "send us the husky skates who're trying to earn their living with their lungs! Send us a grist of half baked preachers of lawyers who have known no brief, send us stenographers or teachers, to shuck the corn or bind the sheaf! Above the grangers' mournful bawling, above their pleas for working men, we hear the college's veeety bawling. "Forsake the plowshare for the pen!" —Walt Mason.

Sam Ness, who has been spending the time at his Astoria home, since the salmon season closed last year, returned to Prosper last week and has his cannery in operation once more. He says indications are good for a big pack this season. The Salmon are commencing to run in real earnest now, and the gill netters have been busy for some time, while the seiners are all ready to start in at once. Both the Prosper and Coquille River Cooperative Canning Company's plants are now in operation and everything points to a good catch this year.

Bandon Druggist Deserves Praise.

C. Y. Lowe deserves praise from Bandon people for introducing here the simple buckthorn bark and glycerine mixture, known as Adlerika. This simple German remedy first became famous by curing appendicitis and it has now been discovered that single dose relieves sour stomach, gas on the stomach and constipation instantly.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by C. Y. Lowe.
