

World's Series Begins Oct. 8

New York, Sept. 25.—The opening game of the world's championship series will be held in this city, Tuesday, October 8. The national commission declared games will be alternated between here and Boston, one game each day, until the series is concluded. The Boston club will control the sale of tickets in that city. This is a victory for President Ban Johnson of the American league.

Will Hire Another Teacher.

At a meeting of the school board Tuesday night it was decided to hire another teacher in the grades of the Bandon schools so as to relieve some of the over crowded rooms. Nine teachers now have an average of between 45 and 50 pupils each and this is too many for effective work.

There are now considerably over 500 pupils in the schools and 15 teachers the additional teacher will make 17 members on the teaching staff, which makes quite a showing for our public schools.

Will Wed in Portland

Dan E. Malony, news editor of The Times, left on the Breakwater for Portland where on Thursday he and Miss Helen Bradley, daughter of Mr. and Mrs. W. C. Bradley, of this city will be married. Miss Bradley has been in Portland for some weeks a guest at the home of her sister, Mrs. H. O. Paddock.

The news of the approaching nuptials will not surprise their friends as "the little bird that tells" has been busy for some time. After a brief honeymoon trip they will return to Coos Bay to make their future home in Marshfield.—Coos Bay Times.

Commercial Club Last Night

The Bandon Commercial club met in Concrete Hall last night and though the attendance was not what it should have been, the meeting was a very enthusiastic one and a number of propositions for the general improvement of Bandon were discussed. The club will meet again next Thursday night and in the meantime a number of committees which were appointed last night will be getting in their work between now and then.

All business men and citizens who are interested in the progress of Bandon and adjacent country should be present at the meeting next Thursday night in Concrete Hall.

Along The Waterfront

The Elizabeth arrived in port yesterday with 240 tons of freight and the following passengers: R. E. L. Bedillion, J. M. Bayliss, Mrs. O. M. Brooks, Mrs. O. J. Planz, Mrs. W. H. Hoskinsonson, F. A. Peterson, J. H. Atting, R. Hubin, W. E. Edmonds, Capt. A. Jackson, E. Albert, A. D. Winegar, Frank Marvin, B. Z. T., L. H. Miller, Steve Urbo, John De Costa, E. Clark, P. F. Dyer, R. B. Van Fleet, H. H. ad. The Elizabeth will sail again tomorrow noon.

The Brooklyn arrived in port last night with 30 tons of freight and four passengers: F. Miller, J. A. Pressler and wife, H. Peterson. The Brooklyn will sail tomorrow noon.

The Fiield arrived in port this morning with 105 tons of freight and the following passengers: Geo. T. Carley, H. Sengstacken, E. B. Kausrud, P. S. Tyrell, Mrs. Ona Web, N. H. Sawtelle, D. M. Cross, Geo. W. Moore, Mrs. Carnross, Geo. Behring, H. C. Melvin. The Fiield will sail Sunday noon.

HAWLEY WILL WORK FOR IMPROVEMENTS

Will Ask Further Appropriation For Coquille River Bar And Harbor.

Congressman W. C. Hawley spent Wednesday in Bandon looking over the situation of the local harbor and other conditions here and addressed the citizens of Bandon at the old opera house Wednesday evening. Mr. Hawley took a view of the bar and inner harbor in the afternoon, and also took occasion to visit Bandon schools and gave an address to the high school and higher grades in the ward school.

In the evening he gave an address at the old opera house in which he reviewed some of the workings of Congress, especially in connection with the Rivers and Harbors appropriations and the Homestead laws both of which are of vital importance to people of this section of the country.

Mr. Hawley said that he was quite positive the government engineers would recommend a new survey of the river and harbor for a new project and that when the survey was made, a new appropriation could also be obtained, but he also stated that the action of Congress would depend largely upon what the local people were doing for themselves. This puts us on our own metal to a very large extent and again shows the necessity of organizing a port commission so we can be in position to act systematically. The matter of a permanent suction dredge for the Coquille river, similar to the Dredge Oregon was mentioned to Mr. Hawley, and the question asked whether or not the government would furnish the machinery for such dredge, providing the local people would build the hull, to which he replied he thought it could be worked without great difficulty. This gives us another chance to get help by helping ourselves, Mr. Hawley also talked to considerable extent on the subject of the settler and stated that the western delegation was working hard for the entrymen and some of the recent bills that have been passed will show that their work has been effective, although there are only 70 men in Congress from public land states as against over 300 from states where there are no public lands.

The meeting Wednesday night was held under the auspices of the Bandon G. A. R. and W. R. C. and was presided over by C. B. Zeek. The audience was not as large as it should have been, but those who were well repaid.

Crater Lake Praised as Greatest Wonder of Continent

Portland, Ore. Sept. 25 (Special)—That Crater Lake is the greatest scenic wonder in America was the decision of the party of seventy noted scientists who have just visited Oregon. They were amazed at the spectacle and as a result of their visit this great attraction will be widely advertised throughout the whole world. Hundreds of photographs were made of the lake and as many foreign geographers of note were in the party, the pictures of Oregon's great scenic feature will appear in many scientific magazines of the world.

FOR RENT—Three rooms for light housekeeping, on Pine Street. Phone or inquire of Mrs. L. Boyd. 7216x

Street Work In Progress.

Myrtle Point, Sept. 21.—This city will be quite metropolitan when the paving is finished. The five-ton steam roller of the Coos Bay Construction Company was brought to this city over the county road from Coquille and the work of rolling down the subgrade preparatory to laying on the concrete began. Brought on the same day was other material and large heater for melting the bituminous rock which the more progressive owners along the street will have put on the concrete base as soon as it is laid.

When all the work contemplated is finished Myrtle Point will have eleven blocks of paved street.

Tammany is Now on the Run.

New York, Sept. 23.—Threatening to make or unmake a mayor and to split with scandal a whole city administration, the graft probe forces have just begun a furious fight, which it is now recognized may result in the complete wrecking of Tammany Hall and the upbuilding of completely new municipal parties here. Republicans and democrats alike have begun to loose all national and state party ties in this sensational expose of political partnership in police corruption, that is being aimed at the bosses who have so long controlled the affairs of the metropolis. Within the next nine months it is predicted that the majority of the people of this town will be lined up for the city election entirely outside the old Tammany and anti-Tammany lines.

Crading is Being Rushed.

"We are so busy on the line that I have no time to attend the fair," said W. R. Fontaine, engineer in charge of the Coos Bay line, last evening as he left the fair grounds after a brief look-in, during which he surveyed the exhibits with an admiring eye. Mr. Fontaine says that everybody in his department is rushed by the contractors who are taking advantage of the fine weather to complete as much of the grade as possible.

At Porter Bros. headquarters everything is bustle though the machinery works smoothly without friction. Porter Bros. now have 452 men employed in 14 camps extending all the way from the end of Twoby Bros' contract on the Notli to Acme.

Work is also proceeding rapidly on the part of the line covered by Twoby Bros' contract and on the Utah Construction Co. contract on the Natron cutoff. The P. E. & E. is also pushing work so that there is no cause for men to idle these days.—Eugene Guard.

Are You a Onychophagomaniac.

At a recent congress of neurology, a paper was read in which the movement by which the growing lad caresses the first shoots on his upper lip was labeled moustachiositropomania; the habit of twirling the cane, seen in old drum majors, stepshabdomania; that of putting the little finger into the ear, otodactylomania. Then we have stomatodactylomania, who put the finger into the mouth; onychophagomaniac who bite their nails; harmoniomaniacs, who drum with their fingers on window panes or tables, and trepedomaniacs, who nervously move their legs.

Ladies—Miss V. Beyerle makes chic and classy hats, the only kind you should wear. Come and be convinced.

Oregon News.

The State Railroad Commission has backed up Governor West's request that the express companies should cease shipping liquor in false packages and to fictitious names by sending a letter to the superintendent of each express company in Portland in which attention is called to the law making it a misdemeanor to make false billing or false classification of shipments of any kind.

In an opinion rendered at the request of the Mayor of North Powder Attorney-General Crawford holds that a municipality has not under the home rule amendment, power to regulate the liquor traffic to the extent that it can authorize the sale of liquor on Sundays.

The most disastrous fire Cottage Grove has ever known occurred Thursday when the Commercial stables, Burkholder-Woods, warehouse, Knowles & Graber warehouses, S. R. Piper's residence and several small buildings were burned in about 30 minutes. The loss is estimated at about \$50,000. The amount of insurance carried is not yet known. The fire started in a room filled with matches, probably from spontaneous combustion, the building was a roaring furnace almost before an alarm could be turned in.

McLain May Be Affected.

Hugh McLain, candidate for state senator on the democratic ticket, says that he is afraid that he is knocked out from running, on account of a decision of the secretary of state in the case of Dan Kellaher, the latter was a candidate for state senator by petition and his name was written in for elector. The ruling by the secretary of state is that he must serve as candidate for state senator only, having petitioned for that place.

In the case of McLain he was petitioned as a candidate for democratic elector but his name was written in for state senator. Mr. McLain accepted the nomination for state senator, but he is afraid that the ruling will apply to him so that he will be forced to be the candidate for elector and cannot be the democratic candidate for state senator.

The democratic county central committee can, if it chooses, meet and name another candidate for state senator.—Coos Bay Times.

Ward is Knocked Out by Starvation Diet.

Middleton, Conn., Sept. 23.—George Ward an old time athlete, who four months ago began a series of experiments in living on a minimum amount of food of various characters, today is a patient in a local hospital suffering from lack of nutriment.

Although his condition is serious, the physicians say that careful treatment will restore health as he has a strong constitution Ward is 74 years old.

A few weeks ago he had cut down his diet to a basis where the cost was only 26 cents a week, and consisted principally of oatmeal, crackers and pancakes.

An unexpected rush of tourists to the Panama Canal this winter, prior to the letting of water into the canal has prompted the White Star line to announce a schedule of two of its newest steamers, Laurentic, 14,892 tons and the Megantic, 14,877 tons, for four cruises of 28 and 29 day's duration each, leaving New York January 8, January 22, February 8 and February 22.

Do you need a lamp, bell or other bicycle supplies? If so, see S. D. Barrows, the bicycle man. 58-11

ACTOR CURED BY FASTING PROCESS

E. H. Meade, Well Known Here was Cured from Paralysis.

A report from San Francisco states that Edward Meade, well known here, as manager of the Margaret Isles Co. has been cured from Paralysis by total abstinence from food and the cure has been demonstrated to the satisfaction of a number of physician.

The report says further: Six weeks ago, Meade who was visiting in San Francisco, suffered a complete paralysis following two strokes, his respiration only being unimpaired. Today he has recovered complete use of his left side, can use of his left side, can use his eyes, can speak practically as well as usual and has so far recovered the use of his right side as to be able to walk. He expects to leave San Francisco next week for Sacramento, absolutely cured.

Difficulty To Get Rails

The Eugene Register says: Twoby Bros report that work is progressing rapidly on the Noti tunnel on the Eugene Coos Bay railway. The head of the tunnel on the east side is now 925 feet into the mountain. On the other side clearing and grading is proceeding rapidly and an entrance will soon be made into the mountain. On the line work is also proceeding satisfactorily. It is reported that the Southern Pacific is having difficulty in getting steel for the track and that the work of laying steel would have commenced before this if it had been obtainable.

Bates & Rodgers, who are building culverts and bridges, report that the first stretch of 16 miles is ready for the track and that in a very short time, weather permitting, the line will be ready for a much greater distance.

Garrison No Longer Hopes

Frank S. Garrison, who is in the state penitentiary and who was found guilty of killing Roy Perkins, and was sentenced to be hanged, writes that he has given up all hope of ever being released. In a letter to The Times he states that he has presented his case to Governor West, but he has been refused a further hearing. He still insists that he has evidence which would clear him if he was allowed to tell it. Garrison writes:

"The governor has refused me a hearing. I wish you would so inform my friends. I will be butchered on December 13, because that is all hanging is anyway. I wish I was over there for a while, the way my friends have been killed off. Two of them, the one I caused to come to the bay. He was at the city jail the night after Mr. Graves left. If my case had carried up to the supreme court and been reversed Jake Evans would have been a witness at the next trial. That is why he is dead. Look at the parties who have taken most interest in his and Joyner cases. They were connected with my conviction."

—Coos Bay Times.

Orpheum.

Miss June Hall will appear at the "Orpheum" for one week commencing Monday Sept. 30th.

"Working Like a Dog."

You have heard people say that they had worked like a dog all day. If this were literally true, says a man who has observed the habits of canines, the twenty-four hours would be spent thus: One hour digging out a rat, two hours gnawing a bone, one hour waiting for a cat to come down from a tree, half an hour begging to get into the house and the rest of the time sleeping on a mat in front of the door fighting fleas.

It Would be Useless.

Mrs. Black's servant girl had been in the habit of going out to meet the grocer's boy when he came to the back door with goods. Observing this, Mrs. Black watched and saw the boy kiss Norah heartily. When the girl came in Mrs. Black said severely:

"Norah, I saw the grocer's boy kiss you this morning when you went out for the groceries. Hereafter I shall go myself."

"All right mum," said Norah, "but 'twill do yez no good. He says he won't kiss nobody but me."

The Man Who Knows It All.

Every town has a man who knows it all. If he is at a ball game, he knows exactly when the umpire is wrong and can tell you every time a player makes a mistake, says the Observer. If he is at a horse race he will inform you where a certain driver lost the race. At the whist party he will tell you how you could have won another trick by playing differently. In short, he knows it all the time. It doesn't pay to argue with him. You can't knock any conceit out of him and you will only lose your temper. Don't argue with a man who knows it all. The only possible thing you can do is to try to tell a bigger lie than he does, and then you want to tell it last.

Prof. Kausrud Returns on Fiield.

Prof. Kausrud, the popular leader of the Orchestra at the Grand Theatre has returned from his vacation at San Francisco and other California cities. The Prof. says that owing to a strenuous attack of "mal-demer" on his trip back, he is going to rest up for a day in order to recuperate. Patrons of the Grand can feel assured that Prof. Kausrud will be at the Grand tomorrow night in his former place, to play the Pictures.

Prof. Gerome's Dancing School.

School opens Friday night, Sept. 27, at the Wigwam, 8 p. m., teaching all the up-to-date dances. Children's class opens Saturday afternoon, 3 to 5 p. m. Private lesson daily. Phone, Farmer 44, or leave word at Wigwam. PROF. GEROME, Instructor. 75-12
