TUESDAY.....November 26 1912

No finer dairy section exists anywhere in the United States than in Coos county, southwestern Oregon. Plenty of wood and water and green grass the year round. Ten acres will keep ten cows. A good cow produces \$100 to \$150 in butter and cream per year. The climate is temperate and even in winter and summer. No snow, no ice, no cyclones, no lightning. Good rich land can be purchased at \$25 to \$200 per acre, depending upon location and amount of labor required to clear. Two railroads are coming, settlers are coming. Prosperity is coming to those who take advantage of the great opportunity offered just now to home seekers in Coos county and business opportunities in Bandon. Vegetables and fruits grow here in abundance. Three to thirty acres produces a comfortable living. Bandon is the fastest growing city in the county, situated on the prettiest stretch of ocean beach, between San Francisco and Seattle. It is an ideal summer resort. Two hundred and thirteen steam ships and sailing vessels passed over the Bandon bar from July 1st 1911, to July 1st, 1912. Bandon furnishes a first class market for the products of the soil and for manufacturing. Better investigate.

The Bandon bar has been picturesquely rough for a few days past. The ships ploughing through the rolling breakers, enveloped by foam and mist, is a grander sight than any motion picture in the world. The scenic beauty and awful grandeur of the glorious old Pacific is seen daily and hourly from the very business streets and residences of Bandon by the sea. This growing city offers one of the greatest opportunities on Pacific coast for a first class natatorium and pleasure resort.

There are one thousand billions of feet of lumber to be marketed from Coos county shipping points by rail and water. The ships are busy; the railroads are getting busy. How about you Mr. homeseeker? The dairy resources are unlimited. Also fruit and vegetable resources are unlimited. Land values are increasing, opportunities of various kinds are multiplying. Have you \$500 to \$2000 to invest in a home? Come to Bandon, Coos county, Oregon; the land of sunshine and flowers, beautiful streams, fish, game, with varied and unsurpassed opportunities for all. Better get in ahead of the new railroad now building.

We may have misunderstood Dr. Gale, but we understood him to say that man is a bacteriological compound of a more or less human character.

No one, as a rule, admires the public speaker quite as much as the public speaker.

Another thing we have noticed is that we have a lot of notions that no one else seems to notice much.

Do not forget that Bandon is the fastest growing town in southwest Oregon.

According to the United States geological survey there are about 7,000,000,000 tons of coal in Coos county.

We prefer Coos county mud to the aerial breezes of the bird man.

Scientists say that man evolved from a fish; this accounts for the numerous suckers.

Mr. G. M. Rogers says he thinks there are good men in the churches as there are out of them.

The smaller he mind the more easily it is prejudiced against even mere words as well as persons

When you pity your neighbor for his peculiar weaknesses, remember he pities you for exactly the same reason, your peculiar weaknesses.

No one ever made very many speeches without making some fizzes.

If you have an opinion of your own some one will hate you for it.

He who believes all he teaches is usually a man of sorrows; he who teaches all he believes is a man of greater sorrows.

Prejudice is the cruellest enemy of progress.

Why go to the bleak and barren plains of Canada when thousands of acres of rich and fertile land awaits the home seeker in Coos county Oregon. Three hundred and twenty to six hundred and forty acres are required to make a living in Canada. Three to thirty acres will answer the purpose in Coos county with wood, water and all the conveniences of life.

Sunday was a beautiful day and most of the citizens of Bandon took advantage of the opportunity to get out. The new steamer Speedwell was the main source of attraction and the people thronged to and from her during the entire afternoon, and most everyone stopped to participate in the excellent luncheon that the management of the Speedwell put up.

No Commercial Club Thursday Night.

There will be no meeting of the Bandon Commercial Club Thursday night of this week, as it is Thanksgiving and a legal holiday. The regular meeting will be held again Thursday evening of next week and all members as well as all others interested in the development of Bandon and adjacent country should be present.

W. W. Stratton painter and paper hanger, who has recently located in Bandon, did the finishing work on the myrtle panel work in the social hall of the new steamer Speedwell.

The bell for the new Presbyterian church will be here soon. The old bell was sent away and re-melted and the new one will be a composition of the old one with new material added in sufficient quantity to make the bell larger and better. The bell will be ready for installation by the time, and probably before the church is completed.

Creamery Reopens.

The Bandon creamery, as was announced in Friday's RECORDER has been bought by J. C. Baker of Seattle and is now ready to receive cream. Mr. Baker has had 15 years successful experience in the creamery business operating principally at Seattle. His policy will be to pay the highest market price for cream and to make settlements for all shipments every two weeks. This policy of prompt and frequent payments will assure the popularity of the creamery among the dairymen.

Millinery.

Miss V. Beyerle late of Portland, makes a specialty of making over ladies old hats, also new and up-to-date models made to order. At residence.

Next Thursday is Thanksgiving. We are thankful we are out of jail. If we live till January we intend to make a big resolution; and that is not to be as big a fool in 1913 as in 1912.

Progress of Socialism in Bandon.

The socialists of Bandon are progressive. Mr. Fulcher has contributed his private legal library, consisting of over one hundred and sixty volumes, to the Ladies Socialist Study Club.

Arrangements are being made for a number of students to take a correspondence Law Course from the legal department of the Appeal to Reason.

The leading daily and weekly socialist publications will be added to the propaganda department.

The Ladies Study Club holds meetings at the Bandon Opera House on Saturday evenings of each week, at 8 p. m. A part of this society will be to study municipal, county, state and national politics and laws.

The study of the city charter was taken up on Sunday afternoon, November 24, at the regular meeting of the Local.

Every socialist should be a subscriber to the Bandon RECORDER and keep posted on the progress of our work.

An effort will be made to organize the workers of the mills, camps and mines, into a working class solidarity for the purpose of lining up the workers and producers for the next campaign.

W. FULCHER.

Myrtle Point Locals.

A steam shovel is being moved to a point south of town where it will be used in railroad work.

W. S. Cooley of the firm of Cooley & Farleigh left Saturday for Oregon City, on business.

Ira Sturdivant, of Marshfield was in town a few days this week visiting his parents.

R. C. Dement and wife returned last Saturday from Hubbard, Oregon where they have been visiting their daughter Mrs. L. A. Braden.

A Question of Flavor.

Believing that the Thanksgiving dinner should have a Spiritual Flavor we have arranged to hold the union Thanksgiving service at ten o'clock, Thursday morning, at the M. E. church. Rev. Hartranft will preach. Your presence at this meeting will add spice. Come. —John J. Mickey.

W. J. Sweet's new residence in Azelea Park is moving along rapidly during this fine weather, and will soon be inclosed if the good weather continues.

A. S. Elliot's new house in Azelea Park is fast nearing completion and will be a beautiful and comfortable home when completed.

A number of new houses are to go up in Bandon in the very near future in addition to the many that are already under course of construction.

Without Argument.

It is said that one of David B. Hill's first lawsuits was a nonjury case in which the opposing counsel was one of the best attorneys in New York State. Hill gave a speech which lasted about three hours. It was such a speech as might be expected from a young lawyer and it was very trying on the Court. After he had finished, his opponent arose and said: "May it please the Court, I intend to follow the example of my young friend and submit the case without argument." Hill lost the case.

F. H. Colgrove of New Lake has established a tie camp and has five men at work already. He has several more men on the way from San Francisco, and will go into the tie business on a big scale.

R. P. Hunt and family of Four-mile are leaving their ranch and moving to Bandon where they will reside permanently.

See Window Display.

Fakirs.

Fakirs is the name given to a celebrated class of fanatics found in many parts of the east, but more particularly in India. Some of them will make a vow to continue all their lives in one posture and adhere to it strictly. Others never lie down, but remain in a standing position all their lives, upheld only by sticks or ropes under the armpits. They pretend to have subdued every passion of mortality.

Hard Luck.

"Well, how about it?"
"Her father and mother both object to me."
"Hard luck."
"Hard luck for fair. It's the first thing they have agreed on in years." —Louisville Courier-Journal.

Cornering Her Dad.

Her Father—I judge a man, sir, by the company he keeps. The Sult—Then I'm all right, for I've been keeping company with your daughter for over two years. —Boston Transcript.

Boldness is ever blind, therefore it is ill in counsel, but good in execution. —Bacon.
