FRIDAY ..... November 29 191

Bandon will have two railroads before the San Francisco fair. Building activities are increasing. acreage tracts along the route of the new railroads are selling and increasing in value. The RECORDER wishes to remind the citizens of Coos and Curry Counties that what this great section needs is the dairyman, fruit growers, stock raisers, and truck farmers as well as timber men and miners. The land should be kept within the reach of the home seeker of modest means. The new railroads will bring thousands of tourists and home seekers looking for land on which to establish homes. Let prices be kept within reasonable bounds and there will be surprising developments in Coos and Curry counties and throughout the entire country traversed by the new railroads. On account of inadequate transportation facilities and lack of good roads, the great empire of southwest Oregon has been isolated and its resources, almost beyond belief in magnitude, are comparatively unknown. We believe it is good business policy for residents to use their influence to prevent, rather than help bring about inflated values, either in town or country. Settlers coming in should be encouraged to locate at fair and attractive prices; settlers who will clear the land, raise vegetables, fruit, grain, live stock, dairy products; who will build residences, roads, and school houses, and who will make all improvements incident and necessary to a great and growing empire. The coast road through Bandon will be a route of scenic beauty. Thousands of home seekers will prefer to locate on the coast rather than in the interior of the state; where the fresh and healthful breezes of the "Father of Waters" may be enjoyed; where the climate is uniform and temperate in all seasons of the year.

Words are inadequate to express the horror of the awful accident which happened at Seeley & Andersons Logging camp last Monday when a logging train went through a high trussel and plunged 100 feet to the earth below. Five lives were crushed out and another is lying at the point of death. That such a terrible disaster should happen at the doors of our city is to be regretted indeed. It is said the high bridge was a terrible death trap, having been constructed in a flimsy and unwork manlike manner. The RECORDER does not attempt to fix the responsibility, but some one is terribly at fault. The innocent have been sacrificed and loved ones caused to mourn because of carelessness or incompetency somewhere. The unfortunate victims who went to their death are not to blame. They died at the post of duty; but someone is to blame.

The Bandon beach is ideal for a natatorium and pleasure resort. More than one hundred campers tented on the plateau adjacent and overlooking the beach and bar last summer. From this vantage ground is afforded the finest view of the ocean in Oregon. When some enterprising business man puts in a swimming plant with steam heat, and the usual attractions of such pleasure resorts, there will be more campers on the Bandon beach. The city will be thronged during the summer season with rusticators and summer visitors and the natatorium will be one of the best patronized institutions in town.

Fifty thousand tickets have already been sold to home seekers in Europe to be landed on the coasts of the Pacific Northwest as soon as ships can get through the canal.

Well, the Speedwell does very well.

And now the Carnegie Corparation purposes to pay ex-Presidents of the United States $25,00 a year. It is to be hoped that no ex-President will ever take adxantage of such an offer. It would be humiliating for an ex-president to feed out of Carnegies hand. If the ex-presidents can not take care of themselves let the people of the United States care for them and not Andrew Carnegie.

Is work honorable? Yes, in the other fellow. Adam was cursed to earn his bread by the sweat of his face. How then is work honorable? Or is that an old fairy tale about Adam being cursed for eating an apple?

Five hundred thousand home seekers will land on the coast of Oregon, within two years from the opening of the Panama Canal. Better get in ahead of the rush.

The count of the Oregon vote is finished. Wilson received 47,064, Roosevelt 37,700, Taft 34,673 and Debs 13,329.

We still contend that the girl who can parse a noun but can't boil a parsnip is not properly educated.

Let the fireman go to blazes; they get paid for it anyway.

What is death? Don't know.

What is life? Happiness.

Notice of Final Account.

Notice is hereby given, that Charles I. Green has filed in the County Court of the County of Coos and State of Oregon, his final account in the matter of the Estate of Hanna J. Green, deceased and that the Honorable John F. Hall has appointed Monday, January 6, 1913 at the hour of 10 o'clock a. m., of such day, at the Court House in Coquille City, as the time and place for hearing objections to such final account and the final settlement and closing of said estate and has directed the undersigned administrator to give notice of such final hearing in some newpaper published in the County, once a week for four successive weeks. Therefore, all persons interested or otherwise, are hereby notified that a hearing will be had on such final account at the above stated time and place and those having objections to such final account must file and present same on or before such date. This notice is published in the Friday issue of the Bandon Recorder, a semi-weekly newspaper, published in Coos County, Oregon, for four successive weeks, the first on Friday, November 22, 1912, and the last on December 20, 1912, being published five times.

On one and the same day seven persons were killed at Newark, N. J., in a motorcycle that got out of control and four met death in France from a wild aeroplane. Having tamed the brute creation, it is now up to man to tame his own machines.

Finding a Lost White Race.

After years spent in the north Professor Vilhjalmar Stefansson returns to civilization with marvelous news It is that on Victoria island, north of North America, and on the mainland is living a white race with blue-eyes, fair hair, or in many cases red, and light complexions and beards. There are about 2,000 of these people, and until the explorer visited them they had never seen a white man outside of their own tribe.

They speak Eskimo, but Professor Stefansson thought he detected words of a Norse origin in use among them. He also discovered a stone hut like those of the Norwegians in the tenth century. His own theory is that these people are the descendants of the colony planted in Greenland nearly a thousand years ago. They have traditions of a flood, but all peoples on earth have these. They use bows, and arrows whose points are tipped with copper, and knives with copper blades.

These strange people live within the arctic circle, where there is little or no vegetation, depending for food on the fish and game they kill with their primitive weapons. How they ever got so far west from Greenland, supposing that they are descended from the Norse colonists, is not plain, but Professor Stefansson's theory is that they were driven thence by an Eskimo invasion. Perhaps one of the most remarkable things about them is that they should have kept their race pure for so long, refusing to intermarry with the native tribes.

Fakirs.

Fakirs is the name given to a celebrated class of fanatics found in many parts of the east, but more particularly in India. Some of them will make a vow to continue all their lives in one posture and adhere to it strictly. Others never lie down, but remain in a standing position all their lives, upheld only by sticks or ropes under the armpits. They pretend to have subdued every passion of mortality.
