Recorder Philosophy

A crooked nose is not objectional as a crooked character.

We are apt to over estimate our peculiar notions.

Pardon others but condemn yourself.

The good qualities of a poor man are never over estimated.

We condemn in others what we allow in ourselves.

Alter every argument we swear off.

Since the newspapers have quit publishing stuff about Roosevelt he doesn't seem to be so great. (Note: Greatness is mostly a matter of feckish notoriety.)

How many modest men do you know? We know a few—but they are bluffs.

What we hate about actors is their insufferable egotism.

President Wilson is no wiser than professor Wilson, yet those who sneered at the professor will lick the President's boots.

Watch Bandon grow. Bandon has doubled in population in four years. Will it do it again? We bet yes.

Pessimist: One who contends that every good thing is an accident and shouldn't have happened anyway.

Our idea of greatness is the man who will be fair in a corner grocery argument.

Coos County Coal Field.

Bandon is situated in a coal field of 200 square miles extent according to Mr. M. F. Throner, in the Oregonian, March 8th.

We have many times called attention to the immense coal field contiguous to Bandon. It contains more than one billion tons of fine coal, worth \$70,000 an acre when marketed. According to Mr. Throner this coal will furnish as much traffic as the entire north west wheat crop will amount to in the next 300 years. Mr. Throner has spent 14 years in the east and 5 years in southern Oregon investigating coal and oil fields.

He says this coal is as good or better than the famous Pennsylvania coal. The same cry was heard in the east that is that Pennsylvania coal would not make steam and would not make coke, etc. But when the eastern coal fields got out of the hands of the farmers and into the possession of railroads and other corporations the coal suddenly became the best in the world. Coos and Douglas county coal is equally as good. As late as 1897 the small owners of coal land in Pennsylvania could not borrow \$1.00 per acre on their coal land. Now the same land cannot be bought at any price. It is making millionaires as fast as the coal can be mined. Coos County coal will be as famous as Pennsylvania coal and will bring untold wealth to this section. All it needs is developing. And it will be developed. It will make steam and it will make coke and it will make this county one of the very richest in Oregon or the United States.

One acre of wheat land will produce annually in wheat the equivalent of one ton of coal in traffic. Since one acre of Coos County coal land will produce 15,000 tons of coal it will produce as much traffic in one year in cash as one acre of wheat land will produce in 15,000 years in wheat.

Have the readers of the RECORDER realized what this means for Coos County and Bandon?

It seems too big to be true, and yet men of experience and proved ability make these statements or similar statements and hold that they are conservative and absolutely reliable. When the people with the capital to develop Coos and Douglas county coal fields get the coal land in their possession the history of Green and Washington County, Pennsylvania will be repeated and this section will become one of the richest coal centers in the United States.

A Few Things to Think About

Every sympathizer with labor, every lover of justice, every despiser of war and hell on earth, every lover of "peace on earth, good will to man" should support the socialist party. You ask why? The answer is because no man or woman with a human heart in their breast can look at the injustice and cruelties of capitalism, under the present system, without feeling keenly the necessity of putting an end to the inhuman, heartless brutalities that are being persistently upheld by the two old parties in control of our government, and because the socialist party stands for the complete overthrow of capitalism and establishing in its place a co-operative commonwealth, under which every man will be the possessor of what he produces, and nothing more.

Because it stands for the emancipation of the working class, for giving the women the same show given to men, for the protection of her rights; for the abolishment of child labor; for the working man being fairly represented by our government; for the working class being employed by the working class and for the working class; for the discontinuance of bloody war forever. These are the principals of the Socialist party and all socialists may be proud to fearlessly proclaim them because we know our cause is just to all men and exemplifies the teachings of Christ. Can as much be said of the principles of either of the old parties or of the boy scout promoters? We think not.—Geo. F. Hoover.

To Make Hens Lay in the Winter.

when eggs are scarce and high is the acme of poultry raising.

But it requires great care and attention and a considerable amount of tramping to the chicken yard when it would be decidedly more comfortable to rest by the fire in an easy chair. The man with a bad liver or corns on his feet is tempted to neglect his fowls. But it is not necessary to have a bad liver or corns. Just send 10 cents to the Woodstock Company, Washington, D. C., for a package of their Liver Tablets, or Corn Plaster, or 20 cents for both, if you need them, and then see how your hens will lay.
