Recorder Philosophy

Apologies are diplomatic lies. The last big storm is always the worst.

Get out the old flag Saturday and let her wave.

A strong mind is one that throws off its prejudices.

The man with a big income is not interested in reform.

No honorable man can ever permit himself to betray a trust.

At last the Bandon cow has joined the back to the farm movement.

The woman who "makes" her husband, generally makes him mind.

A go slow policy is not always a safe policy; it may mean death instead of life.

The man who works in the rain is working for himself or working under a boss.

Nevertheless we continue to worry about half the time over troubles that never happen.

When you meet the right girl—she won't marry you; she will probably have better sense.

About everything was defeated but the Fourth of July. Can we have a celebration or do you vote no?

Thousands of foolish prayers go up daily to the Lord and the devil is blamed because they are not granted.

We hardly think an adult should have the faith of a little child; the faith of a little child is based upon ignorance.

Among other things which a newspaper gets for being the leading paper in the town are the sneers of its opponents.

A woman in Kansas City loved a barber so well that she chopped his head open with a hatchet. That is too much love.

Individual righteousness is not always sufficient. A black slave can be very pious and righteous and still be a miserable slave.

When a large percentage of the people become poverty stricken, revolution is always imminent. The man with nothing is ready for any old thing.

It is said that Jack Johnson's white wife's step father is wealthy; but he will probably spend little money in trying to keep his negro son-in-law out of jail.

According to press reports diamonds are going up. This makes us worry. Most of our old diamonds are looking shabby and we were thinking of buying a bunch of new ones.

You did not get the water plant; but some people have little use for water anyhow—except as a "chaser." Note: For the benefit of the new lady voters we explain that a "chaser" is a swallow of water in a small glass to wash down a drink of whiskey.

Why is progress so slow? Because people do not do their own thinking. And the reason they do not do their own thinking is because it does not pay. Only one in ten thousand does his own thinking and these few are made to suffer for it. Only a very few can make it pay. To all others it is costly both financially and socially to do their own thinking. We are literally bound and lettered by the things that have been said and done in the past, by precedent, prejudice and superstition. If you could cut loose from all prejudices and superstitions and say and do the simple truth in all respects you would be considered a freak or worse and would be locked up in some asylum.

OREGON NEWS

Portland, Ore., June 12. (Special)—From all indications Oregon will make a better showing in the Eastern Land Shows this year than ever before. The Oregon State Immigration Commission, with headquarters at the Commercial Club, Portland, is urging commercial bodies of the state, as well as individuals, to make suitable exhibits which will be included in the state display with no expense save that of gathering the specimens and taking them to the depot. They will be shipped from the nearest railroad point to Portland, assembled in a general exhibit and will be sent east by the commission but each organization or grower will receive full credit for the products entered.

A circular is now being issued by the commission giving directions for gathering and shipping the exhibits. Attention is called to the need for careful packing, the selection of only the best specimens and advice and assistance is offered. It is pointed out that the co-operation of all parts of the state is necessary in order that the agricultural wealth of Oregon may be shown to the best advantage and that success may be attained in competition for prizes with the exhibits made by other states. It is suggested that the decision to choose exhibits for this purpose should be made early in the season and that few choice specimens from each community are much better to show the East what Oregon can grow than a large quantity of sample grains, fruits and vegetables of mediocre quality.

Homesteaders in Central Oregon are making good, declares President Joseph Young, of the Hill lines in Oregon, who lately accompanied Louis W. Hill, of the Great Northern, on an extended tour of the state. Crop conditions are said to be excellent with prospects of a big yield. Development work of all kinds is going ahead well and new settlers are coming in from the East and establishing themselves.

Students of forestry at the Oregon Agricultural College are enlisting in practical work this summer and are gaining experience in the service of the government, or of private timber companies in patrolling timber holdings. Vacations spent in this way are profitable not only in a financial way but give the student a practical working knowledge of the business.

Improved plans for marketing the fruit crops of the principal northwestern districts have just been completed by the North Pacific Fruit Distributor's Association and are expected to be of benefit to the fruit growers throughout the Northwest group of states. Better arrangement for marketing have been lacking and it is thought the scheme just perfected will supply this need.

The Southern Pacific Company will spend millions on its Oregon lines during the next two years, according to a formal statement of planned improvements that has been submitted to the California railroad commission. The company asks for permission to issue bonds to the amount of \$30,000,000 and gives as a reason for the request the number of heavy contemplated investments in this state. Among these are: Electrification of lines in the Willamette Valley; reconstruction of the Sheridan-Willamina railroad at a cost of \$2,501,880; Corvains and Eastern R. R., \$270,580; Pacific Railroad & Navigation Co., \$124,540; Salem, Falls City & Western, \$68,680.

Play Game Over.

Manager Ogden, of the Marshfield ball team stated today that President Kern, of the Coos County League who has been investigating the contest over the Marshfield-Coquille game at Coquille last Sunday, informed him this morning that the game would have to be played over again on neutral grounds, probably at North Bend. It is expected to arrange the game for the near future. Next Sunday Marshfield and North Bend will play a double header at North Bend on Elm Point and Coquille will play at Bandon.—Marshfield Times
