#### ------Corn Leading Crop

The relative importance in value of the lifferent agricultural products does not change materially from year to year; even in a lapse of 10 years, from one sensus to another, there is not much change in the relative standing of the leading crops.

Corn is by far the leading crop; from the ensus of 1900 its value had increased more 27.6 per cent of the value of all the crops in 1900 and 26.2 per cent in 1900. Hay and golden promises thas have made many of a sham a girl becomes the more to age represented 19.1 per cent of the value of all crops in 1900 and 15 per cent in 1910, Cotton (including cotton seed) represented 12.4 per cent in 1900 and 16 per cent in 1910. Wheat represented 12.3 from running away to get marr ed per cent in 1900 and 12 per cent in 1910, oats 7.2 per cent in 1900 and 7.5 per cent While we are not paid to boost in 1910. #### Harvest Must Be Earned

If there were more land dealers like the fellow who put out a circular headed "Failures Need Not Apply," there would be les dissatisfaction among the people who come night cases are reported of persons being West to begin the farm life. Under the farmer? Can you work an acre for all it is worth with your own hand at the plow Can you take the weather as it comes? Can you accept the advice of the successful and follow good examples? If you can not say ves in your heart to these questions, then chuck this circular in the waste baske'. Successful farming is a hard fight and a worker's battle, and if more people realized this there would be less failures and consequently greater satisfaction with farming. The people who begin farming with the idea than 73 per cent, nevertheless it represented that they have a gold mine that works it's self are almost sure to fail. #### Currency Bill Next.

Washington, June 20 --- President Wilson wants currency legislation enacted at the present session of Congress, and will bend every effort to accomplish that purpose. The The five articles mentioned, corn, cotton, President planned to write his currency message to Congress to-day. It will be pre-

It also was announced to-day from admin istration quarters that Secretary McAdoc and Chairmen Owen and Glass, of the Senate and House banking and currency committees, respectively, had reached an agreement on the main features of the currency bill they have been drafting for the last two

The president, it is understood, however, an expression of his ideas, but will call attention to the need for currency reform. His argument will be along the line of his letter recently to Senator Tillman, in which he de clared that "in loyalty to the country," legislation was necessary during the present session of Congress, "so that any attempt to create artifical disturbances after the tariff shall have become low may be offset by free system of credit which will make it possible for men, big and little to take care of themselves in business."

The currency message is not expected to be more than 1200 words long, and it is not DR. R. V. LEEP known whether the President will read it to Congress as he did the tariff message of send it to both Honses as was the custom before he broke a precedent of a century.
